Accounting auditors:

(i) Names of the accounting auditors:

Deloitte Touche Tohmatsu LLC

(ii) Amount of remuneration, etc. payable to the accounting auditors for the fiscal year under review:

	Amount of remuneration, etc.
Amount of remuneration, etc. payable to the accounting auditors for the fiscal year under review:	¥198 million
Total amount of money and other proprietary benefits payable to the accounting auditors by the Company and its subsidiaries:	¥397 million

(Notes) 1. The amount of remuneration, etc. payable to the accounting auditors for audits under the Companies Act of Japan and the amount of remuneration, etc. payable for audits under the Financial Instruments and Exchange Act of Japan are not separated in the audit agreement between the Company and the accounting auditors. Hence, the above amount of remuneration, etc. payable to the accounting auditors for the fiscal year under review includes both amounts.

2. The total amount of money and other proprietary benefits payable to the accounting auditors by the Company and its subsidiaries includes remuneration for services (non-auditing services), which are not covered by Article 2, paragraph 1 of the Certified Public Accountant Act of Japan, entrusted to Deloitte Touche Tohmatsu LLC.

3. Among the important subsidiaries of the Company, the overseas subsidiaries were audited by a certified public accountant or audit firm (including those who have an equivalent certification in a foreign country) other than the Company's accounting auditors.

(iii) Reasons for the Board of Statutory Auditors to consent to the remuneration, etc. of the accounting auditors:

The Board of Statutory Auditors obtained necessary materials and received reports from the relevant divisions of the Company and the accounting auditors, and confirmed and verified the content of the audit plan of the accounting auditors, the status of the execution of their account auditing duties, the basis for calculation of the remuneration estimate, etc. As a result, the Board of Statutory Auditors determined that the remuneration, etc. of the accounting auditors was appropriate and consented thereto pursuant to Article 399, paragraph 1 of the Companies Act of Japan.

(iv) Content of non-auditing services:

The Company has paid the accounting auditors remuneration for services (non-auditing services), including the preparation of comfort letters, not covered by Article 2, paragraph 1 of the Certified Public Accountant Act of Japan.

(v) Policy on the determination of dismissal or non-reappointment of the accounting auditors:

In the event that there arises any problem with the performance by the accounting auditors of their duties or otherwise the Board of Statutory Auditors considers it necessary, it shall take a procedure to dismiss or not to reappoint the accounting auditors pursuant to the Companies Act of Japan.

Systems to secure the properness of business activities (so-called "internal control systems") and the summary of the status of the operation of the systems:

[Systems to secure the properness of business activities (so-called "internal control systems")]

With regard to basic policies on internal control systems, the Board of Directors has adopted resolutions as described below, for the systems to secure the properness of business activities.

In addition, the Board of Directors checks whether the internal control systems have properly been established and operated and revises them to make them more effective.

(i) Systems to secure the execution by the Directors and employees of the Company and its subsidiaries of their duties to comply with laws or ordinances and the Articles of Incorporation:

a) The Board of Directors of the Company shall, pursuant to the Regulations of the Board of Directors, determine important matters and supervise the execution of business.

b) Pursuant to the Compliance Regulations, the Company shall establish a Compliance Committee to monitor the appropriate response to compliance concerns reported to the hotline, etc., and to promote compliance activities for the Company and its subsidiaries.

c) Under the Code of Conduct for Compliance, the Company shall make use of the Compliance Book that sets action guidelines on compliance with law to raise awareness of compliance throughout the Group.

d) The Company shall establish, and allow the employees of the Company and its subsidiaries in and outside Japan to make use of, compliance contact offices within and outside of the Company to help solve questions and problems with regard to compliance and to promptly identify, rectify and prevent any problems.

e) The Company shall make use of an Internal Control Promotion Department, which supervises and promotes structuring the internal control system and compliance activities of the entire company, and shall aim to strengthen coordination among management divisions and to reinforce initiatives to improve the maturity of internal controls.

f) The Internal Audit Office shall conduct audits to verify the appropriateness of business activities and the state of execution of business pursuant to the internal rules at each business division of the Company and its subsidiaries.

(ii) Systems concerning storage and management of information on the execution by the Directors of the Company of their duties:

Information on the execution by the Directors of their duties shall be stored and managed pursuant to the Regulations of the Board of Directors, the Circular Decision Document Handling Rules and other internal rules.

(iii) Regulations concerning management of exposure to the risk of loss of the Company and its subsidiaries and other systems:

a) The Company shall establish an Enterprise Risk Management Committee with the President acting as the Committee Chair where issues including potential management risks are discussed to respond to risks by projecting changes in the environment and their impact.

b) Pursuant to the Basic Manual for Risk Management, the Company shall establish a Risk Management Committee to promote risk management activities.

c) Pursuant to the Regulations on Measures upon Outbreak of Crisis and other internal rules, the Company shall take measures promptly and properly upon the outbreak of any serious crisis to the Company or any of its subsidiaries.

d) The Company shall institute a Business Continuity Plan (BCP) for measures against an epicentral earthquake in the Tokyo metropolitan area, measures against a new type of influenza, etc., and exert group-wide efforts to implement, maintain and manage the BCP.

e) Each business division shall, pursuant to the Regulations on Internal Control and Self-Management, self-manage risks to business by using the voluntary inspection list, etc.

f) The Internal Audit Office shall, pursuant to the Internal Control Regulations, conduct audits to verify the state of risk management by each business division.

(iv) Internal control over financial reporting:

a) Pursuant to the Regulations on Evaluation of Internal Control over Financial Reporting, the Company shall establish a system to ensure reliability of financial reporting of the whole Group for the purpose of adequate improvement and administration of internal control on financial reporting.

b) Pursuant to the regulations set forth in (a) above, the Company shall establish a Committee for Evaluation of Internal Control over Financial Reporting, which shall deliberate on and investigate matters concerning annual improvement and administration policies and evaluation plans, matters concerning the determination of the evaluation scope, etc.

c) The Internal Audit Office shall conduct periodic evaluation of the effectiveness of internal control, as well as necessary improvements thereof.

(v) Severance of all relations with antisocial forces:

a) The Company shall deal with any person or group, including any crime syndicate and corporate racketeer, who engages in antisocial activities, violence and illegitimate demand in a resolute attitude and sever all relations therewith.

b) In the event that any antisocial force sets on, the Company shall resolutely refuse without giving in and act properly pursuant to the Manual for Measures against Antisocial Forces.

(vi) Systems to secure efficient execution by the Directors of the Company of their duties:

a) To secure efficient execution of business, the Company shall have Executive Officers.

b) Pursuant to the Regulations of Sanctions and Powers and the Regulations of Execution of Business, the Company shall clearly define the roles and authorities of the Board of Directors, Representative Directors and other Directors.

c) Pursuant to the Regulations of the Management Committee, as a deliberative body to plan and deliberate on strategies for group management and for smooth and proper decision-making of business execution, the Company shall establish a Management Committee in which the President acts as the Committee Chair. The members shall be determined by the Committee Chair after deliberation by the Personnel Committee. The Management Committee shall meet three times a month, in principle.

(vii) Systems to secure the properness of business activities of the corporate group comprised of the Company, its parent company and its subsidiaries:

a) In the Affiliated Companies Regulations, the Company shall stipulate that the supervising departments shall have the responsibility for managing affiliates, and shall clarify the roles and functions that the supervising departments shall perform. In addition, specific management matters, decision standards, and matters to be reported by affiliated companies shall be set forth in the Attached Table of Management Standards. The supervising departments and the affiliated companies shall make the necessary decisions and reports in accordance with the regulations above.

b) In the Affiliated Companies Regulations, the Company shall provide a fundamental policy to the effect that "transactions with affiliated companies shall be based on market prices, in principle", to prevent conflicts of interest.

c) In the Affiliated Companies Regulations, the Company shall provide for the rules for selection of Directors and Statutory Auditors of its affiliated companies, pursuant to which the Directors of the Company shall not assume office of Directors of the affiliated companies, in principle.

d) Statutory Auditors of major domestic and overseas affiliated companies shall be dispatched from the Management Support Group established in the Internal Control Promotion Department, in principle, and shall build a system to strengthen management support and monitor functions related to internal controls of affiliated companies.

e) The Company shall improve operational efficiencies by utilizing the Group-standard IT infrastructures and integrating the tasks of overhead divisions.

(viii) Matters concerning the employees to assist the Statutory Auditors of the Company to execute their duties when the Statutory Auditors request the assignment thereof:

The Company shall, upon request from the Statutory Auditors, assign its employees as staff of the Board of Statutory Auditors' Secretariat to assist the Statutory Auditors to execute their duties.

(ix) Matters to secure the independence of the employees set forth in (viii) above from the Directors and the effectiveness of directions given to the employees:

a) Staff at the Board of Statutory Auditors' Secretariat shall serve on a full-time basis. The final decision on personnel changes, evaluations, etc. of the Statutory Auditors' staff shall be subject to consent of the Statutory Auditors, which shall be provided for in the internal rules of the Personnel Department.

b) In the Organization Regulations, the Company shall provide for the duties of the Board of Statutory Auditors' Secretariat.

(x) System for reporting by the Directors and employees of the Company and its subsidiaries and the statutory auditors of the subsidiaries to the Statutory Auditors (the Board of Statutory Auditors) of the Company and other systems for reporting to the Statutory Auditors of the Company:

a) The Directors, the Executive Officers, and the head of each department/office shall, pursuant to the Regulations of Execution of Business, report the specified matters to the Statutory Auditors.

b) The Internal Audit Office shall, pursuant to the Internal Audit Regulations, report the results of audits to the Statutory Auditors.

c) The Compliance Committee shall request the attendance of full-time Statutory Auditors as observers, and shall share the state of consultations and measures at the Compliance Contact Offices to the Statutory Auditors as necessary.

(xi) System to ensure the prevention of unfair treatment of the person who has given a report under (x) above because of such report:

a) It shall be prohibited to treat unfairly the person who has given a report under (x) above because of such report.

b) The Company shall stipulate in the Compliance Book and usage guidance for employees that any person shall not be treated unfairly because of consulting with the Compliance Contact Offices and shall make it thoroughly educated through training and other sessions.

(xii) Matters concerning the policy to pay expenses incurred by the Statutory Auditors in executing their duties:

All expenses necessary for the Statutory Auditors in performing their roles and duties, including audits of the execution by the Directors of their duties, election and dismissal of the accounting auditors, shall be borne by the Company.

(xiii) Other systems to ensure effective audits by the Statutory Auditors (the Board of Statutory Auditors) of the Company:

a) The Representative Directors shall hold a regular meeting with the Statutory Auditors quarterly, in principle.

b) The Internal Audit Office shall closely coordinate and cooperate with the Statutory Auditors and the accounting auditors with regard to internal audit schedules, visiting audits, etc.

Note: The above system was resolved at the Board of Directors Meeting held on May 14, 2020, reflecting initiatives conducted with the intention of improving management efficiency and strengthening governance, such as further delegation of authority from the Board of Directors to the business division consolidation of decision-making authority from the Management Meeting to the President, and improvement of regulations of affiliated companies.

[Summary of the status of the operation of the systems to secure the properness of business activities (so-called "internal control systems")]

The Company, in accordance with the "systems to secure the properness of business activities (so-called "internal control systems")" resolved by its Board of Directors, has established and operated the internal control systems of the Company and its subsidiaries.

The Company plans to revise the "systems to secure the properness of business activities (so-called "internal control systems")" every year after the institution thereof. During the fiscal year under review, the Company operated the systems pursuant to the resolution made at the Board of Directors Meeting held in May 2019.

Major activities for internal control that were considered important during the fiscal year under review are as described below:

(i) Activities for compliance:

a) After the integration, the Company newly established Action Guidelines. In addition, the Compliance Committee held six meetings pursuant to the Compliance Regulations. The Company instituted Compliance Code of Conduct after deliberation by the Committee, and a promotion system was established in all workplaces by the responsible person for compliance promotion, and the managers and the person in charge of compliance promotion in order to spread and promote the Compliance Code of Conduct.

b) The Company has exerted its efforts to raise awareness of compliance by disseminating the Compliance Book and compliance-related cases in and outside of the Company through training sessions for its business offices and subsidiaries nationwide, training sessions for new employees and training sessions for new managers, as well as by utilizing the Compliance Room, a portal site set up on the intranet. During the fiscal year under review, the Company conducted web learning regarding compliance for all employees and management of the Company and its subsidiaries, and carried out employee compliance awareness surveys.

c) The details of consultations handled and measures taken by the Compliance Contact Offices have been reported to the Compliance Committee and shared with the full-time Statutory Auditors to provide advice and monitor the responses to each case and implemented measures to prevent recurrences. During the fiscal year under review, the former companies' consultation services were integrated and began being used as the new Compliance Contact Offices.

(ii) Activities for risk management:

a) The Company established an Enterprise Risk Management Committee, chaired by the President where issues including potential management risks are discussed to respond to risks by projecting changes in the environment and their impact. In addition, the Risk Management Committee identifies material risks that require group-wide continued monitoring based on risk hearing to capture risks, formulates a plan to prevent occurrence of a crisis, select accident insurance coverage, prevent increase of risks and respond to new risks, and confirms the implementation of the plan. For the fiscal year under review, the Committee identified fire and explosion risks, information-related risks and quality assurance risks, etc. as material risks and made efforts to control these risks, in connection with which the Committee held four meetings for deliberations. The Committee also conducted a risk questionnaire with all managers of the Company and its subsidiaries and comprehensively identified and reassessed operational risks. Accordingly, based on the progress of such efforts, the Committee has set the material risks for the fiscal year 2020.

b) For the purpose of risk management, the Company has focused its efforts on requiring an immediate report as soon as any accident, disaster or other emergency is recognized and taking a group-wide countermeasure in an early stage to prevent it from enlarging.

c) With regard to the Business Continuity Plan (BCP) instituted for measures against an epicentral earthquake in the Tokyo metropolitan area, an immense earthquake in the Nankai Trough area and a new type of influenza, the Company updates this plan every year to ensure its effectiveness. In the fiscal year 2019, revisions necessary due to the integration were made to the new integrated company's version of the BCP. In addition, since it is a designated public institution, the Disaster Prevention Business Plan of the new integrated company has been drafted and submitted to the Cabinet Office. Each of the refineries, business offices and departments has conducted regular disaster management drills to improve its crisis response capabilities.

d) On the assumption of an epicentral earthquake in the Tokyo metropolitan area, the Company conducted regular disaster management drills. The Company confirmed the role of each task group under the new system of the new integrated company and confirmed that the task group headquarters system would function even under the situation where the task group is dispersed over three areas.

e) With regard to the response to the spread of the COVID-19 in Japan and overseas, in accordance with the Regulations on Measures upon Outbreak of Crisis and the Business Continuity Plan (a version dealing with a new type of influenza), a task force headquarter in which the president acts as the head of headquarter was set up in February 2020 to ensure that all employees are fully aware of the following measures to prevent the spread of infection: (1) ensuring the implementation of infection prevention measures, (2) shifting to a flexible working system (such as telecommuting), (3) responding to an outbreak of infection, and (4) ensuring the safety of employees stationed overseas and their families.

(iii) Measures to ensure effective audits by the Statutory Auditors:

a) The Representative Directors have regular quarterly meetings with the Statutory Auditors. In addition, through important meetings, such as sessions of the Management Committee and the Risk Management Committee, the Company has shared various issues with the Statutory Auditors, including issues regarding compliance and risk management.

Furtheremore, the Company has exerted its efforts to enhance cooperation between the Statutory Auditors of the Company and the Statutory Auditors of its subsidiaries and to strengthen cooperation through regular meetings between the Outside Statutory Auditors and Outside Directors.

b) In order to enhance the effectiveness of audits by the Statutory Auditors, the Internal Audit Office has strived to strengthen cooperation with the Statutory Auditors by enhancing information exchange and other measures, and to enhance opportunities to visit its business offices and subsidiaries in and outside of Japan by the full-time Statutory Auditors, as well as the Outside Statutory Auditors.

(iv) Measures for internal audits:

a) In accordance with its annual internal audit plan, the Company has specified the "status of achievement of management targets", "plans to prevent and mitigate risks", "status of compliance" and "effectiveness and efficiency of business operations" as key items of internal audits and conducted internal audits of its business offices and subsidiaries in and outside of Japan. During the fiscal year under review, by focusing on departments that have high internal control risks or have experienced environmental changes, internal audits of 13 departments in total, comprising of 5 domestic departments and 8 overseas departments (all affiliates), were conducted.

b) With regard to internal control over financial reporting, the Company has evaluated the status of establishment and operation of the systems and schemes (group-wide internal control) and the status of documentation and operation of business processes (business process control) and has obtained confirmation from the Committee for Evaluation of Internal Control over Financial Reporting.

(v) Measures for management of subsidiaries:

a) The Company has established the Affiliated Companies Regulations and the Schedule of Management Standards that consolidates the items for approval of affiliated companies. The Schedule of Management Standards is linked to the Company's List of Decision-Making Authorities, and decisions on important Group matters related to affiliated companies are made appropriately by designated decision-makers after careful deliberation by the Investment and Loan Committee, the Management Committee, etc., in accordance with the regulations above.

b) Audits of the subsidiaries by the Statutory Auditors are as described in item (iii) (b) above and internal audits of the subsidiaries are as described in item (iv) (a) above. In addition, dedicated full-time Statutory Auditors are assigned to major affiliates, and part-time Statutory Auditors are dispatched from Group Audit Section established in the Internal Control Promotion Department for the purpose of strengthening governance and reducing risk at some important affiliates. These part-time Statutory Auditors share information with the Company’s Statutory Auditors and accounting auditors to enhance the effectiveness of audits.

CONSOLIDATED STATEMENT OF CHANGES IN SHAREHOLDERS' EQUITY, ETC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Important matters forming the basis of preparation of consolidated financial statements

(1) Matters concerning the scope of consolidation

(i) Consolidated subsidiaries:

- Number of consolidated subsidiaries: 103 companies
- Names of major consolidated subsidiaries:

Idemitsu Tanker Co., Ltd.
SHOWA YOKKAICHI SEKIYU CO., LTD.
TOA Oil Co., Ltd.
Idemitsu Retail Marketing Co., Ltd.
Idemitsu Supervising Co., Ltd.
S.I. Energy, Ltd.
IDEMITSU INTERNATIONAL (ASIA) PTE. LTD.
IDEMITSU APOLLO CORPORATION
Idemitsu Unitech Co., Ltd.
Solar Frontier K.K.
RS Renewables K.K.
SDS Biotech K.K.
Idemitsu Petroleum Norge AS
Idemitsu Gas Production (Vietnam) Co., Ltd.
IDEMITSU AUSTRALIA RESOURCES PTY LTD
Idemitsu Canada Resources Ltd.
Idemitsu Canada Corporation
IDEMITSU ASIA PACIFIC PTE. LTD.

(ii) Non-consolidated subsidiaries:

- Name of major non-consolidated subsidiary:

Idemitsu Lube Techno Co., Ltd.

- Reason for excluding the non-consolidated subsidiaries from the scope of consolidation:

The scale of business conducted by each of the non-consolidated subsidiaries is small, and the total assets, net sales, net income or loss (based on the Company's equity interest) and retained earnings (based on the Company's equity interest) of each non-consolidated subsidiary do not have a material impact on the consolidated financial statements.

(iii) Company in which the Company holds a majority of voting rights but which is not treated as a subsidiary:

- Name of the company: Astomos Energy Corporation

- Reason for not treating it as a subsidiary:

  Astomos Energy Corporation has been determined to be a jointly controlled company pursuant to Article 175 of the "Implementation Guidance on the Accounting Standard for Business Combinations and the Accounting Standard for Business Divestitures" (the Accounting Standards Board of Japan ("ASBJ") Accounting Standard Implementation Guidance No. 10) and excluded from the scope of consolidation to apply the accounting method similar to the equity method.

(2) Matters concerning the application of the equity method

(i) Non-consolidated subsidiaries and affiliates to which the equity method is applied:

- Number of non-consolidated subsidiaries or affiliates to which the equity method is applied: 34 companies
- Names of the major companies: Astomos Energy Corporation
  Idemitsu Credit Co., Ltd.
  PS Japan Corporation
  Prime Polymer Co., Ltd.
  Nghi Son Refinery and Petrochemical LLC
  Seibu Oil Co., Ltd.

(ii) Non-consolidated subsidiaries and affiliates to which the equity method is not applied:

- Names of the major companies, etc.: Union Sekiyu Kogyo Co., Ltd.
  Kuo Horng Co., Ltd.
- Reason for not applying the equity method to such companies:

  The net income or loss (based on the Company's equity interest) and retained earnings (based on the Company's equity interest) of each company have no significant impact on the consolidated financial statements and is of no importance in general.

(iii) Special matter concerning the procedure to apply the equity method:

With regard to the equity method companies whose balance sheet dates do not correspond to the consolidated balance sheet date, the companies use the financial statements for the company's respective fiscal years.

(3) Matters concerning changes in the scope of consolidation and the scope of application of the equity method

(i) Change in the scope of consolidation:

・ Number of new consolidated subsidiaries:	42 companies
・ Names of the new consolidated subsidiaries:	SHOWA YOKKAICHI SEKIYU CO., LTD. TOA Oil Co., Ltd. Solar Frontier K.K. Showa Shell Sekiyu K.K., etc. SHOWA YOKKAICHI SEKIYU CO., LTD. , Toa Oil Co., Ltd. and Solar Frontier K.K., etc. are included in the scope of consolidation , and the category of Showa Shell Sekiyu K.K. was changed from equity method company to consolidated subsidiary, as a result of the business integration with Showa Shell Sekiyu K.K.
・ Number of subsidiaries excluded from the scope of consolidation:	Three companies
・ Names of the subsidiaries excluded from the scope of consolidation:	Premium Green Power K.K. Showa Shell Sempaku K.K. SF Curry. LLC Premium Green Power K.K. is excluded from the scope of consolidation as a result of the absorption-type merger making Idemitsu Green Power K.K. the surviving company, Showa Shell Sempaku K.K. is excluded from the scope of consolidation as a result of an absorption-type merger making Idemitsu Tanker Co., Ltd. the surviving company, and SF Curry. LLC is excluded from the scope of consolidation as a result of liquidation.

(ii) Change in the scope of application of the equity method:

・ Number of new equity method companies:	Five companies
・ Name of the new equity method company:	Seibu Oil Co,. Ltd., etc. Seibu Oil Co,. Ltd. is included in the scope of the equity method company, taking into consideration the business integration with Showa Shell Sekiyu K.K.
・ Number of companies excluded from the scope of equity method:	One company
・ Name of companies excluded from the scope of equity method	Showa Shell Sekiyu K.K. The category of Showa Shell Sekiyu K.K. was changed to consolidated subsidiary as a result of the business integration.

(4) Matters concerning the fiscal years of consolidated subsidiaries

With regard to any consolidated subsidiary whose balance sheet date does not correspond to the consolidated balance sheet date, the financial statements for the fiscal year of such any consolidated subsidiary are used. However, with regard to any important transaction that took place after the end of the relevant fiscal year and prior to the consolidated balance sheet date, necessary adjustments are made for the purpose of preparation of the consolidated financial statements.

(5) Notes on accounting policies

(i) Basis and method of valuation of major assets:

(a) Basis and method of valuation of securities:

Bonds to be held to maturity:	At amortized cost (straight-line method)
Subsidiaries' stock and affiliates' stock:	At cost, determined by the moving average method
Other securities:	
・ Those with market value:	At market value, implementing the use of the market price at each reporting date (valuation differences are included directly in net assets, and costs of securities sold are determined by the moving average method, in principle).
・ Those without market value:	At cost, determined by the moving average method

(b) Basis and method of evaluation of inventories:

At cost, determined by the gross average method, in principle

The balance sheet values are calculated by the write-down method based on declined margins.

(c) Basis and method of evaluation of derivatives:

At market value

(ii) Method of depreciation of important depreciable assets:

(a)	Tangible fixed assets (excluding lease assets):	By the straight-line method, in principle
(b)	Intangible fixed assets (excluding lease assets):	By the straight-line method, in principle; provided, however, that software for internal use is amortized by the straight-line method on the estimated useful life of internal use (five years). Customer-related assets are amortized by the straight-line method on useful lives (20 years).
(c)	Lease assets:	By the straight-line method on the assumption that the lease period is the useful life of the property and the residual value is zero.

(iii) Basis for accounting for important allowances and reserves:

(a)	Allowance for doubtful accounts:	To meet losses from loan default, the Company sets aside an estimated uncollectible amount, by taking into consideration the actual loss rate in respect of general credits and the individual possibilities of collection in respect of specific claims, such as probable non-performing credits.
(b)	Allowance for bonuses:	To meet the payment of bonuses to employees, the Company sets aside the portion for the consolidated fiscal year under review of an estimated amount of bonuses to be paid in the future.
(c)	Reserve for repair works:	To meet the payment for repair expenses in the future, the Company sets aside the portion until the consolidated fiscal year under review of an amount of expenses of inspection and repair to be defrayed in respect of the oil tanks and machinery and equipment and vessels that require periodic repairs in the future.

(iv) Method of important hedge accounting

(a) Method of hedge accounting: Deferral hedge accounting is applicable.

(b) Hedging instruments and hedged items:

Hedging instruments:	Forward exchange contracts, foreign currency debts payable, currency option transactions, crude oil and petroleum products swap transactions, futures transactions, interest rate swaps, interest rate and currency swaps, and option transactions.
Hedged items:	Foreign currency receivables and payables, foreign currency investment securities, forecasted foreign currency transactions, crude oil and petroleum products, equity interests in overseas subsidiaries and debts payable.

(c) Hedging policy: The Company and some of its consolidated subsidiaries, in accordance with their respective rules, carry out hedge transactions within the scope of actual requirements to hedge risk of price changes, interest rate and currency fluctuations with regard to the hedged items.

(d) Method of evaluating the effectiveness of a hedge:

The method of evaluating the effectiveness of a hedge is to confirm the compliance of the hedging instruments with the hedged items. No evaluation is made as to the effectiveness of any transaction in which important conditions are common for the hedged assets and liabilities or scheduled transactions and price changes or cash flow changes are assumed in advance to be offset upon the commencement of the hedging and continue to be offset thereafter.

(v) Amortization of goodwill:

Goodwill is amortized using the straight-line method over the estimated useful life of goodwill (five years to 20 years).

(vi) Other important matters forming the basis of preparation of consolidated financial statements:

(a) Basis of translation of assets and liabilities denominated in foreign currencies into the Japanese currency:

Foreign currency receivables and payables are translated into Japanese yen at the spot rate prevailing on the consolidated balance sheet date and translation differences are treated as gains and losses. Assets and liabilities of overseas subsidiaries are translated into Japanese yen at the spot rate prevailing on the consolidated balance sheet date. Income and expenses are translated into Japanese yen at the average rate for the period and translation differences are included in translation adjustments and noncontrolling interests under the net assets section on the consolidated balance sheet.

(b) Basis of accounting for liability for employees' retirement benefits:

To meet the payment of retirement benefits to employees, the Company provides an amount obtained by deducting the amount of plan assets from retirement benefit obligations, based on their respective estimated amounts as of the end of the consolidated fiscal year under review, as a liability for employees' retirement benefits. Actuarial differences are treated as expenses, based on the straight line method for a specific period of years (ten years to fourteen years) not exceeding the average remaining years of service of employees, from the consolidated fiscal year next following the consolidated fiscal year when such differences occur. Prior year service liabilities are treated as expenses in a lump sum during the consolidated fiscal year when such liabilities occur.
Unrecognized actuarial differences, after adjusting for taxes, are recognized as a retirement benefit liability adjustment under accumulated other comprehensive income in the net assets section.

(c) Accounting treatment of deferred assets:

Bond issuance expenses and stock issuance expenses are all treated as expenses upon payment thereof.

(d) Accounting treatment of consumption taxes, etc.:

Consumption taxes and local consumption taxes are excluded from each account subject to such taxes.

(6) Change in accounting policies

(i) Change in valuation method of available-for-sale securities with fair value

The Company previously used the average market price for a month before the reporting date when applying the fair value method to measure its equity instruments classified as available-for-sale securities. Effective April 1, 2019, the Company made change to the fair value method and implemented the use of the market price at each reporting date, which is the required method in principle when applying the fair value method.

This change was made to provide more appropriate information regarding the Company's financial position upon the business integration with Showa Shell Sekiyu K.K. Since the effect from this accounting policy change was not material, the new accounting policy was not applied retrospectively.

(ii) Application of IFRS 16 "Leases"

Effective April 1, 2019, most non-US overseas subsidiaries of the Group adopted IFRS 16 "Leases." As a result, lessees under lease agreements recognize the assets and liabilities arising from all leases on the balance sheet in principle. The application of this accounting standard did not have a material effect on the financial position and operation results.

(7) Change in presentation methods

Not applicable

(8) Change in accounting estimates

Not applicable

2. Notes to the consolidated balance sheet

(1) Assets pledged and corresponding liabilities Assets pledged

(i) Factory foundation mortgage:

Land	¥423,065 million

(ii) Other pledges:

Investment securities	¥6,581 million
Total	¥429,647 million

In addition to the above, the Company pledged investment securities in Nghi Son Refinery and Petrochemical LLC ("NSRP"), amounting to ¥25,812 million and long-term loans receivable from NSRP, amounting to ¥70,657 million, as collateral for NSRP's borrowings from financial institutions.

Liabilities with assets pledged

Factory foundation mortgage:

Accounts payable-other	¥60,466 million
Total	¥60,466 million

The accounts payable-other were related to payment of gasoline tax.

In addition to the above, although the factory foundation was subjected to a revolving mortgage related to bank transactions, there were no substantial liabilities with assets pledged.

(2) Accumulated depreciation of tangible fixed assets ¥2,202,252 million

(3) Contingent liabilities

The Company provides guarantees for loan obligations, etc. of the following companies, which are not the Company's consolidated companies, from financial institutions, etc.

(i) Guarantee of obligations

Japan Biofuels Supply LLP.	¥10,713 million
IDEMITSU LUBRICANTS (THAILAND) CO. LTD.	¥3,097 million
Idemitsu Electronic Materials (China) Co., Ltd.	¥1,764 million
Others	¥1,173 million
Total	¥16,749 million

(ii) Management directive memorandums

Hibikinada Development Co., Ltd.	¥25 million

(iii) Construction completion guarantee

The Company provides a construction completion guarantee for project financing regarding the project to construct a refinery petrochemical complex, by Nghi Son Refinery and Petrochemical LLC in Vietnam. The burden of the guarantee of the Company is as follows.

The Company's burden of guarantee	¥165,127 million

(4) Land revaluation

In accordance with the Land Revaluation Act (Act No. 34, promulgated on March 31, 1998) of Japan and the Act to Amend Part of the Land Revaluation Act (Act No. 19, promulgated on March 31, 2001) of Japan, the Company's land used for business is revaluated and an amount equivalent to taxes on the difference on revaluation is included in liabilities as "deferred tax liabilities upon revaluation" and the difference on revaluation minus the amount of such taxes is included in net assets as "revaluation difference of land".

(i) Method of revaluation:

Land revaluation is made in accordance with the method of calculation by making reasonable adjustments to the assessed value of fixed assets as set forth in Article 2, item 3 of the Ordinance to Implement the Land Revaluation Act (Cabinet Order No. 119, promulgated on March 31, 1998; the "Ordinance"), the method of calculation by making reasonable adjustments to the land values that form the basis of land tax calculations as set forth in Article 2, item 4 of the Ordinance, and appraisals by real estate appraisers as set forth in Article 2, item 5 of the Ordinance.

(ii) Revaluation date: March 31, 2002

(iii) Difference of the market value at the end of the consolidated fiscal year under review of the land revaluated and the book value thereof after such revaluation:
(¥135,110 million)

3. Notes to the consolidated statements of income

(1) Gain on step acquisition

The gain from step acquisition resulting from the share exchange in which the Company becomes a wholly owning parent company and Showa Shell Sekiyu K.K. becomes a wholly owned subsidiary.

4. Notes to the consolidated statement of shareholders' equity, etc.

(1) Matters concerning the total number of issued shares

Class of shares	Number of shares as of April 1, 2019	Increase in the number of shares during the year	Decrease in the number of shares during the year	Number of shares as of March 31, 2020
Shares of common stock	208,000 thousand shares	93,925 thousand shares	4,060 thousand shares	297,864 thousand shares

(Note 1) The increase of 93,925 thousand shares resulted from the share exchange effective on April 1, 2019.

(Note 2) The decrease of 4,060 thousand shares issued is due to the cancellation of treasury stock in accordance with the resolution of the board of directors.

(2) Matters concerning the number of shares of treasury stock

Class of shares	Number of shares as of April 1, 2019	Increase in the number of shares during the year	Decrease in the number of shares during the year	Number of shares as of March 31, 2020
Shares of common stock	10,657 thousand shares	4,503 thousand shares	14,557 thousand shares	603 thousand shares

(Note 1) The increase of 4,503 thousand shares consists of the acquisitions of 4,060 thousand shares in accordance with the resolution of the board of directors, the acquisitions of 401 thousand shares for the Board Incentive Plan Trust for Officers, 23 thousand shares due to the acquisitions of less-than-one-unit shares, and 17 thousand shares which belong to the Company among the treasury stock (the Company’s stock) held by the companies that newly became equity method affiliates during the current period.

(Note 2) The decrease of 14,557 thousand shares consists of a decrease of 10,486 thousand shares due to the share exchange with Showa Shell Sekiyu K.K., a decrease of 4,060 thousand shares due to the cancellation in accordance with the resolution of the board of directors, a decrease of 7 thousand shares due to the stock awards in accordance with the Board Incentive Plan Trust for Officers, and a decrease of 3 thousand shares due to the disposals of less-than-one-unit shares.

(3) Matters concerning the distribution of retained earnings

(i) Amount of payment for dividends, etc.:

Matters concerning the dividends determined by resolution at the meeting of the Board of Directors held on May 15, 2019:

- Aggregate amount of dividends ¥9,875 million
- Amount of dividend per share ¥50
- Record date March 31, 2019
- Effective date June 6, 2019

(Note) The total dividends paid include dividend payment of ¥8 million made for the treasury stock held by the Board Incentive Plan Trust for Officers.

Matters concerning the dividends determined by resolution at the meeting of the Board of Directors held on November 14, 2019:

- Aggregate amount of dividends ¥24,152 million
- Amount of dividend per share ¥80
- Record date September 30, 2019
- Effective date December 6, 2019

(Note) The total dividends paid include dividend payment of ¥45 million made for the treasury stock held by the Board Incentive Plan Trust for Officers.

(ii) Dividends for which the record date falls during the consolidated fiscal year under review but the effective date falls during the next consolidated fiscal year:

The following matters were determined by resolution at the meeting of the Board of Directors held on May 26, 2020:

- Aggregate amount of dividends ¥23,827 million
- Amount of dividend per share ¥80
- Record date March 31, 2020
- Effective date June 11, 2020

(Note) The total dividends paid include dividend payment of ¥45 million made for the treasury stock held by the Board Incentive Plan Trust for Officers.

5. Notes on financial instruments

(1) Matters relating to the status of financial instruments

The Group raises required funds (principally by bank loans and the issuance of bonds) according to plant and equipment plans. The Group invests temporary surplus funds in high-security deposits and others and raises short-term operating funds through bank loans and commercial papers.

The Group utilizes derivatives to mitigate risk relating to its actual requirements and engages in no speculative transaction.

To reduce clients' credit risks relating to notes and accounts receivable-trade, the Group has stipulated its credit management rules and credit sales management rules. With regard to investment securities, which are principally stocks of client companies with which the Group has business ties, the market prices of listed stocks are recognized for each quarter and with regard to unlisted stocks, the financial positions of the issuers are recognized for each fiscal year.

With regard to foreign currency accounts payable-trade relating to imports of raw materials, the Group utilizes forward exchange contracts to reduce foreign currency risk.

To avert interest-rate risk relating to long-term loans payable, the Group engages in interest rate swaps and fixes interest expenses. In addition, to reduce market risk relating to crude oil and petroleum products, the Group engages in product swap transactions and future transactions.

The Group engages in derivatives all in accordance with the policy approved for each fiscal year based on its internal trading rules and within actual requirements.

(2) Matters concerning current values, etc. of financial instruments

The following chart shows the consolidated balance sheet amounts of financial instruments as of March 31, 2020, along with their current values and the variances:

(million yen)

	Consolidated balance sheet amount	Current value	Variance
(1) Cash and deposit	132,247	132,247	–
(2) Notes and accounts receivable-trade	593,730	593,730	–
(3) Investment securities	22,623	20,409	(2,213)
(4) Long-term loans receivable	79,825	78,253	(1,572)
Total assets	828,426	824,640	(3,785)
(1) Notes and accounts payable-trade	475,664	475,664	–
(2) Short-term borrowings	339,600	339,600	–
(3) Commercial papers	315,965	315,965	–
(4) Accounts payable, other	343,611	343,611	–
(5) Bonds	80,000	79,698	(302)
(6) Long-term debt	568,133	571,368	3,235
Total liabilities	2,122,976	2,125,909	2,933
Derivatives (*)	(4,939)	(4,939)	–

(*) Net receivables and payables resulting from derivatives transactions are presented on net base. The total net payables are presented in parentheses.

(Note) Matters concerning the calculation method of the current values of financial instruments, as well as securities and derivatives:

Assets:

(1) Cash and deposit

The book value is used for deposits, as the current value is nearly equal to the book value as a result of their short terms.

(2) Notes and accounts receivable-trade

The book value is used for these items, as the current value is nearly equal to the book value as a result of their short settlement periods.

(3) Investment securities

With regard to investment securities with market value, the current value of stocks is determined by the price thereof traded on an exchange. For bonds, the value is determined by the price announced by the Company's financial institutions. Unlisted shares (¥221,384 million) that have no market price are not included in the above table as determining the market value is recognized as being extremely difficult.

(4) Long-term loans receivable

The current value is calculated from the present value of the future cash flow discounted at a rate supposing a similar loan is newly extended.

Liabilities:

(1) Notes and accounts payable-trade, (2) Short-term borrowings, (3) Commercial papers, and (4) Accounts payable, other

The book value is used for these items, as the current value is nearly equal to the book value as a result of their short settlement periods.

(5) Bonds

The current value is based on the market price.

(6) Long-term debt

The current value is calculated from the present value of the total principal and interest discounted at a rate supposing similar borrowings are newly conducted.

Derivatives:

The current value is calculated based on the forward exchange rate, the futures price and the price and other information shown by the Company's counterparties.

6. Notes on business combination

On April 1, 2019, the Company and Showa Shell Sekiyu K.K. ("Showa Shell") conducted a share exchange in which the Company became a wholly owning parent company and Showa Shell became a wholly owned subsidiary, following the approvals of relevant authorities, and at their extraordinary general meetings of shareholders held on December 18, 2018. Further, at the board of directors meeting held on May 15, 2019, the Company has resolved to execute, and has executed as of the same day, with Showa Shell, the Absorption-type Company Split Agreement in which the Company will be a succeeding company and Showa Shell will be a splitting company.

(Business combination through acquisition)

(1) Outline of the business combination

(i) Name and business description of the acquiree

Name of the acquiree: Showa Shell Sekiyu K.K.

Business description: refining and sale of petroleum products, etc.

(ii) Primary reasons for the business combination

The Company and Showa Shell intend to reinforce their enterprise value, in the short term, by maximizing synergies and aiming to create an entity with industry-leading competitiveness, and in the mid- to long-term, by evolving into a resilient corporate entity through promoting the optimization of their business structure and their environment, society and governance initiatives.

(iii) Date of the business combination

April 1, 2019

(iv) Legal form of the business combination

Share exchange in which the Company becomes a wholly owning parent company and Showa Shell becomes a wholly owned subsidiary

(v) Company name after the business combination

No change

(vi) Percentage of voting equity interests acquired

Percentage immediately before the business combination: 31.62%

Additional percentage acquired on the date of business combination: 68.38%

Percentage after the acquisition: 100.0%

(vii) Primary rationale for determining the acquirer

The Company's acquisition of all shares of Showa Shell in exchange for the Company's shares

(2) Period of the acquiree’s operating results included in the consolidated quarterly financial statement

April 1, 2019 through March 31, 2020

(3) Matters concerning calculation of acquisition cost

(i) Breakdown of acquisition cost of acquiree and consideration transferred

(Unit: ¥Million)

Consideration transferred: Fair value of the common stock held by the Company immediately before the business combination as of the date of business combination	183,231
Consideration transferred: Fair value of the Company's shares transferred on the date of the business combination	396,243
Acquisition cost	579,474

(ii) Share exchange ratio and rationale for the ratio and the number of shares issued

i. Share exchange ratio

0.41 shares of the Company's common stock were issued for every one share of Showa Shell common stock.

ii. Rationale for the share exchange ratio

The Company and Showa Shell had carefully negotiated and discussed the share exchange ratio, referring to the share exchange ratio calculated by third party financial advisors appointed by each company, using the respective share prices as the main criterion, and based on the results of due diligence reviews mutually carried out by the both companies and the benefit of their shareholders, etc. As a result, the both companies came to an agreement and concluded that the share exchange ratio described in i. above was appropriate.

iii. Number of shares issued

The Company's common stock: 104,411,875 shares

Upon share allotment issue, the Company applied 10,486,357 shares of the treasury shares held by the Company.

(iii) Description and amount of acquisition-related costs

Advisory costs, etc. ¥804 million

(iv) Difference of the acquisition cost of the acquiree from the aggregate amount of each of acquisition cost arising from the transactions resulting in the acquisition

Gain from step acquisition: ¥17,215 million

(4) Amount, amortization method and amortization period of goodwill and factors that make up the goodwill recognized

(i) Amount of goodwill recognized

¥171,402 million

(ii) Factors that make up the goodwill

The goodwill is made up with excess earnings arising primarily from expected synergies from collaboration in each business area between the Company and Showa Shell.

(iii) Amortization method and amortization period

Straight line method over twenty years

(5) Amount of assets acquired and liabilities assumed and their major components on the date of business combination

	(Unit:¥Million)
Current assets	594,095
Fixed assets	659,965
Total assets	1,254,060
Current liabilities	585,437
Non-current liabilities	244,147
Total liabilities	829,584

(Transaction under Common Control, etc.)

(1) Outline of the Transaction

(i) Name and business description of the counterparty
Name of the company: Showa Shell Sekiyu K.K.
Business description: refining and sales of petroleum products, etc.

(ii) Date of the business combination
July 1, 2019

(iii) Legal form of the business combination
A simplified absorption-type company split, in which Showa Shell shall be a splitting company and the Company shall be a succeeding company

(iv) Company name after the business combination
No change

(v) Purpose of the business combination
The purpose is to promote the business integration and create even more synergies by transferring Showa Shell's assets, liabilities, and rights and obligations that are stipulated in the Absorption-type Company Split Agreement among those belonging to Showa Shell's entire business to the Company and integrating both companies' organizations and businesses through the absorption-type company split.

(2) Outline of the Accounting Treatment
The business combination has been accounted for as a transaction under common control in accordance with "Accounting Standard for Business Combinations" and "Implementation Guidance on Accounting Standard for Business Combinations and Accounting Standard for Business Divestitures".

7. Notes on real estate for lease, etc.

(1) Matters relating to the status of real estate for lease, etc.

The Company and some of its subsidiaries possess office buildings for lease, oil storage tanks, commercial establishments, etc. (including land) in Tokyo, Osaka and other areas in Japan and overseas. For the consolidated fiscal year under review, with regard to real estate for lease, etc., income on lease was ¥1,464 million (lease income is accounted for in net sales and lease expenses are accounted for in selling, general and administrative expenses, respectively, in principle), loss on disposal and sales of fixed assets was ¥-248 million (accounted for in extraordinary income/expenses) and impairment loss on fixed assets was ¥69 million (accounted for in extraordinary expenses).

(2) Matters concerning current values, etc. of real estate for lease, etc.

(million yen)

Consolidated balance sheet amount	Current value
138,984	144,013

(Note 1) The consolidated balance sheet amount is an amount obtained by deducting from the acquisition cost the accumulated depreciation of tangible fixed assets and the accumulated loss on impairment.

(Note 2) The current value as at the close of the consolidated fiscal year under review is an amount (including any adjustment made using indexes, etc.) calculated by the Company principally in accordance with its "Real Estate Appraisal Standards".

8. Notes on the information per share

(1) Net assets per share (yen): 3,868.68

(2) Net loss per share (yen): (76.31)

(Note 1) Diluted net income per share is not calculated for the consolidated fiscal year under review because it is a net loss per share, and no dilutive shares exist.

(Note 2) In calculating net assets per share, the 564 thousand shares held by The Master Trust Bank of Japan, Ltd. as the trust property for the Company's stock compensation plan is included in the number of treasury stock that is to be deducted from the number of the Company's issued shares at the end of the current fiscal year. Also, in calculating net loss per share, the 564 thousand shares held by The Master Trust Bank of Japan, Ltd. as the trust property for the Company's stock compensation plan is included in the number of treasury stock that is to be deducted from the average number of the Company's issued shares during the current fiscal year.

9. Notes on significant subsequent events

None

10. Notes on asset retirement obligations

Asset retirement obligations recorded on the consolidated balance sheet:

(1) Summary of the asset retirement obligations:

Restitution obligations in connection with real estate lease agreements with regard to land for facilities of service stations, expenses of removal of oil and coal production facilities upon termination of production or mining rights and other items are reasonably estimated and recorded as asset retirement obligations.

(2) Method of calculation of the amounts of the asset retirement obligations:

The periods projected prior to defrayment are based on, with regard to service stations, the useful lives of principal facilities thereof and with regard to oil development, coal, etc., mining lives from the commencement of operations. Applicable discount rates range from 0.2% to 4.8%.

(3) Changes in the total amount of the asset retirement obligations during the consolidated fiscal year under review:

(million yen)

Balance at beginning of year	53,878
Increased amount in connection with the acquisition of tangible fixed assets	325
Adjustments by lapse of time	2,121
Decreased amount as a result of asset retirement obligations	(2,128)
Increased (decreased) amount as a result of changes in estimates (see Note 1)	6,606
Other increased (decreased) amount (see Note 2)	2,800
Balance at end of year	63,603

(Note 1) During the consolidated fiscal year under review, the Company changed estimates because it became clear that the expenses to be incurred upon termination of production or mining rights by some overseas consolidated subsidiaries would increase or decrease. The increased (decreased) amount comprises an increase of ¥6,657 million and a decrease of ¥50 million.

(Note 2) "Other increased (decreased) amount" was generated principally by the increase resulting from newly consolidated subsidiaries, etc.

11. Other notes

(Additional information)

(Accounting Estimates)

The Group's consolidated financial statements include management's estimates and assumptions that affect the amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are based on management's best judgement that takes account of past financial results, various factors considered to be reasonable as of the end of the fiscal year, and other considerations. Due to their inherent nature, actual results may differ from these estimates and assumptions.

Uncertainty over the Group's future business activities has been increasing owing to the impact of COVID-19 because not only demand for petroleum products decreased toward the end of fiscal year 2019 but a further drop in demand is anticipated, given the ongoing canceled/reduced flights by airlines as well as the declaration of a state of emergency. Under these circumstances, the Group's estimates and assumptions are based on the presumption that the impact of COVID-19 will subside about one year after the end of fiscal year 2019. Depending on future development, it may have material impact on the Group's consolidated financial statements for the following fiscal years. The items that the Group considers particularly important are as follows:

1. Collectability of deferred tax assets in non-consolidated financial statements

In the non-consolidated financial statements for fiscal year 2019, tax loss of ¥82.5 billion was recorded, primarily reflecting the time-lag effect of tumbling crude oil prices. As a result, deferred tax assets of ¥57.3 billion were recorded for the amount of loss carried forward at the end of March 2020. Collectability of the deferred tax assets has been assessed based on estimated taxable income for the next five years, a period which generally allows companies to make reasonable estimate.

2. Valuation of assets in subsidiaries and affiliates with December 31 fiscal year-end

In preparing consolidated financial statements, for subsidiaries and affiliates with December 31 fiscal year-end, their financial statements as of December 31 are used. Accordingly, their assets are evaluated using estimations based on external institutions' forecasts for crude oil prices and product prices, available as of the end of December.

NON-CONSOLIDATED STATEMENT OF CHANGES IN SHAREHOLDERS' EQUITY, ETC.

(April 1, 2019 to March 31, 2020)

(million yen)

	Shareholders' equity

(Note) Figures are indicated by discarding fractions less than one million yen.

NOTES TO NON-CONSOLIDATED FINANCIAL STATEMENTS

1. Matters concerning significant accounting policies

(1) Basis and method of valuation of assets

(i) Basis and method of valuation of securities:

(a)	Bonds to be held to maturity:	At amortized cost (straight-line method)
(b)	Capital stocks of affiliates:	At cost, determined by the moving average method
(c)	Other securities:	
	Those with market value:	At market value, implementing the use of the market price at each reporting date (valuation differences are included directly in net assets, and costs of securities sold are determined by the moving average method).
	Those without market value:	At cost, determined by the moving average method

(ii) Basis and method of evaluation of inventories:

Merchandise and finished goods, and raw material and supplies:	At cost, determined by the gross average method, in principle (the balance sheet values are calculated by the write-down method based on declined margins).

(iii) Basis and method of evaluation of derivatives:

At market value

(2) Method of depreciation of fixed assets

(i) Tangible fixed assets (excluding lease assets):	By the straight-line method
(ii) Intangible fixed assets (excluding lease assets):	By the straight-line method; provided, however, that software for internal use is amortized by the straight-line method on the estimated useful life of internal use (five years). Goodwill is amortized by the straight-line method, on the estimated term to become effective (20 years). Customer-related assets are amortized by the straight-line method, on useful lives (20 years).
(iii) Lease assets:	By the straight-line method on the assumption that the lease period is the useful life of the property and the residual value is zero.

(3) Basis for accounting for allowances and reserves

(i) Allowance for doubtful accounts: To meet losses from loan default, the Company sets aside an estimated uncollectible amount, by taking into consideration the actual loss rate in respect of general credits and the individual possibilities of collection in respect of specific claims, such as probable non-performing credits.

(ii) Allowance for bonuses: To meet the payment of bonuses to employees, the Company sets aside the portion for the fiscal year under review of an estimated amount of bonuses to be paid in the future.

(iii) Retirement allowances for employees: To meet the payment of retirement benefits to employees, the Company provides an amount estimated to accrue at the close of the fiscal year under review, based on the estimated retirement benefit obligations and pension plan assets as of the close of each such fiscal year.

Actuarial differences are treated as expenses, based on the straight line method for a specific period of years (ten years) not exceeding the average remaining years of service of employees, from the fiscal year next following the fiscal year when such differences occur. Prior year service liabilities are treated as expenses in a lump sum during the fiscal year when such liabilities occur.

(iv) Reserve for repair works: To meet the payment for repair expenses in the future, the Company sets aside the portion until the fiscal year under review of an amount of expenses of inspection and repair to be defrayed in respect of the oil tanks and machinery and equipment that require periodic repairs in the future.

(4) Method of hedge accounting

(i) Method of hedge accounting: Deferral hedge accounting is applicable.

(ii) Hedge instruments and hedged items:

Hedge instruments:	Forward exchange contracts, currency option transactions, foreign currency debts payable, futures transactions, crude oil and petroleum products swap transactions, interest rate swaps, interest rate and currency swaps, and option transactions.
Hedged items:	Foreign currency receivables and payables, foreign currency investment securities, equity interests in overseas subsidiaries, crude oil and petroleum products and debts payable.

(iii) Hedging policy: The Company, in accordance with its rules, carries out hedge transactions within the scope of actual requirements to hedge risk of price changes, interest rate and currency fluctuations with regard to the hedged items.

(iv) Method of evaluating the effectiveness of a hedge:

The method of evaluating the effectiveness of a hedge is to confirm the compliance of the hedging instruments with the hedged items. No evaluation is made as to the effectiveness of any transaction in which important conditions are common for the hedged assets and liabilities and price changes or cash flow changes are assumed in advance to be offset upon the commencement of the hedging and continue to be offset thereafter.

(5) Other important matters forming the basis of preparation of financial statements

(i) Accounting treatment of deferred assets:

Bond issuance expenses and stock issuance expenses are all treated as expenses upon payment thereof.

(ii) Accounting treatment of consumption taxes, etc.:

Consumption taxes and local consumption taxes are excluded from each account subject to such taxes.

(6) Change in accounting policies

(Change in valuation method of available-for-sale securities with fair value)

The Company previously used the average market price for a month before the reporting date when applying the fair value method to measure its equity instruments classified as available-for-sale securities. Effective April 1, 2019, the Company made changes to the fair value method and implemented the use of the market price at each reporting date, which is the required method in principle when applying the fair value method. This change was made to provide more appropriate information regarding the Company's financial position upon the business integration with Showa Shell Sekiyu K.K. Since the effect from this accounting policy change was not material, the new accounting policy was not applied retrospectively.

(7) Changes in presentation methods

Not applicable.

2. Notes to the non-consolidated balance sheet

(1) Assets pledged and corresponding liabilities

Assets pledged

(i)	Factory foundation mortgage:	
	Land	¥344,931 million
(ii)	Other pledges:	
	Investment securities	¥3,581 million
	Investments in shares of affiliates	¥3,000 million
	Total	¥351,512 million

In addition to the above, the Company pledged investment securities (investments in shares of affiliates) in Nghi Son Refinery and Petrochemical LLC ("NSRP"), amounting to ¥90,645 million, as collateral for NSRP's borrowings from financial institutions. All of the investment securities (investments in shares of affiliates) for this fiscal year have been booked as impairment loss on investments in shares of affiliates.

Liabilities with assets pledged

Factory foundation mortgage:	
Accounts payable-other	¥31,056 million
Total	¥31,056 million

The accounts payable-other were related to payment of gasoline tax.

In addition to the above, although the factory foundation was subjected to a revolving mortgage related to bank transactions, there were no substantial liabilities with assets pledged.

(2) Accumulated depreciation of tangible fixed assets: ¥1,733,565 million

(3) Contingent liabilities:

(i) Guarantee of obligations

Idemitsu International (Asia) Pte. Ltd.	¥111,553 million
Idemitsu Australia Resources Pty. Ltd.	¥33,945 million
Idemitsu Asia Pacific Pte. Ltd.	¥24,922 million
Others	¥46,217 million
Total	¥216,638 million

(ii) Management directive memorandums

Hibiki Nada Development Co., Ltd.	¥25 million

(iii) Construction completion guarantee

The Company provides a construction completion guarantee for project financing regarding the project to construct the Nghi Son refinery and petrochemical complex, by Nghi Son Refinery and Petrochemical LLC in Vietnam. The burden of the guarantee of the Company is as follows.

The Company's burden of guarantee	¥165,127 million

(4) Receivables from affiliates and payables to affiliates:

(i)	Short-term receivables from affiliates:	¥425,314 million
(ii)	Long-term receivables from affiliates:	¥23,508 million
(iii)	Short-term payables to affiliates:	¥292,649 million
(iv)	Long-term payables to affiliates:	¥2,287 million

(5) Land revaluation

In accordance with the Land Revaluation Act (Act No. 34, promulgated on March 31, 1998) of Japan and the Act to Amend Part of the Land Revaluation Act (Act No. 19, promulgated on March 31, 2001) of Japan, the Company's land used for business is revaluated and an amount equivalent to taxes on the difference on revaluation is included in liabilities as "deferred tax liabilities upon revaluation" and the difference on revaluation minus the amount of such taxes is included in net assets as "revaluation difference of land".

(i) Method of revaluation:

Land revaluation is made in accordance with the method of calculation by making reasonable adjustments to the assessed value of fixed assets as set forth in Article 2, item 3 of the Ordinance to Implement the Land Revaluation Act (Cabinet Order No. 119, promulgated on March 31, 1998; the "Ordinance"), the method of calculation by making reasonable adjustments to the land values that form the basis of land tax calculations as set forth in Article 2, item 4 of the Ordinance, and appraisals by real estate appraisers as set forth in Article 2, item 5 of the Ordinance.

(ii) Revaluation date: March 31, 2002

(iii) Difference of the market value at the end of the fiscal year under review of the land revaluated and the book value thereof after such revaluation:

(¥135,110 million)

3. Notes to the non-consolidated statement of income

(1) Transactions with affiliates:

(i)	Sales:	¥1,087,867 million
(ii)	Purchases:	¥764,665 million
(iii)	Transactions other than ordinary business:	¥91,536 million

(2) Gain on extinguishment of tie-in shares

The gain on extinguishment of tie-in shares, ¥13,452 million, is due to an absorption-type company split in which Showa Shell Sekiyu K.K. was the splitting company and the Company was the succeeding company.

4. Notes to the non-consolidated statement of shareholders' equity, etc.

Matters concerning the number of shares of treasury stock:

Class of shares	Number of shares as of April 1, 2019	Increase in the number of shares during the year	Decrease in the number of shares during the year	Number of shares as of March 31, 2020
Shares of common stock	10,657 thousand shares	4,485 thousand shares	14,557 thousand shares	585 thousand shares

(Note 1) The increase of 4,485 thousand shares consists of the acquisitions of 4,060 thousand shares in accordance with the resolution of the board of directors, the acquisitions of 401 thousand shares for the Board Incentive Plan Trust for Officers and 23 thousand shares due to the acquisitions of less-than-one-unit shares.

(Note 2) The decrease consists of a decrease of 10,486 thousand shares due to the share exchange with Showa Shell Sekiyu K.K., a decrease of 4,060 thousand shares due to the cancellation in accordance with the resolution of the board of directors, a decrease of 7 thousand shares due to the stock awards in accordance with the Board Incentive Plan Trust for Officers, and a decrease of 3 thousand shares due to the disposals of less-than-one-unit shares.

(Note 3) Of the number of shares at the end of the current period 564 thousand shares were held by the Board Incentive Plan Trust for Officers.

5. Notes on tax effect accounting

Principal components of deferred tax assets and deferred tax liabilities:

(Deferred tax assets)	(million yen)

(Note 1) The Company guarantees obligations principally for bank loans.
(Note 2) The Company determines interest rates taking into consideration market interest rates and other factors.
(Note 3) The Company guarantees obligations principally for purchasing goods.
(Note 4) The company split is a transaction under common control and the assets and liabilities above have been transferred at a fair book value.
(Note 5) The Company receives from Idemitsu Credit Co., Ltd. part of the trade receivables of petroleum products, etc. for exclusive distributors (after offsets by such exclusive distributors against credit receivables from Idemitsu Credit Co., Ltd.).
(Note 6) The transaction amount represents the total annual collection amount.
(Note 7) The Company determines whether to purchase products, etc. taking into consideration market prices, etc.
(Note 8) The Company has provided a construction completion guarantee for the project finance in connection with the project of constructing the Nghi Son Refinery and Petrochemical Complex. In addition, the Company pledged investment securities (investments in shares of affiliates) in Nghi Son Refinery and Petrochemical LLC ("NSRP"), amounting to ¥90,645 million, as collateral for NSRP's borrowings from financial institutions. All of the investment securities (investments in shares of affiliates) for the fiscal year under review have been booked as impairment loss on investments in shares of affiliates.
(Note 9) The transaction amount represents the portion of the guarantee amount provided by the Company.
(Note 10) Mr. Masakazu Idemitsu, one of the Company's directors, and his close relatives hold 100% of the voting rights.
(Note 11) Rents are calculated based on actual transactions in the vicinity.

8. Notes on the information per share

(1)	Net assets per share (yen):	2,964.53
(2)	Net income (loss) per share (yen):	(188.92)

(Note 1) Diluted net income per share for the current fiscal year is not calculated because of net loss per share during the current fiscal year and because dilutive shares do not exist.

(Note 2) In calculating net assets per share, the shares held by The Master Trust Bank of Japan, Ltd. as the trust property for the Company's stock compensation plan (564 thousand shares) are included in the number of treasury stock that is to be deducted from the number of the Company's issued shares at the end of the respective fiscal years. Also, in calculating net loss per share, the shares held by The Master Trust Bank of Japan, Ltd. as the trust property for the Company's stock compensation plan (564 thousand shares) are included in the number of treasury stock that is to be deducted from the average number of the Company's issued shares during the respective fiscal years.

9. Notes on significant subsequent events

Not applicable.

10. Other notes

(Additional information)

(Accounting estimates)

The collectability of deferred tax assets in non-consolidated financial statements is omitted because the details can be found in the NOTES TO CONSOLIDATED FINANCIAL STATEMENTS, "11. Other notes."

(Notes on business combination)

Notes on business combination through acquisition, and transactions under common control, etc., are omitted because the same content can be found in the NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS, "6. Notes on business combination."

As a result of transactions under common control, etc., gain on extinguishment of tie-in shares (¥13,452 million) is recognized as extraordinary income.
