(Note 1) Previous forecasts for both interim and year-end dividends per share were not determined.

(Note 2) The Company has acquired and cancelled all class A shares on May 11, 2015, so dividend for class A shares will not be paid from 2015.

3. Reasons

The amounts of interim and year-end dividends per share for the fiscal year ending December 31, 2015, had been undecided. However, taking into account the elimination of preferred dividend obligations with the acquisition of class shares executed on May 11, 2015, and out of a desire to further enhance shareholder return, an interim dividend amount of 10 yen per share is set, based on an overall consideration of the profit levels in the fiscal year, the outlook for the next fiscal year and beyond, funding needs for capital investment, the status of internal reserves, and other factors.

The year-end dividend is expected to be 10 yen per share, for an annual dividend of 20 yen per share.
