Selection of Lasertec stock for stock lending and borrowing

Yokohama, December 14, 2017 - Lasertec Corporation announced today that the stock of Lasertec Corporation, which has hitherto been selected as a standardized margin trading issue on the first section of the Tokyo Stock Exchange, is newly selected as a loan margin trading issue.

The selection is effective as of December 15, 2017, and applicable to trading on the same date and thereafter.

We expect that this selection, which makes the stock of Lasertec Corporation eligible for stock lending and borrowing, faciliates an increase in liquidity and an improvement in supply-demand balance for the stock, and thereby contributes to active trading and fair pricing.
