JDI Japan Display Inc.

Japan Display Inc. Announces Acquisition of Site for New G6 LCD Fab

TOKYO, Japan, April 1, 2015 – Japan Display Inc. ("JDI") today announced that it has acquired land for the company's planned Generation 6 (G6) LCD Fab. Details of the property asset acquisition appear below.

* * *

1. Reason for acquisition

On March 6, 2015 JDI announced its plan to build a new G6 LCD manufacturing fab in Japan. The newly acquired land will become the site of the planned G6 fab.

2. Acquired asset

Location	Type	Site area
Hakusan City, Ishikawa Prefecture	Land	Approximately 143,000 m^2

Note: Under an agreement with the seller the purchase price of the property will not be disclosed. However, the value of the investment in the land asset is consistent with information in JDI's March 6, 2015 news release ("Japan Display Inc. Announces Plans to Build New G6 LCD Fab to Satisfy Growing Demand for Advanced Displays").

3. Overview of property seller

(1)	Name	Kirin Brewery Company, Limited	
(2)	Address	10-2 Nakano 4-chome, Nakano-ku, Tokyo 164-0001, Japan	
(3)	President & CEO	Mr. Takayuki Fuse	
(4)	Type of business	Brewer of alcoholic beverages	
(5)	Capital	30 billion yen	
(6)	Date established	July 1, 2007	
(7)	Major shareholder and ratio of shareholding	Kirin Company, Ltd. (100% shareholding)	
(8)	Relationship between the listed company (JDI) and the relevant company	Capital transactions	Not applicable
		Personnel transactions	Not applicable
		Business transactions	Not applicable
		Related party transactions	Not applicable

4. Acquisition schedule

(1)	Purchase resolution approved by board of directors	March 6, 2015
(2)	Purchase contract finalized	March 31, 2015
(3)	Date of conveyance	April 16, 2015

5. Impact on JDI's financial forecast

The acquisition of the property asset is expected to have minimal effect on JDI's FY 2015 financial earnings outlook. The earnings forecast issued by JDI on November 13, 2014 remains unchanged.

About JDI

Japan Display Inc. ("JDI") is the leading global manufacturer of small- and medium-sized displays and has the world's largest manufacturing capacity for LTPS LCD panels. JDI develops, designs and manufactures displays that provide high resolution, low power consumption and an ultra-thin structure for application in smartphones, tablets, automotive electronics, digital cameras, medical equipment and other electronic devices. The company's major customers include leading smartphone manufacturers, consumer electronics manufacturers and other well-known global companies. JDI was formed through the consolidation of the display businesses of Sony, Hitachi and Toshiba and commenced operations on April 1, 2012. For more information please visit http://www.j-display.com.
