1. Qualitative Information on the Consolidated Financial Results for the Three-month Period Ended March 31, 2016

(1) Qualitative Information on the Consolidated Operating Results

During the three-month period ended March 31, 2016, the food service industry in Japan was facing difficult situations due to changes in macroeconomics, such as a sharp decline of the stock market after the New Year holidays, a rise in the exchange rate of the yen, a decline in consumer spending due to falling consumer confidence, and relatively lower temperature in March.

Under these circumstances, the Group has promoted the creation of restaurants rooted in the local communities that enrich the life of each of our customers and provide comfort to them, with the purpose of fulfilling the Group's vision of "Creating richness of life with value to society."

The Group had established three principal strategies for growth and has effectively implemented them: 1) continuous growth of existing restaurants 2) successful and accelerated opening of new restaurants, and 3) reduction of costs.
The progress of these strategies during the three-month period ended March 31, 2016 is as follows:

・The Company remodeled the interior and exterior of 83 restaurants, pursuing a modern design that promotes comfort and increases customer traffic.

・The Company converted 29 restaurants, 7 of which were unopened for future conversion as of March 31, 2016, to a different brands in an effort to respond to the customers' needs according to changes in the local demographics and market conditions.

・The Company aspires to provide products that meet customer satisfaction at competitive prices by offering brands that cater to different customers' needs with the use of the Company's vertically integrated platform (Note 1). In particular, we have improved our lunch menus, including daily special menus, at *Gusto* restaurants to increase customer traffic at lunch time. We also have encouraged customers to visit our restaurants by promoting more valuable menus such as "*Great National Treasure fair*" using rare ingredients at *Jonathan's*, "*Ehime Sea Bream and Mihono Pork fair*" using ingredients from trusted sources at *Yumean*, and "*Seafood Shitenno fair*" using shark fins and oysters at *Bamiyan*.

・The Company achieved 6.7% of sales growth in the delivery service compared to the same period in the previous year by flexibly responding to the evolving customer needs driven by social factors such as aging society and increasing women in workplace.

・The Company opened 9 new restaurants primarily located in shopping centers and close to train stations in urban areas (including 1 *Gusto* restaurant, 2 *Syabu-yo* restaurants, 1 *Chawan* restaurant, and 2 restaurants in Taiwan).

As a result of pursuing improvement of customers' satisfaction through these measures, total sales for the three-month period ended March 31, 2016 achieved 100.9% compared to the same period in the previous year. In addition, sales from existing restaurants in domestic group companies, compared to the corresponding periods in the previous year, were 99.8% for the three-month period ended March 31, 2016.

・Cost of goods sold as a percentage of sales amounted to 30.3%, which is at the same level compared to the same period in the previous year, through continual optimization of purchasing, processing and distribution.

・Although labor costs increased due to the increase in basic salaries for our regular employees, the increase was partially offset by productivity improvement and reduction of indirect costs. As a result, the ratio of selling and administrative expenses against revenue increased by 0.6% to 62.0% compared to the same period in the previous year.

Based on the above, the Company achieved revenue of 86,965 million yen (an increase of 766 million yen compared to the same period in the previous year), operating profit of 6,145 million yen (a decrease of 211 million yen compared to the same period in the previous year), income before income taxes of 5,438 million yen (a decrease of 182 million yen compared to the same period in the previous year), and net income attributable to owners of the Company of 3,316 million yen (a decrease of 247 million yen compared to the same period in the previous year).

For the three-month period ended March 31, 2016, EBITDA (Note 2) was 9,636 million yen (a decrease of 1 million yen

compared to the same period in the previous year), adjusted EBITDA (Note 3) was 10,239 million yen (a decrease of 191 million yen compared to the same period in the previous year) and adjusted net income (Note 4) was 3,318 million yen (a decrease of 282 million yen compared to the same period in the previous year). In addition, the number of restaurants in operation was 3,038 (3,036 as of January 1, 2016), including 7 restaurants which are unopened for future conversion of the brands, at March 31, 2016.

(Note 1) A vertically integrated platform is the Company's supply chain structure that encompasses all phases starting with product development, procurement of ingredients, production, distribution, and finally the delivery of the food product.

(Note 2) EBITDA = Income before income taxes + Interest Expense + Loss on redemption of borrowings before the repayment date and gain and loss from associated hedge transactions + Other financial expenses (excluding loss on redemption of borrowings before the repayment date and gain and loss from associated hedge transactions) – Interest income – Other financial income + Depreciation and amortization + Amortization of long-term prepaid expense + Amortization of long-term prepaid expense (deposit)

- Other financial expenses are disclosed as "Other expenses" in the Condensed Interim Consolidated Statements of Income.
- Other financial income is disclosed as "Other income" in the Condensed Interim Consolidated Statements of Income.

(Note 3) Adjusted EBITDA = EBITDA + Loss on disposal of fixed assets + Impairment loss of non-financial assets + Advisory fees in accordance with the BCPL management agreement (including periodic payments) + IPO and public offering-related expenses (including special bonus for initial public offering)＋Amount associated with the change in accounting estimates due to qualified listing

(Note 4) Adjusted net income = Net income + Advisory fees in accordance with the BCPL management agreement (including periodic payments) + IPO and public offering-related expenses (including special bonus for initial public offering) + Loss on redemption of borrowings before the repayment date and gain and loss from associated hedge transactions + Amount associated with the change in accounting estimates due to qualified listing + Tax effects of adjustments

(Note 5) The BCPL management agreement represents the management agreement between the Company and Bain Capital Partners LLC. (The agreement was terminated upon the Company's listing in accordance with the amendment to the agreement dated July 17, 2014.)

(Note 6) IPO and public offering-related expenses are one-time expenses incurred at the time of IPO and public offering of the Company's share such as advisory fee and cost associated with purchase of mementoes, etc., which do not include the amount associated with the change in accounting estimates due to qualified listing as noted at (Note 7) below.

(Note 7) As a result of qualified listing (i.e. it refers to an event under which more than 50% of the Company's voting rights are offered to the public or sold for cash consideration following the submission of the registration statement required under the applicable Securities Act or the listing of the Company's stock at the security exchange in Japan), (1) all or a part of equity-settled share-based payments (the first, second and third stock option tranches) (collectively referred to as "SO") granted to the Company's directors and employees ("executives") became exercisable, (2) all or a part of cash-settled share option plans ("Stock Appreciation Right" or "SAR") under the Cash-Settled Stock Appreciation Right Agreement ("SAR agreement") which had been entered into between the Company and the Company's executives became exercisable, and (3) the Company incurred an obligation to pay certain monetary consideration ("DC") as determined in the Deferred Compensation Agreement ("DC agreement") to a counterparty of the DC agreement, which had been entered into between the Company and the Company's certain executives. Satisfaction of the terms and conditions of qualified listing has significant impact on accounting estimates used for SO, SAR and DC. Since the Company's share has satisfied the terms and conditions of qualified listing, it resulted in change in accounting estimates used for the accounting treatments. "Amount associated with the change in accounting estimates due to qualified listing" refers to the amount of the effect on the estimates used for the accounting treatments associated with the change in estimating the vesting period and the number of rights to be forfeited relevant to SO, SAR and DC.
