Revision to Dividend Policy (Payment of Interim Dividend)

Yokohama, August 7, 2017 - Lasertec Corporation today announced that the Board of Directors decided on August 7, 2017, to revise our dividend policy as described below.

1. Outline of revised policy (payment of interim dividend) and reason

In view of better profit return for shareholders, we have decided to change our policy on dividend of surplus from the current annual payout of year-end dividend to semi-annual payout of interim and year-end dividends. We plan to start the payment of interim dividend from the next fiscal year (fiscal year ending June 30, 2018).

Our basic policy concerning dividends is to flexibly pay dividends based on performance while maintaining a stable profit return, with a consolidated dividend payout ratio guideline of 35%. There is no change to this basic policy.

Our articles of incorporation state that we may, "by resolution of the Board of Directors, pay interim dividends to the shareholders or registered pledgees of shares appearing or recorded on the final Register of Shareholders as of December 31 of each year." Interim dividends can be made with the resolution of the Board of Directors whereas year-end dividends are subject to approval at the general meeting of shareholders.
