***Changes in the definition of "same store"**

From the Jan 2015 IR report, the definition of "same store" has been changed as follows:

- While same store was previously defined as a store which had been open for 18 months or longer, the period has been changed to 13 months or longer, which is the standard within the industry.
- Previously customer traffic did not include traffic from the delivery business. However, in consideration of the increasing impact of the delivery business on sales and customer traffic, we now include traffic from delivery business in customer traffic. The definition is as follows:

  * Customer traffic from delivery = Delivery sales / Average check
- Previously same store sales did not include stores which underwent brand conversion. However, converted stores are now being added to the category of same store sales as conversion is one of our key initiatives for traffic growth.
