REIT Financial Report for the six-month period ended July 31, 2024
(The 38th Period)

September 11, 2024

Name of REIT issuer:	Japan Logistics Fund, Inc.	Stock exchange listing: Tokyo Stock Exchange
Security code:	8967	URL: https://8967.jp/en/
Representative:	Seiichi Suzuki, Executive Director	

Name of asset management company:	Mitsui & Co., Logistics Partners Ltd.
Representative:	Seiichi Suzuki, President & CEO
Contact:	Shintaro Miyata, Finance & IR Dept.
	TEL: +81-(0)3-3238-7171

Scheduled date for submission of Securities Report:	October 30, 2024
Scheduled date for commencing dividend payments:	October 7, 2024
IR Material:	Will be posted on the website
IR Meeting:	Will be held for institutional investors and security analysts

(Figures are rounded down to the nearest million yen)

1. Performance for the six-month period ended July 31, 2024 (The 38th Period from February 1, 2024 to July 31, 2024)

(1) Operating Results (% represents change from the previous period)

	Operating Revenue		Operating Income		Ordinary Income		Net Income	
Period ended	Millions of	%	Millions of	%	Millions of	%	Millions of	%
July 31, 2024	10,714	5.6	5,754	8.6	5,320	9.4	5,320	9.4
January 31, 2024	10,147	0.1	5,301	1.2	4,862	1.0	4,861	1.0

	Net Income per Unit	Net Income to Net Assets	Ordinary Income to Total Assets	Ordinary Income to Operating Revenue
Period ended	Yen	%	%	%
July 31, 2024	5,716	3.7	1.9	49.7
January 31, 2024	5,209	3.4	1.8	47.9

(2) Dividends

	Dividends per Unit (excluding Distributions in excess of earnings)	Total Dividends (excluding Distributions in excess of earnings)	Distributions in excess of earnings per Unit	Total Distributions in excess of earnings	Payout Ratio	Distributions to Net Assets
Period ended	Yen	Millions of yen	Yen	Millions of yen	%	%
July 31, 2024	5,300	4,932	-	-	92.7	3.5
January 31, 2024	5,223	4,861	-	-	99.9	3.4

(Note) Payout Ratio = Total Dividends/Net Income x 100 (figures are rounded down to the nearest decimal place)
Dividends per unit for the fiscal period ended July 2024 were calculated by dividing the amount after deducting 387 million yen from the unappropriated retained earnings for the period as provision for reserve for reduction entry by the number of investment units issued and outstanding.

(3) Financial Position

	Total Assets	Net Assets	Net Assets to Total Assets	Net Assets per Unit
Period ended	Millions of yen	Millions of yen	%	Yen
July 31, 2024	273,833	142,939	52.2	153,582
January 31, 2024	273,680	142,401	52.0	153,004

(4) Cash Flows

	Net Cash Provided by (Used in) Operating Activities	Net Cash Provided by (Used in) Investing Activities	Net Cash Provided by (Used in) Financing Activities	Cash and Cash Equivalents at End of Period
Period ended	Millions of yen	Millions of yen	Millions of yen	Millions of yen
July 31, 2024	8,021	-2,744	-4,860	15,506
January 31, 2024	6,600	-518	-5,746	15,089

2. Forecasts for the six-month period ending January 2025 (the 39th Period from August 1, 2024 to January 31, 2025) and the six-month period ending July 2025 (the 40th Period from February 1, 2025 to July 31, 2025)

(% represents change from the previous period)

	Operating Revenue		Operating Income		Ordinary Income		Net Income		Dividends per Unit (excluding distributions in excess of earnings)	Distributions in Excess of Earnings per Unit
Period ending	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%	Yen	Yen
January 31, 2025	10,752	0.4	5,794	0.7	5,354	0.6	5,353	0.6	5,500	-
July 31, 2025	10,204	-5.1	5,237	-9.6	4,797	-10.4	4,796	-10.4	5,500	-

(Reference) Forecast for net income per unit January 31, 2025: 5,751 yen July 31, 2025: 5,153 yen

(Note 1) Dividends per Unit for the period ending January 31, 2025 is based on the assumption that 234 million yen will be retained from unappropriated retained earnings of 5,353 million yen for the period by utilizing the advanced depreciation method, etc. stipulated in the Act on Special Measures Concerning Taxation.

(Note 2) Dividends per Unit for the period ending July 31, 2025 is based on the assumption that unappropriated retained earnings of 4,796 million yen for the period plus a portion of internal reserves (323 million yen) will be reversed as a source of payment.

* Other

(1) Changes in accounting policies, changes in accounting estimates, and restatement of prior period financial statements after error corrections

(i) Changes in accounting policies due to revisions to accounting standards None
(ii) Changes in accounting policies other than (i) None
(iii) Changes in accounting estimates None
(iv) Restatement of prior period financial statements after error corrections None

(2) Number of investment units issued and outstanding

(i) Number of investment units (including treasury investment units) issued and outstanding at the end of each period
July 31, 2024: 930,700 units January 31, 2024: 930,700 units

(ii) Number of treasury investment units issued and outstanding at end of period
July 31, 2024: 0 unit January 31, 2024: 0 unit

(Note) For the number of investment units serving as the basis of calculation of net income per unit, please refer to "Per Unit Information" on page 29.

* This Financial Report is outside the scope of audit by a certified public accountant or an audit corporation.

* Remarks:

(Note to forward-looking statements)

This document contains forecasts and other forward-looking statements based on the information currently available and on certain assumptions judged as rational by Japan Logistics Fund, Inc. (hereafter referred to as "JLF"), and the actual operating results, etc. may differ significantly from that anticipated by JLF due to various factors. Moreover, the forecasts are not intended to guarantee any amount of dividend distribution and distribution in excess of earnings. For notes regarding assumptions underlying these forecasts, please refer to "1. Management Discussions and Analysis (1) Asset Management Status (ii) Outlook for the Next Six-month Period D. Forecasts" on page 8.

1. Management Discussions and Analysis

(1) Asset Management Status

(i) Summary of Results for the six-month period ended July 31, 2024 (The 38th Period)

A. Background of JLF

JLF is the first J- REIT dedicated to "logistics properties" with real estate and other assets used for logistic facilities primarily in the Tokyo Metropolitan, Osaka, Nagoya and Fukuoka areas as investment targets. Based on the Act on Investment Trusts and Investment Corporations (Act No. 198 of 1951; including revisions enforced thereafter) (hereinafter, "the Investment Trust Act"), JLF was founded on February 22, 2005 with Mitsui & Co., Logistics Partners Ltd. as the founding planner, and was listed on the REIT section of the Tokyo Stock Exchange, Inc. (hereinafter, "Tokyo Stock Exchange") on May 9 of the same year (security code: 8967).

As of July 31, 2024 (the end of the 38th Period), JLF owns 53 properties under management with a total acquisition price of 291,123 million yen and total assets of 273,833 million yen.

B. Investment Environment and Management Performance

The Japanese economy today is recovering gently, despite some weak spots. Economies overseas are generally growing steadily, and exports and industrial production have been mostly flat. Corporate earnings are improving, and sentiment remains positive as capital investments trend mildly upward. Consumer prices (excluding fresh foods) are rising in the mid- 2% range year-on-year. The effects of passing on higher import prices are dissipating, but service prices continue to rise modestly on higher wages and the like. Meanwhile, the TSE REIT Index has been showing instability on concerns about further rate hikes beyond what the Bank of Japan has already decided.

In the logistics leasing market, logistics companies continue to play a central role in demand formation in the Tokyo Metropolitan Area. However, there have been inquiries from a diverse range of sectors including automotive manufacturing, apparel, and entertainment. Additionally, some manufacturers based in other parts of Japan have set up logistics centers in the Tokyo Metropolitan Area. Tenant demand along the outer ring of the Metropolitan Central Expressway has been lax in some areas, but some areas with few vacancies have seen rental growth. The Osaka metropolitan area has seen tenant demand from logistics companies and many other sectors, including manufacturers and general consumer goods companies handling daily sundries and the like. In Fukuoka, companies related to the semiconductor industry and logistics companies carrying food products, sundries and other consumer goods have exhibited demand for new or additional space. In both markets, pre-letting has been strong at construction projects planned to complete by December 2024. In Nagoya, new supply has been met with strong demand from automotive, machinery and other manufacturing sectors. In other parts of Japan, strong demand has outstripped new supply, driven by demand to newly occupy or consolidate space for producing or storing semiconductors and general consumer goods and to establish a footprint outside Tokyo to comply with stricter environmental and labor-force requirements in 2024.

Amid this environment, JLF continues to strive to achieve stability and sustainable growth in DPU and NAVPU. We have made progress in securing an external growth pipeline that is mindful of our capital cost by leveraging our know-how related to logistics redevelopment from our track record in Own Book Redevelopment (OBR) (Note 1) to pursue Cooperative development projects with business partners (Note 2). We also continue to achieve strong internal growth, signing multiple lease renewals at higher rent prices.

(Note 1) "OBR" (Own Book Redevelopment) is the redevelopment of properties owned by JLF itself. "Redevelopment" refers to the act of JLF building a new building on land that JLF owns after the existing building has been demolished. JLF collaborates with players such as construction companies, who build the new building on land JLF owns. After the building is complete, JLF acquires said building at a timing of its discretion. The same applies hereafter.

(Note 2) Cooperative developments with business partners refers to initiatives where JLF is involved from the initial phases of the development of a logistics facility and thereby aims to acquire the property at a discounted price compared to bidding in the real estate acquisition market.

C. Overview of Financial Strategy

During the six-month period under review, JLF refinanced 5,500 million yen of long-term borrowings that matured in February 2024 and 1,000 million yen in long-term loans that matured in March 2024. Through these efforts, JLF has increased its resistance to rising interest rate fluctuations by fixing interest rates and diversifying repayment dates and has also reduced funding costs and diversified its sources of funding.

As a result, as of the end of the period under review, total interest-bearing liabilities stood at 119,700 million yen, and LTV (loan to value) was 43.7% based on total assets (Note1) and 29.0% based on appraisal value (Note2), maintaining stable financial operations.

(Note 1) Total assets-based LTV (%) = Interest-bearing debt / total assets x 100 (figures are rounded off to one decimal place)
(Note 2) Appraisal value-based LTV (%) = Interest-bearing debt / appraisal value at the end of the six-month period x 100 (figures are rounded off to one decimal place)

Credit rating of JLF as of July 31, 2024

Credit Rating Agency	Rating	
Rating and Investment Information, Inc. (R&I)	Issuer rating	AA- (Outlook: Stable)
	Long-term bond rating	#2nd unsecured investment corporation bonds #3rd unsecured investment corporation bonds #5th unsecured investment corporation bonds AA-
Japan Credit Rating Agency, Ltd. (JCR)	Long-term Issuer rating	AA (Outlook: Stable)
	Bond rating	#6th unsecured investment corporation bonds AA
		#7th unsecured investment corporation bonds (Green Bonds) AA

D. Performance and Distributions

As a result of the above, JLF posted operating revenue of 10,714 million yen, operating income of 5,754 million yen, ordinary income of 5,320 million yen and net income of 5,320 million yen.

Note that, under Article 65-7 of the Act on Special Measures Concerning Taxation, some of the gains (387 million yen) from the March 2024 sale of the Urayasu Chidori Logistics Center II will be retained as a reserve for reduction entry in the six-month period under review. Accordingly, JLF decided to distribute 4,932 million yen, which is the amount remaining after deducting the 387 million yen transferred from unappropriated retained earnings to the reserve for reduction entry within the limits on reserve for reduction entries stipulated in Article 65-7 of the Act on Special Measures Concerning Taxation. As a result, the distribution per unit was 5,300 yen.

(ii) Outlook for the Next Six-month Period

A. Recognition of the Environment

Looking forward, the Japanese economy is expected to grow beyond its potential growth rate as a virtuous cycle from income to spending builds momentum, backed by continued modest growth in overseas economies and an easy monetary environment. Under the base case scenario, inflation rates in the West trend downward in starts and fits while some central banks implement modest rate cuts. That said, inflationary pressure persists globally, and there is risk of prolonged monetary tightening. So, there is a need to remain vigilant against uncertainties about how the real economy and finance will be impacted by elevated interest rates.

In the logistics leasing market, supply in the Tokyo Metropolitan Area will settle down to historical average levels for the next year, but it may take time to absorb vacancies in the outer submarkets, so expect continued slack in supply. Meanwhile, Osaka, Nagoya, and Fukuoka will continue to see substantial new supply. Vacancy rates are expected to trend near 2023 levels based on countermeasures against stricter environmental and labor-force requirements in 2024 in the logistics industry and strengthening of supply chains in the manufacturing industry.

Acquisition yields in the logistics acquisition market should remain compressed, given the relatively large yield gap compared to global markets and investor demand for the defensive nature of logistics cash flows.

As the environment surrounding J-REITs changes substantially, such as inflation and interest rate increases, JLF recognizes the need to improve its investment unit price, which has been trending weakly. Amid this environment, JLF raises its DPU target from 5,600 to 5,700 yen to 6,300 yen. JLF will pursue rental growth, strengthen an income gain strategy that suppresses cost increases from higher interest rates and the like, pursue a new capital gain strategy that leverages JLF's abundant unrealized gains, strengthen unitholder returns, and grow the DPU to encourage unit price appreciation.

B. Future Asset Management Policies and Issues to be Addressed

In such an investment environment, JLF will pursue asset management aimed at achieving stable earnings over the medium to long term based on the following policies.

(a) Operational management of portfolio properties

- Leasing management

  When renewing leases, we strive to stabilize and grow revenues. We advance long-term leases to stabilize revenues and conduct rent negotiations with an eye on the market environment and tenant circumstances to grow revenues. When a tenant decides to move out, JLF will perform leasing activities based on this policy so that leases are maintained without any discontinuity and revenues are secured by leveraging its sponsor network, intermediary companies well versed in logistics properties and in tenant information for respective regions, as well as the network of the asset management company.

  The properties currently held by JLF have an average leasing period of 4.3 years when calculated on a weighted average basis using annual rent, indicating that JLF will continue to earn stable income.

- Strengthening of tenant relations

  JLF will promote the improvement of the overall satisfaction level of tenants by maintaining close contact with existing tenants. Specifically, JLF responds to tenant's needs for expanding rental space and improving the property conditions of existing logistics facilities, making functional improvements in line with the needs of tenants and the industry and implementing renewals.

- Appropriate property maintenance and additional investment

  JLF conducts repairs and renovations of properties owned by keeping related costs at a certain level. In addition, JLF strives to maintain an optimal level of maintenance management of its properties by selecting appropriate property management companies that can provide efficient management in line with the characteristics of each property, improving the management quality of the asset management company, and standardizing various procedures.

  Furthermore, JLF considers OBR , disposition, and asset reshuffle if necessary, taking into consideration tenant requests, the leasing needs of facilities, floor area ratios, and other factors in determining portfolio properties that have locational advantages in the leasing market and those that can gain higher competitiveness through building/facility renewal while identifying properties that no longer offer economic benefits due to the increased maintenance cost burden caused by deterioration over time.

(b) Acquisition of new properties

- Sourcing of property information

  Unlike other asset types, logistics properties have limited transaction volumes in the market. Therefore, JLF believes that collecting a broad range of information and making precise investment decisions based on the information gathered lead to achieve high competitiveness. In order to avoid unnecessary price competition, JLF will work to obtain early access to property information and promote negotiated transactions by leveraging the extensive networks of sponsors and the information sourcing channels of the asset management company.

- Specifications of properties for acquisition

  When acquiring properties, JLF will make investment decisions with a focus on the location and versatility of properties which are essential factors in pursuing stable and long-term management of logistics properties. As a general rule, JLF avoids acquiring, in particular, properties with unique structural and facility features that suit only certain types of tenants in certain industries. Rather, JLF's most important criterion for making investment decisions is versatility of specifications that can satisfy broad logistical demand.

- Diversification of portfolio

  To minimize fluctuations in revenue arising from factors such as a tenant's request to lower rent or a tenant moving out of a property, JLF acquires properties that will help reduce risk of over-concentration of tenants by avoiding excessive dependency on single tenant or industry of tenants and diversifying lease period expirations.

(c) Financial strategy

- JLF sets its highest priority on the stability and growth of dividends per unit while making sure to maintain a conservative interest-bearing debt ratio in pursuing financial activities, including raising funds through bank borrowings and increasing capital through

public offerings. In public offerings, the policy is to consider the growth of unitholder value, including the growth of distributions per unit and NAV per unit. When pursuing interest-bearing debt financing, JLF will diversify funding sources and repayment due dates. Furthermore, with regard to tenant leasehold and security deposits, JLF will use such deposits to partially fund property acquisitions to exercise efficient cash management.

In addition, JLF will consider the buyback and cancellation of its own investment units as required as part of its capital policy in order to improve capital efficiency and the return to unitholders.

C. Significant Subsequent Events

<Asset disposition>

JLF has decided the disposition of the following asset on August 26, 2024.

[T-6 Komaki Logistics Center II]

Asset disposed	Real estate
Planned disposition price	2,250 million yen
Date of contracts	August 26, 2024
Planned date of delivery	October 1, 2024
Buyer	CREAL Inc.
Effect on profit and loss	In the six-month period ending January 31, 2025 (August 1, 2024 to January 31, 2025), JLF plans to record a gain on sales of real estate in the amount of 605 million yen, of which 234 million yen will be reserved in the reserve for reduction entry.

< Investment Units Buybacks and Cancellation Program >

JLF announces that its Board of Directors has resolved the investment units buybacks program based on Article 80-2 of the Act on Investment Trusts and Investment Corporations applied pursuant to Article 80-5, Paragraph 2 of the Investment Trusts Act. JLF's Board of Directors has resolved to cancel the total number of all investment units acquired through the Buybacks on January 31, 2025 (August 1, 2024 to January 31, 2025) after the completion of the Buybacks.

1. Reasons for the Investment Unit Buyback Program

JLF believes that acquiring its own investment units and cancelling these treasury units at a unit price level where the implied cap rate is high is useful from the standpoint of investment efficiency. In addition, the acquisition and cancellation of the proprietary investment units will reduce the total number of investment units issued and outstanding, thereby increasing distribution per unit. JLF has decided the Buybacks and the Cancellation investment units since it believes that these effects will improve JLF's cost of capital and increase unitholder value over the medium to long term.

2. Details of Matters concerning the Buyback Program

Planned total number of investment units for this buyback program	:	Up to 22,800 units
Planned total amount of investment units for this buyback program	:	Up to 6.0 billion yen
Buyback period	:	From September 12, 2024 to December 30, 2024
Method of the buybacks	:	JLF plans to enter into a purchase contract with a broker and let the broker purchase from the market, Tokyo Stock Exchange.

3. Details of Matters concerning the Cancellation Program

Total number of investment units to be cancelled	:	Total number of all investment units acquired through the Buybacks
Scheduled cancellation date	:	January 31, 2025

D. Forecasts

Forecasts for the six-month period ending January 2025 (from August 1, 2024 to January 31, 2025) and the six-month period ending July 2025 (from February 1, 2025 to July 31, 2025) are as follows. Please refer to "Assumptions Underlying the Forecasts for the six-month period ending January 31, 2025 and the six-month period ending July 31, 2025" for the assumptions underlying these forecasts.

(% represents change from the previous period)

	Operating Revenue		Operating Income		Ordinary Income		Net Income		Dividends per Unit (excluding distributions in excess of earnings)	Distributions in Excess of Earnings per Unit
Period ended	Millions of yen	%	Millions of yen	%	Millions of yen	%	Millions of yen	%	Yen	Yen
January 31, 2025	10,752	0.4	5,794	0.7	5,354	0.6	5,353	0.6	5,500	-
July 31, 2025	10,204	-5.1	5,237	-9.6	4,797	-10.4	4,796	-10.4	5,500	-

(Note1) The figures above were computed under certain assumptions, and the actual net income, dividends, etc. may differ depending on various factors. In addition, the forecasts are not intended to guarantee any amount of dividends per unit.

(Note2) Dividends per Unit for the period ending January 31, 2025 is based on the assumption that 234 million yen will be retained from unappropriated retained earnings of 5,353 million yen for the period by utilizing the advanced depreciation method, etc. stipulated in the Act on Special Measures Concerning Taxation.

(Note3) Dividends per Unit for the period ending July 31, 2025 is based on the assumption that unappropriated retained earnings of 4,796 million yen for the period plus a portion of internal reserves (323 million yen) will be reversed as a source of payment.

Assumptions Underlying the Forecasts for the six-month period ending January 31, 2025 and the six-month period ending July 31, 2025

Item	Assumptions
Calculation period	・ For the six-month period ending January 31, 2025: August 1, 2024 to January 31, 2025 ・ For the six-month period ending July 31, 2025: February 1, 2025 to July 31, 2025
Properties owned	・ From the 53 properties owned by JLF as of the publication of this document, it is assumed that JLF will dispose Komaki Logistics Center II (planned disposition price: 2,250 million yen) on October 1, 2024 and that no other additional properties will be acquired (including the acquisition of Amagasaki Logistics Center, for which a trust beneficiary right purchase agreement is executed) or disposed until July 31, 2025. The number of properties owned at the end of the six-month period ending January 31, 2025 and July 31, 2025 is assumed to be 52. ・ The trust beneficiary rights purchase agreement associated with the acquisition of the Amagasaki Logistics Center qualifies as a forward commitment as stipulated by the Comprehensive Guidelines for the Supervision of Financial Instruments Operators, etc., set forth by the Financial Services Agency. The scheduled date of acquisition of the property has not yet been determined, but it is scheduled to be the date designated by JLF by April 2, 2026. ・ There may be fluctuations, mainly due to the transfer of assets under management.
Total number of investment units issued	・ The forecasts assume 930,700 units outstanding, the total number of investment units issued and outstanding as of the publication of this document, they are assumed that there will be no issuance of new investment units and no buyback or cancellation of owned investment units by the end of the fiscal period ending July 31, 2025. In addition, the impact through the buyback program described in "1. Management Discussions and Analysis (1) Asset Management Status (ii) Outlook for the Next Fiscal Period C. Significant Subsequent Events" is not reflected to the forecasts.
Interest-bearing debt	・ Among the interest-bearing debt of 119,700 million yen outstanding as of the publication of this document, JLF will repay long-term borrowings of 6,500 million yen in the six-month period ending July 2025 by using new borrowings. ・ The interest-bearing debt outstanding is expected to be 119,700 million yen as of January 31, 2025 and July 31, 2025.
Operating revenue	・ The rent revenue is estimated based on the lease contracts in effect as of the publication (however, the lease contract of Ishikari Logistics Center will be in effect as of the date of the acquisition), and considering the fluctuation factors such as the market environment and rent levels based on negotiations with lessees. ・ JLF expects to gain 605 million yen as gains on sale of real estate, etc., in the period ending January 31, 2025 in connection with the disposition of Komaki Logistics Center II.
Operating expenses	・ When acquiring real estate, etc., JLF will include in the acquisition cost the amount equivalent to the fixed asset tax and city planning tax ("Property tax, etc.") for the fiscal year of acquisition. ・ Breakdown of expenses related to the rent business, which comprise the core part of operating expenses, is as follows. For the six-month period ending January 31, 2025 / For the six-month period ending July 31, 2025 Taxes and dues: 892 million yen / 899 million yen Outsourcing services: 344 million yen / 298 million yen Repair expenses: 227 million yen / 221 million yen Depreciation: 1,862 million yen / 1,843 million yen Loss on write-offs of noncurrent assets: 19 million yen / 4 million yen Other: 487 million yen / 631 million yen ・ Expenses other than deprecation and loss on write-offs of noncurrent assets are calculated based on past track

Item	Assumptions
	with expense fluctuation factors taken into account. ・ Actual repair expenses for each operating period may differ considerably from forecasts, mainly because unexpected repair expenses may be incurred due to building damage and other unforeseeable factors, the amount of repair expenses generally differs considerably from one six-month period to another, and repair expense, by nature, are not incurred on a regular basis. ・ Depreciation is calculated using t records he straight-line method, with considering incidental expenses and additional capital expenditure for the future. ・ Among operating expenses other than real estate leasing business, asset management fees are expected to be 936 million yen for the six-month period ending January 31, 2025 and 906 million yen for the six-month period ending July 31, 2025.
Non-Operating Expenses	・ As non-operating expenses, JLF assumes 440 million yen for the six-month period ending January 31, 2025 and 440 million for the six-month period ending July 31, 2025. Regarding the interest expenses and interest expenses on investment corporation bonds among the non-operating expenses, JLF assumes 382 million yen for the six-month period ending January 31, 2025 and 394 million yen for the six-month period ending July 31, 2025. Regarding financing fees, JLF assumes 48 million yen for the six-month period ending January 31, 2025 and 40 million yen for the six-month period ending July 31, 2025.
Dividends per Unit (Excluding distributions in Excess of earnings)	・ Dividends per unit are calculated based on the cash distribution policy defined under the Articles of Incorporation of JLF. ・ Dividends per Unit for the period ending January 31, 2025 is based on the assumption that 234 million yen will be retained from unappropriated retained earnings of 5,353 million yen for the period by utilizing the advanced depreciation method, etc. stipulated in the Act on Special Measures Concerning Taxation. ・ Dividends per Unit for the period ending July 31, 2025 is based on the assumption that unappropriated retained earnings of 4,796 million yen for the period plus a portion of internal reserves (323 million yen) will be reversed as a source of payment. ・ Dividends per unit may fluctuate, due to various factors such as acquisitions and sales of assets, fluctuations in rent income caused by tenant movements, unforeseeable repairs incurred, interest rate fluctuations and the issuance of new investment units.
Distributions in Excess of Earnings per Unit	・ JLF does not plan any distributions in excess of earnings at this moment.
Other	・ The forecasts assume that no revisions that impact the above projections are made to laws, regulations, tax rules, accounting standards, listing rules, the rules of The Investment Trust Association, Japan, or others. ・ The forecasts assume that no material unforeseeable changes occur with regard to the general economic trends and real estate market conditions.

(2) Investment risks

For details of risks related to repayment of the borrowings, please refer to "Investment Risks" described on a Securities Report (Japanese) submitted on April 26, 2024.

(4) Distribution Information

(Yen)

	For the six-month period ended July 31, 2024	For the six-month period ended January 31, 2024
I. Unappropriated retained earnings	5,320,588,701	4,861,443,214
II. Distributions	4,932,710,000	4,861,046,100
(Distributions per unit)	(5,300)	(5,223)
III. Voluntary retained earnings		
(Provision for reserve for reduction entry)	387,878,701	-
IV. Retained earnings to be carried forward	-	397,114
Method of calculation of distributions	The amount of distribution is limited to the amount of income in accordance with the cash distribution policy stipulated in Article 39 (1) of the Articles of Incorporation of JLF, and shall exceed the amount equivalent to 90% of the distributable dividend amount of JLF provided in Article 67.15 of the Act on Special Measures Concerning Taxation. Based on these policies, JLF decided to distribute 4,932,710,000 yen, the amount remaining after deducting 387,878,701 yen which is within the limit of the reserve for reduction entry stipulated in Article 65-7 of the Act from the current unappropriated retained earnings, as a profit distribution. JLF does not make distributions in excess of earnings as stipulated in Article 39 (2) of the Articles of Incorporation of JLF.	The amount of distribution is limited to the amount of income in accordance with the cash distribution policy stipulated in Article 39 (1) of the Articles of Incorporation of JLF, and shall exceed the amount equivalent to 90% of the distributable dividend amount of JLF provided in Article 67.15 of the Act on Special Measures Concerning Taxation. Based on this policy, JLF decided to distribute 4,861,046,100 yen, which is the maximum integral multiple of the total number of investment units issued and outstanding (930,700 units) within the amount of unappropriated retained earnings. JLF does not make distributions in excess of earnings as stipulated in Article 39 (2) of the Articles of Incorporation of JLF.

(6) Notes on Assumption of Going Concern

Not applicable to the six-month period ended July 31, 2024.

(7) Summary of Significant Accounting Policies

(i) Valuation standard and method for assets

Investment securities

Other Securities

Stocks without market quotations

Valued at cost accounting method based on the moving average method.

(ii) Depreciation method for non-current assets

A. Property, plant, and equipment (including trust assets)

The straight-line method is used.

The useful lives of property, plant and equipment are listed below.

Buildings	2 to 75 years
Structures	2 to 58 years
Tools, furniture, and fixtures	2 to 15 years

B. Intangible assets

The straight-line method is used.

(iii) Accounting for deferred assets

A. Investment corporation bond issuance costs

Investment corporation bond issuance costs are amortized by the straight-line method over the period through redemption.

(iv) Accounting for income and expenses

A. Accounting for property taxes

Concerning fixed property tax, city planning tax, depreciated asset tax, etc. on real estate, etc. owned, of the tax amount levied and determined, the method of accounting for the amount corresponding to the concerned fiscal period as expenses related to real estate leasing business is adopted.

In acquiring real estate or trust beneficiary rights that have real estate as assets in trust, the amount equivalent to fixed property taxes, etc. for the year of acquisition is included in the acquisition cost. The amount equivalent to fixed property tax, etc. included in the cost of acquisition of real estate, etc. is 10,089 thousand yen in the current period and was not applicable in the previous period.

B. Revenue recognition policy

The following is a description of JLF's principal performance obligations with respect to revenue arising from contracts with customers and the normal point in time at which such performance obligations are satisfied (the normal point in time at which revenue is recognized).

(a) Sales of real estate and other assets

Revenue from sales of real estate and other assets is recognized when the customer, the buyer, obtains control of the real estate and other assets by fulfilling delivery obligations stipulated in the contract for the sale of real estate and other assets.

(b) Utility revenues

Utility revenues are recognized based on the electricity, water, and other supplies to the lessee, which is the customer, in accordance with the real estate lease contract and related agreements.

For those utilities revenues for which JLF is determined to be an agent, JLF recognizes revenues at the net amount received as charges for electricity, water, etc. supplied by another party, less the amount paid to such other party.

(v) Hedge accounting method

A. Hedge accounting method

Deferred hedge accounting is applied.

However, specially designated accounting is applied to transactions that meet the requirements for specially designated accounting for interest swaps.

B. Hedging instruments and hedged items

Hedging instruments: Interest rate swap transactions

Hedged items: Interest on borrowings

C. Hedging policy

JLF utilizes derivative transactions to hedge the risks specified in the Articles of Incorporation of the Investment Corporation based on its risk management policy.

D. Method of assessing hedge effectiveness

Hedge effectiveness is assessed by making a comparison between the cumulative total of cash flow fluctuations attributable to hedged items and the cumulative total of cash flow fluctuations attributable to the means of hedging, and examining the ratio of these totals of fluctuations. However, the assessment of effectiveness is not conducted for transactions that meet the requirements for specially designated accounting for interest swaps.

(vi) Scope of cash and cash equivalents in the statement of cash flows

Cash and cash equivalents consist of cash on hand, cash in trust, deposits and deposits in trust withdrawable on demand, and short-term investments, which are easily convertible into cash, with low risk of price fluctuation and with a maturity of less than three months.

(vii) Other significant basis for preparation of financial statements

Accounting for trust beneficiary right for real estate, etc. as trust asset

Regarding trust beneficiary right for real estate, etc. held as trust asset, all assets and liabilities as well as all revenue and expense items associated with trust assets are accounted for under the respective account items of the Balance Sheet and Statement of Income and Retained Earnings.

Of the trust assets accounted for under the respective account items, the following items with significance are separately indicated on the Balance Sheet.

(a) Cash and deposits in trust

(b) Buildings in trust, Structures in trust, Tools, furniture and fixtures in trust, Land in trust and Construction in progress in trust

(c) Tenant leasehold and security deposits in trust

(8) Notes to Financial Statements

[Notes to Balance Sheet]

(i) Commitment line contracts

JLF has the commitment line contracts with the banks.

(Thousands of yen)

	As of July 31, 2024	As of January 31, 2024

Total number of investment units authorized and total number of investment units issued and outstanding

	For the six-month period ended July 31, 2024	For the six-month period ended January 31, 2024
Total number of investment units authorized	10,000,000 units	10,000,000 units
Total number of investment units issued and outstanding	930,700 units	930,700 units

[Notes to Statement of Cash Flows]

Relationship between cash and cash equivalents at end of period and the amount on the balance sheet

(Thousands of yen)

	For the six-month period ended July 31, 2024	For the six-month period ended January 31, 2024
Cash and deposits	10,908,704	10,457,645
Cash and deposits in trust	4,796,143	4,829,072
Long-term deposits received (Note)	-198,827	-197,533
Cash and cash equivalents	15,506,021	15,089,185

(Note) "Long-term deposits received" means the deposits for which the withdrawal is restricted based on the co-ownership agreement for the property in trust.

[Lease Transactions]

Operating lease transactions (as a lessor)

(Thousands of yen)

	For the six-month period ended July 31, 2024	For the six-month period ended January 31, 2024
Future lease payments receivable		
Due within one year	16,751,044	17,001,379
Due after one year	42,671,051	43,409,303
Total	59,422,095	60,410,683

[Financial Instruments]

(i) Matters concerning the status of financial instruments

A. Policies on financial instruments

JLF procures funds mainly by additionally issuing investment units, borrowing funds, or issuing investment corporation bonds for the purpose of securing funds required for acquisition of assets and repair of assets, payments of dividends, and operation of JLF or repayment of debts.

When procuring funds through interest-bearing debt, JLF comprehensively takes into account the conditions in the capital market and the financial environment, the capital structure of JLF and lease terms with tenants, impact on the existing unitholders, and other factors, expects the future changes in economic and social conditions, and selects an effective means of procuring funds in terms of long or short loan periods and fixed or variable interest rates.

JLF uses derivative transactions for the purpose of hedging interest rate fluctuation risk and other risks and does not enter into derivative transactions for speculative or trading purpose.

JLF invests surplus funds in securities and monetary claims with a focus on safety and liquidity, and does not engage into speculative investment.

B. Description of financial instruments and associated risks, and the risk management system

Deposits are one means of investing the surplus funds of JLF and are exposed to credit risk such as the bankruptcy of deposit financial institutions. JLF works to mitigate credit risk by shortening the period of deposits and dealing with deposit financial institutions with high credit ratings.

Borrowings and investment corporation bonds are used primarily for acquisition of assets and repayments of debts, and are exposed to liquidity risk at the time of repayment/redemption. JLF strives to mitigate liquidity risk by diversifying lenders, repayment periods, and means of funds procurement and by securing liquidity on hand by setting commitment lines and manages liquidity risk by preparing cash flow management sheet and other methods.

Variable interest rate borrowings are exposed to the risk of interest rate fluctuations. Derivative transactions are utilized for certain borrowings as hedges by JLF to mitigate this risk. See "(iv) Hedge accounting method" above under "Summary of Significant Accounting Policies" for details about the hedging instruments, hedged items, hedging policy, and method of assessing hedge effectiveness, etc. in hedge accounting.

C. Description of financial instruments

Fair value of financial instruments comprises value based on market prices or rationally calculated value in the case the market prices are not available. As certain assumptions are applied in performing calculations of such value, the value may differ if different assumptions are used. In addition, the contract amount of derivative transactions, which is presented in the following section entitled "Derivatives," is not indicative of the market risk attributable to derivative transactions.

(ii) Matters concerning fair value, etc. of financial instruments

Carrying amount, fair value and their differences as of July 31, 2024 are as follows. Notes to "Cash and bank deposits" and "Cash and bank deposits in trust" are omitted because the fair value approximates the book value due to cash and short-term settlements.

(Thousands of yen)

	Amount on the balance sheet	Fair value	Difference
(1) Current portion of long-term borrowings	6,500,000	6,509,923	9,923
(2) Investment corporation bond	13,700,000	13,527,655	-172,344
(3) Long-term borrowings	99,500,000	99,193,859	-306,140
Total liabilities	119,700,000	119,231,438	-468,561
Derivative transactions *	111,058	111,058	-

* Net amounts are shown for credits and liabilities attributable to derivative transactions, and the total of the items that constitute net liabilities is shown in negative.

Carrying amount, fair value and their differences as of January 31, 2024 are as follows. Notes to "Cash and bank deposits" and "Cash and bank deposits in trust" are omitted because the fair value approximates the book value due to cash and short-term settlements.

(Thousands of yen)

	Amount on the balance sheet	Fair value	Difference
(1) Current portion of long-term borrowings	6,500,000	6,522,103	22,103
(2) Investment corporation bond	13,700,000	13,652,947	-47,052
(3) Long-term borrowings	99,500,000	99,332,284	-167,715
Total liabilities	119,700,000	119,507,335	-192,664
Derivative transactions *	32,189	32,189	-

* Net amounts are shown for credits and liabilities attributable to derivative transactions, and the total of the items that constitute net liabilities is shown in negative.

(Note 1) Matters concerning the method of calculating the market value of financial instruments and derivative transactions.

(1) Current portion of long-term borrowings, (3) Long-term borrowings

The fair value of long-term borrowings with fixed interest rates is calculated by discounting such borrowings at rates that would be applied if new borrowings with the same amount are borrowed under similar terms and conditions. (However, long-term borrowings that are subject to specially designated accounting for interest swaps are calculated by discounting such borrowings at reasonably estimated rates that would be applied if new borrowings with the same amount are borrowed under similar terms and conditions.

(2) Investment corporation bond

When quoted market prices are available, the fair value is determined based on the reference value issued by the Japan Securities Dealers Association.

When quoted market prices are not available, the fair value is determined based on the present value calculated by discounting the total amount of principal and interest using a discount rate that reflects the remaining period and credit risk of the corresponding investment corporation bond.

Derivative transactions

See "Notes to Derivatives" below.

(Note 2) Lease and guarantee deposited and lease and guarantee deposited in trust are omitted due to immateriality.

(Note 3) Carrying amount of stocks without market quotation on the balance sheet

(Thousands of yen)

	As of July 31, 2024	As of January 31, 2024
Investment securities	7,550	7,550

Investment securities

The balance sheet amounts shown above are not subject to disclosure of fair value in accordance with Paragraph 5 of the "Guidance on Disclosures about Fair Value of Financial Instruments" (ASBJ Guidance No. 19, March 31, 2020).

(Note 4) Scheduled repayment amount of long-term borrowings and other interest-bearing debt after the closing date

As of July 31, 2024

(Thousands of yen)

	Within 1 year	1~2 years	2~3 years	3~4 years	4~5 years	After 5 years
Long-term borrowings	6,500,000	11,500,000	15,500,000	17,000,000	15,500,000	40,000,000
Investment corporation bond	-	3,000,000	2,000,000	1,700,000	3,000,000	4,000,000
Total	6,500,000	14,500,000	17,500,000	18,700,000	18,500,000	44,000,000

As of January 31, 2024

(Thousands of yen)

	Within 1 year	1~2 years	2~3 years	3~4 years	4~5 years	After 5 years
Long-term borrowings	6,500,000	12,000,000	14,500,000	17,500,000	16,500,000	39,000,000
Investment corporation bond	-	3,000,000	-	2,000,000	1,700,000	7,000,000
Total	6,500,000	15,000,000	14,500,000	19,500,000	18,200,000	46,000,000

[Notes to Investment Securities]

Not applicable to the six-month period ended July 31, 2024 and the six-month period ended January 31, 2024.

[Notes to Derivatives]

(i) Transactions not applicable to hedge accounting

Not applicable to the six-month period ended July 31, 2024 and the six-month period ended January 31, 2024.

(ii) Transactions applicable to hedge accounting

For the six-month period ended July 31, 2024

The following table shows the contract amount on the closing date for derivative transactions, or the amount corresponding to the principal specified in the contract.

Hedge accounting method	Type of derivative transactions	Primary hedged items	Contract amount (Thousands of yen)		Fair value (Thousands of yen)	Method used to calculate the fair value
				Amount over one year		
Deferred hedge accounting	Interest rate swap transactions Receive variable, pay fixed	Long-term borrowings	11,500,000	11,500,000	111,058	Based on prices and other conditions presented by financial institutions
Special treatment for hedge accounting of interest rate swaps	Interest rate swap transactions Receive variable, pay fixed	Long-term borrowings	3,000,000	2,000,000	*	-

* Because the interest rate swaps accounted for using the special treatment are treated together with the hedged long-term borrowings, their fair value is included in that of the long-term borrowings.

For the six-month period ended January 31, 2024

The following table shows the contract amount on the closing date for derivative transactions, or the amount corresponding to the principal specified in the contract.

Hedge accounting method	Type of derivative transactions	Primary hedged items	Contract amount (Thousands of yen)		Fair value (Thousands of yen)	Method used to calculate the fair value
				Amount over one year		
Deferred hedge accounting	Interest rate swap transactions Receive variable, pay fixed	Long-term borrowings	10,500,000	10,500,000	32,189	Based on prices and other conditions presented by financial institutions
Special treatment for hedge accounting of interest rate swaps	Interest rate swap transactions Receive variable, pay fixed	Long-term borrowings	4,000,000	3,000,000	*	-

* Because the interest rate swaps accounted for using the special treatment are treated together with the hedged long-term borrowings, their fair value is included in that of the long-term borrowings.

[Notes to Retirement Benefits]

Not applicable to the six-month period ended July 31, 2024 and the six-month period ended January 31, 2024.

[Tax Effect Accounting]

(i) Breakdown of major causes of deferred tax assets and deferred tax liabilities

(Thousands of yen)

	As of July 31, 2024	As of January 31, 2024
Deferred tax assets, current		
Enterprise tax not deductible	4	15
Subtotal deferred tax, current	4	15
Total deferred tax assets, current	4	15
Deferred tax assets, net, current	4	15

(ii) Breakdown by major cause of material difference between the effective statutory tax rate and the effective tax rate after applying tax effect accounting

	As of July 31, 2024	As of January 31, 2024
Effective statutory tax rate	31.46%	31.46%
Adjustments		
Deductible cash distributions	-29.16%	-31.45%
Provision for reserve for reduction entry	-2.29%	-
Other	0.01%	0.01%
Effective tax rate after applying tax effect accounting	0.01%	0.02%

[Notes to Equity in Earnings of Affiliates]

Not applicable to the six-month period ended July 31, 2024 and the six-month period ended January 31, 2024, for JLF does not have affiliates.

[Transactions with Related Parties]

(i) Parent company and principal corporate unitholders

Not applicable to the six-month period ended July 31, 2024 and the six-month period ended January 31, 2024.

(ii) Subsidiaries and affiliates

Not applicable to the six-month period ended July 31, 2024 and the six-month period ended January 31, 2024.

(iii) Sister companies

Not applicable to the six-month period ended July 31, 2024 and the six-month period ended January 31, 2024.

(iv) Directors and principal individual unitholders

For the six-month period ended July 31, 2024

Classify-cation	Name of company or individual	Address	Paid-in capital or investment	Business description or occupation	Voting rights holding ratio	Nature of transaction	Transaction amount (Thousands of yen)	Account	Balance at end of period (Thousands of yen)
Director or the close relative	Seiichi Suzuki	-	-	Executive Director of Japan Logistics Fund, Inc. and President & CEO of Mitsui & Co., Logistics Partners Ltd.	-	Payment of asset management fee to Mitsui & Co., Logistics Partners Ltd. (Note 1)	949,906 (Note 2)	Accrued expenses	710,348 (Note 2)

(Note 1) This is a transaction executed by Seiichi Suzuki as President & CEO of a third party (Mitsui & Co., Logistics Partners Ltd.), and the fee is in line with the Articles of Incorporation of JLF.

(Note 2) Of the above amounts, the transaction amount does not include consumption taxes while the balance at the end of the six-month period does.

For the six-month period ended January 31, 2024

Classify-cation	Name of company or individual	Address	Paid-in capital or investment	Business description or occupation	Voting rights holding ratio	Nature of transaction	Transaction amount (Thousands of yen)	Account	Balance at end of period (Thousands of yen)
Director or the close relative	Seiichi Suzuki	-	-	Executive Director of Japan Logistics Fund, Inc. and President & CEO of Mitsui & Co., Logistics Partners Ltd.	-	Payment of asset management fee to Mitsui & Co., Logistics Partners Ltd. (Note 1)	894,610 (Note 2) (Note 3)	Accrued expenses	984,071 (Note 3)

(Note 1) This is a transaction executed by Seiichi Suzuki as President & CEO of a third party (Mitsui & Co., Logistics Partners Ltd.), and the fee is in line with the Articles of Incorporation of JLF.

(Note 2) Naohiro Kameoka resigned as of July 31, 2023. Ryota Sekiguchi, who was elected as a substitute executive director at the general meeting of unitholders held on October 20, 2022, was appointed an executive director as of August 1, and resigned on October 23. Seiichi Suzuki, who was elected as an executive director at the general meeting of unitholders held on October 23, 2023, was newly appointed as an executive director in the same day. The transaction amount includes the period during which Ryota Sekiguchi as an executive director.

(Note 3) Of the above amounts, the transaction amount does not include consumption taxes while the balance at the end of the six-month period does.

[Notes to Asset Write-off Obligations]

Not applicable to the six-month period ended July 31, 2024 and the six-month period ended January 31, 2024.

[Notes to Lease Properties]

JLF holds logistics properties for lease in the Tokyo Metropolitan area and other areas. The amounts on the Balance Sheet changes during the fiscal period, and fair value of lease properties are as follows

(Thousands of yen)

	For the six-month period ended July 31, 2024	For the six-month period ended January 31, 2024
Amount on the balance sheet		
Balance at the beginning of the period	257,497,150	259,019,734
Changes during the period	-275,264	-1,522,584
Balance at the end of the period	257,221,886	257,497,150
Fair value at the end of the period	413,560,000	411,330,000

(Note 1) The amount on the balance sheet is acquisition cost less accumulated depreciation. The amount on the balance sheet does not include the amount of the construction in progress.

(Note 2) The increase of the lease properties in the six-month period ended July 2024 is mainly by the acquisition of Settsu Logistics Center (888,718 thousand yen) and the decrease is mainly by the disposition of Ishikari Logistics Center (1,357,585 thousand yen).

(Note 3) The fair value at the end of the six-month period is the appraisal value provided by outside real estate appraisers. Of the fair value at the end of the period for the six-month period ended July 2024, the planned disposition price is used for Komaki Logistics Center II, for which a transfer agreement was concluded on August 26, 2024. Of the fair value at the end of the period for the six-month period ended January 2024, the disposition price is used for Urayasu Chidori Logistics Center II, for which a transfer agreement was concluded on March 15, 2024.

The income concerning lease properties, etc. for the six-month period ended July 31, 2024 and the six-month period ended January 31, 2024 is indicated under "Notes to Statement of Income and Retained Earnings" above.

[Notes to Revenue Recognition]

(i) Information on the breakdown of revenue from contracts with customers

For the six-month period ended July 31, 2024

(Thousands of yen)

Hedge accounting method	Revenue from contracts with customers (Note1)	Sales to external customers
Sale of real estate, etc.	2,060,000	(Note2) 677,304
Utility revenues	262,652	262,652
Other	-	9,774,599
Total	2,322,652	10,714,555

(Note1) Rental business income and other income subject to ASBJ Statement No. 13 "Accounting Standard for Lease Transactions" is not included in "Revenue from Contracts with Customers" because the revenue recognition accounting standard does not apply to such income. Revenues from contracts with customers mainly include revenues from sales of real estate and utilities.

(Note2) Sales of real estate, etc. are recorded as gains or losses on sales of real estate properties in the statements of income in accordance with Article 48, Paragraph 2 of the Regulations on Accounting of Investment Corporation (Cabinet Office Ordinance No. 47 of 2006), and therefore the amount is the proceeds from sales of real estate properties, less the cost of real estate properties sold and other sales expenses.

(ii) Information that provides a basis for understanding revenue from contracts with customers.

For the six-month period ended July 31, 2024, as described in the Notes to Significant Accounting Policies.

(iii) Information about the relationship between the satisfaction of performance obligations under contracts with customers and cash flows from such contracts, and the amount and timing of revenue expected to be recognized in subsequent periods from contracts with customers that existed at the end of the current period.

A. Outstanding contract assets and liabilities, etc.

(Thousands of yen)

Hedge accounting method	For the six-month period ended July 31, 2024
Receivables arising from contracts with customers (beginning balance)	55,335
Receivables arising from contracts with customers (ending balance)	71,124
Contract assets (beginning balance)	-
Contract assets (ending balance)	-
Contractual liability (beginning balance)	-
Contract liabilities (ending balance)	-

B. Transaction price allocated to remaining performance obligations

Not applicable.

JLF has the right to receive from the customer the amount of consideration that directly corresponds to the value for the customer, as the lessee, for the portion of the performance completed by the end of the fiscal period, and therefore, in accordance with Paragraph 19 of the Implementation Guidance of the Accounting Standard for Revenue Recognition, JLF has recognized revenue at the amount it has the right to claim. Accordingly, the provisions of paragraph 80-22(2) of the Accounting Standard for Revenue Recognition have been applied and the transaction price allocated to the remaining performance obligations has not been included in the notes to the financial statements.

(i) Information on the breakdown of revenue from contracts with customers

For the six-month period ended January 31, 2024

(Thousands of yen)

Hedge accounting method	Revenue from contracts with customers (Note)	Sales to external customers
Sale of real estate, etc.	-	-
Utility revenues	273,019	273,019
Other	—	9,874,617
Total	273,019	10,147,636

(Note) Rental business income and other income subject to ASBJ Statement No. 13 "Accounting Standard for Lease Transactions" is not included in "Revenue from Contracts with Customers" because the revenue recognition accounting standard does not apply to such income. Revenues from contracts with customers mainly include revenues from sales of real estate and utilities.

(ii) Information that provides a basis for understanding revenue from contracts with customers.
For the six-month period ended January 31, 2024, as described in the Notes to Significant Accounting Policies.

(iii) Information about the relationship between the satisfaction of performance obligations under contracts with customers and cash flows from such contracts, and the amount and timing of revenue expected to be recognized in subsequent periods from contracts with customers that existed at the end of the current period.
A. Outstanding contract assets and liabilities, etc.

(Thousands of yen)

Hedge accounting method	For the six-month period ended January 31, 2024
Receivables arising from contracts with customers (beginning balance)	65,724
Receivables arising from contracts with customers (ending balance)	55,335
Contract assets (beginning balance)	-
Contract assets (ending balance)	-
Contractual liability (beginning balance)	-
Contract liabilities (ending balance)	-

B. Transaction price allocated to remaining performance obligations
Not applicable.
JLF has the right to receive from the customer the amount of consideration that directly corresponds to the value for the customer, as the lessee, for the portion of the performance completed by the end of the fiscal period, and therefore, in accordance with Paragraph 19 of the Implementation Guidance of the Accounting Standard for Revenue Recognition, JLF has recognized revenue at the amount it has the right to claim. Accordingly, the provisions of paragraph 80-22(2) of the Accounting Standard for Revenue Recognition have been applied and the transaction price allocated to the remaining performance obligations has not been included in the notes to the financial statements.

[Segment Information]
(i) Segment information
Description is omitted as JLF engages in a single segment of the real estate leasing business.
(ii) Related information
For the six-month period ended July 31, 2024
A. Information by product and service
Description is omitted as net sales for external customers in a single product/service category exceed 90% of the operating revenue on Statement of Income and Retained Earnings.
B. Information by region
(a) Net sales
Description is omitted as net sales for external customers in Japan exceed 90% of the operating revenue on the Statement of Income and Retained Earnings.
(b) Property, plant, and equipment
Description is omitted as the amount of property, plant, and equipment located in Japan exceeds 90% of the property, plant, and equipment on the Balance Sheet.
C. Information by major tenant
Description is omitted as net sales for all single external customers are less than 10% of the operating revenue on the Statement of Income and Retained Earnings.

For the six-month period ended January 31, 2024
A. Information by product and service
Description is omitted as net sales for external customers in a single product/service category exceed 90% of the operating revenue on Statement of Income and Retained Earnings.
B. Information by region
(a) Net sales
Description is omitted as net sales for external customers in Japan exceed 90% of the operating revenue on the Statement of Income and Retained Earnings.
(b) Property, plant, and equipment
Description is omitted as the amount of property, plant, and equipment located in Japan exceeds 90% of the property, plant, and equipment on the Balance Sheet.
C. Information by major tenant
Description is omitted as net sales for all single external customers are less than 10% of the operating revenue on the Statement of

Income and Retained Earnings.

[Per Unit Information]

	For the six-month period ended July 31, 2024	For the six-month period ended January 31, 2024
Net assets per unit	153,582yen	153,004yen
Profit per unit	5,716yen	5,209yen

(Note 1) Profit per unit was calculated by dividing profit by average number of investment units during period.
Diluted profit per unit is not stated as there are no dilutive investment units.

(Note 2) The calculation of profit per unit is based on the following.

(Thousands of yen)

	For the six-month period ended July 31, 2024	For the six-month period ended January 31, 2024
Profit	5,320,191	4,861,186
Amount not attributable to common unitholders	-	-
Profit pertaining to common investment units	5,320,191	4,861,186
Average number of investment units during period	930,700 units	933,183 units

[Notes to Significant Subsequent Events]

<Asset disposition>

JLF has decided the disposition of the following asset on August 26, 2024.

[T-6 Komaki Logistics Center II]

Asset disposed	Real estate
Planned disposition price	2,250 million yen
Date of contracts	August 26, 2024
Planned date of delivery	October 1, 2024
Buyer	CREAL Inc.
Effect on profit and loss	In the six-month period ending January 31, 2025 (August 1, 2024 to January 31, 2025), JLF plans to record a gain on sales of real estate in the amount of 605 million yen, of which 234 million yen will be reserved in the reserve for reduction entry.

< Investment Units Buybacks and Cancellation Program >

JLF announces that its Board of Directors has resolved the investment units buybacks program based on Article 80-2 of the Act on Investment Trusts and Investment Corporations applied pursuant to Article 80-5, Paragraph 2 of the Investment Trusts Act. JLF's Board of Directors has resolved to cancel the total number of all investment units acquired through the Buybacks on January 31, 2025 (August 1, 2024 to January 31, 2025) after the completion of the Buybacks.

1. Reasons for the Investment Unit Buyback Program

JLF believes that acquiring its own investment units and cancelling these treasury units at a unit price level where the implied cap rate is high is useful from the standpoint of investment efficiency. In addition, the acquisition and cancellation of the proprietary investment units will reduce the total number of investment units issued and outstanding, thereby increasing distribution per unit. JLF has decided the Buybacks and the Cancellation investment units since it believes that these effects will improve JLF's cost of capital and increase unitholder value over the medium to long term.

2. Details of Matters concerning the Buyback Program

Planned total number of investment units for this buyback program : Up to 22,800 units

Planned total amount of investment units for this buyback program : Up to 6.0 billion yen

Buyback period : From September 12, 2024 to December 30, 2024

Method of the buybacks : JLF plans to enter into a purchase contract with a broker and let the broker purchase from the market, Tokyo Stock Exchange.

3. Details of Matters concerning the Cancellation Program

Total number of investment units to be cancelled : Total number of all investment units acquired through the Buybacks

Scheduled cancellation date : January 31, 2025

(9) Changes in the total number of investment units issued and outstanding

Investment Units Issued and Outstanding and Changes of the Unitholders' capital are as follows.

Date	Summary	Total number of investment units issued		Unitholders' capital (Millions of yen)		Remarks
		Change	Balance	Change	Balance	
February 22, 2005	Private placement offering	1,000	1,000	500	500	(Note 1)
May 6, 2005	Capital increase through public offering	55,700	56,700	29,562	30,062	(Note 2)
June 1, 2005	Capital increase through third-party allotment	2,800	59,500	1,486	31,548	(Note 3)
February 8, 2006	Capital increase through public offering	46,500	106,000	35,668	67,217	(Note 4)
March 8, 2006	Capital increase through third-party allotment	2,800	108,800	2,147	69,365	(Note 5)
August 31, 2007	Capital increase through public offering	13,500	122,300	12,656	82,021	(Note 6)
February 23, 2010	Capital increase through public offering	8,500	130,800	5,123	87,145	(Note 7)
March 25, 2010	Capital increase through third-party allotment	500	131,300	301	87,446	(Note 8)

(Note 1) Upon establishment of JLF, investment units were issued at the price of 500,000 yen per unit.

(Note 2) Investment units were newly issued at the price of 550,000 yen per unit (net proceeds of 530,750 yen) for new properties acquisition.

(Note 3) Investment units were newly issued through third-party allotment at the price of 530,750 yen per unit for new properties acquisition.

(Note 4) Investment units were newly issued at the price of 793,800 yen per unit (net proceeds of 767,070 yen) for new properties acquisition.

(Note 5) Investment units were newly issued through third-party allotment at the price of 767,070 yen per unit for new properties acquisition.

(Note 6) Investment units were newly issued at the price of 971,180 yen per unit (net proceeds of 937,486 yen) for new properties acquisition.

(Note 7) Investment units were newly issued at the price of 624,680 yen per unit (net proceeds of 602,784 yen) for a new property acquisition.

(Note 8) Investment units were newly issued through third-party allotment at the price of 602,784 yen per unit for partial repayment of bank borrowings.

(Note 9) Investment units were newly issued at the price of 627,590 yen per unit (net proceeds of 605,592 yen) for a new property acquisition.

(Note 10) Investment units were newly issued through third-party allotment at the price of 605,592 yen per unit for partial repayment of bank borrowings.

(Note 11) Distribution in Excess of Earnings was resolved at the price of 3,138 yen per unit in order to level out the loss associated with OBR.

(Note 12) Investment units were newly issued at the price of 947,700 yen per unit (net proceeds of 914,652 yen) for new properties acquisition and partial repayment of bank borrowings.

(Note 13) Investment units were newly issued through third-party allotment at the price of 914,652 yen per unit for partial repayment of bank borrowings.

(Note 14) JLF has implemented a 5 – for – 1 investment unit split.

(Note 15) Investment units were newly issued at the price of 191,782 yen per unit (net proceeds of 185,290 yen) for partial new properties acquisition and repayment of borrowings with respect to the acquisition of new properties.

(Note 16) Investment units were newly issued through third-party allotment at the price of 185,290 yen per unit for financing future acquisition of specified assets, partial repayment of the borrowings or partial redemption of the investment corporation bond.

(Note 17) Investment units were newly issued at the price of 206,017 yen per unit (net proceeds of 199,044 yen) for partial repayment of borrowings with respect to the acquisition of new properties and making up the decline in cash on hand used for the acquisitions.

(Note 18) Investment units were newly issued through third-party allotment at the price of 199,044 yen per unit for financing future acquisition of specified assets and repayment of the borrowings.

(Note 19) Investment units were repurchased through open-market transactions on the Tokyo Stock Exchange from March 14, 2018 to May 31, 2018 based on a discretionary transaction contract with a securities broker. All the acquired investment units were cancelled on July 13, 2018 based on a resolution at a meeting of the Board of Directors of JLF held on June 27, 2018.

(Note 20) Investment units were repurchased through open-market transactions on the Tokyo Stock Exchange from September 13, 2018 to October 31, 2018 based on a discretionary transaction contract with a securities broker. All the acquired investment units were cancelled on January 11, 2019 based on a resolution at a meeting of the Board of Directors of JLF held on November 28, 2018.

(Note 21) Investment units were newly issued at the price of 297,430 yen per unit (net proceeds of 287,414 yen) for a portion of the acquisition and the construction costs associated with the redevelopment. Additionally, they made up the decline in cash on hand used for the acquisition.

(Note 22) Investment units were repurchased through open-market transactions on the Tokyo Stock Exchange from November 24, 2023 to January 12, 2024 based on a purchase contract with a securities broker. All the acquired investment units were cancelled on January 31, 2024 based on a resolution at a meeting of the Board of Directors of JLF held on November 22, 2023.

3. Reference Information

(1) Asset composition of JLF

Type of assets	Use of assets	Region (Note 2)	As of July 31, 2024		As of January 31, 2024	
			Total amount owned (Millions of yen) (Note 3)	Percentage to total assets (%) (Note 4)	Total amount owned (Millions of yen) (Note 3)	Percentage to total assets (%) (Note 4)
Real estate	Logistics facility	Tokyo Metropolitan Area	9,366	3.4	10,786	3.9
		Osaka Area, Nagoya Area and Fukuoka Area	17,756	6.5	17,012	6.2
		Other Areas	1,490	0.5	1,501	0.5
	Subtotal		28,613	10.4	29,300	10.7
Real estate in trust	Logistics facility	Tokyo Metropolitan Area	209,315	76.4	210,217	76.8
		Osaka Area, Nagoya Area and Fukuoka Area	17,046	6.2	17,077	6.2
		Other Areas	2,247	0.8	901	0.3
	Subtotal		228,608	83.5	228,196	83.4
Deposits and other assets (Note 5)			16,611	6.1	16,183	5.9
Total assets			273,833	100.0	273,680	100.0

(Note 1) Descriptions under "3. Reference Information" are effective as of July 31, 2024, as a general rule, unless otherwise indicated.
(Note 2) For region, please refer to "Area classification" below.
(Note 3) The total amount owned is based on the figures posted on the Balance Sheets as of the end of the fiscal period (real estate and real estate in trust are presented in book values after depreciation), and figures below one million yen have been omitted.
(Note 4) Figures are rounded off to the first decimal place.
(Note 5) Deposits and other assets include; deposit in trust assets of 4,796 million yen for the six-month period ended July 31, 2024 and of 4,829 million yen for the six-month period ended January 31, 2024.

<Area classification>

Area classification	Region
Tokyo Metropolitan Area	Tokyo, Kanagawa, Chiba and Saitama
Osaka Area	Osaka, Hyogo and Kyoto
Nagoya Area	Aichi, Gifu and Mie
Fukuoka Area	Fukuoka and Saga
Other Areas	Other than above

	As of July 31, 2024		As of January 31, 2024	
	Amount (Millions of yen) (Note 1)	Percentage to total assets (%) (Note 2)	Amount (Millions of yen) (Note 1)	Percentage to total assets (%) (Note 2)
Total liabilities	130,894	47.8	131,279	48.0
Total net assets	142,939	52.2	142,401	52.0
Total assets	273,833	100.0	273,680	100.0

(Note 1) Figures below one million yen are omitted.
(Note 2) Figures are rounded off to the first decimal place.

(2) Investment Securities

(i) Major investment securities

A. Stocks

Name of stock	Number of shares	Acquisition price (Thousands of yen)		Fair value (Thousands of yen) (Note 2)		Unrealized gain/loss (Thousands of yen)	Remarks
		Per share	Total	Per share	Total		
Kuki Shobu Industrial Park Management Center (Note 1)	7,550	1	7,550	1	7,550	-	-

(Note 1) In connection with the acquisition of the Kuki Logistics Center, JLF acquired shares in accordance with the share handling rules of the industrial park management company in which the property is located, in proportion to the land holding area.

(Note 2) As the shares are unlisted, the book value is shown.

B. Securities other than stocks

Not applicable

(ii) List of portfolio properties

JLF owns the following real estate, etc.

A. The outline of portfolio properties (Acquisition price, etc.)

Property Number	Name of the Logistics Center	Type of Ownership	Acquisition price (Millions of yen) (Note 2)	Book value (Millions of yen) (Note 2)	Appraisal value at end of period (Millions of yen) (Note 3)	% of the portfolio (Note 4)
M-2	Urayasu	Trust beneficiary right of real estate	8,745 (Note 5)	8,830	17,400	3.0

(Properties to be acquired, etc.)

Property Number	Name of the properties	Type of Ownership	Acquisition price (Millions of yen) (Note 2)	Book value (Millions of yen) (Note 2)	Appraisal value at end of period (Millions of yen) (Note 3)	% of the portfolio (Note 4)
T-14	Amagasaki (Note 14)	Trust beneficiary right of real estate	TBD (Note 15)	-	4,980 (Note 16)	-

(Note 1) Listed properties are primarily used as logistics facilities.

(Note 2) Acquisition price and book value are rounded down to the nearest million yen. The book value does not include the construction in progress.

(Note 3) Appraisal value , as a general rule, at end of period indicates appraisal value calculated based on the balance sheet date defined by Tanizawa Sōgō Appraisal Co., Ltd., Daiwa Real Estate Appraisal Co., Ltd. Japan Real Estate Institute, CBRE, Inc., JLL

Morii Valuation & Advisory K.K. and Japan Valuers Co., Ltd. as the date of value estimate in accordance with the asset evaluation methods and standards specified under the Articles of Incorporation of JLF as well as the rules set forth by the Investment Trusts Association, Japan.

(Note 4) % of the portfolio represents the ratio of the acquisition price of each piece of real estate, etc. to the total acquisition price of real estate, etc. owned by JLF, and is indicated by rounding off to the first decimal place.

(Note 5) The amount is calculated by subtracting 432 million yen, the amount equivalent to the building that was demolished in December 2020, from the acquisition price of 2,902 million yen stated in the original purchase agreement, adding 6,275 million yen, the construction price for the redevelopment of the building.

(Note 6) The amount is calculated by subtracting 603 million yen, the amount equivalent to the building that was demolished in July 2013, from the acquisition price of 2,266 million yen stated in the original purchase agreement, and adding 6,230 million yen, the construction price for the redevelopment of the building.

(Note 7) Figures for co-ownership are indicated.
Shinonome Logistics Center: 47%
Narashino Logistics Center II: 90%
Ichikawa Logistics Center II: 90%
Shin-Koyasu Logistics Center: 51%
Kuki Logistics Center: 44.5%
Ishikari Logistics Center: 55%

(Note 8) The figure is the sum of the acquisition prices on March 27, 2012 and February 6, 2017.

(Note 9) The figure is the sum of the acquisition prices on September 20, 2013 and March 1, 2018.

(Note 10) The amount is calculated by subtracting 291 million yen, the amount equivalent to the building that was demolished in July 2009, from the acquisition price of 7,617 million yen stated in the original purchase agreement, and adding 2,437 million yen, the construction price of the redeveloped Warehouse III.

(Note 11) The amount is the sum of the acquisition price of 685 million yen stated in the original purchase agreement and the construction price of 2,325 million yen for the redevelopment of the building.

(Note 12) The amount is calculated by adding the acquisition price of 2,670 million yen for the building newly constructed through the redevelopment project to the acquisition price of 830 million yen stated in the original purchase agreement.

(Note 13) The figure is the sum of the acquisition prices on October 2, 2017 and November 31, 2019.

(Note 14) The purchase contract for Amagasaki Logistics Center falls under forward commitments, etc. as defined in the "Comprehensive Supervisory Guidelines for Financial Instruments Business Operators, etc." established by the Financial Services Agency.

(Note 15) The trust beneficiary right purchase agreement to be executed between RICOH LEASING COMPANY, LTD. (hereinafter referred to as "RL") and JLF in relation to the acquisition of Amagasaki Logistics Center shall make the following stipulations in the event the planned date of delivery falls under any of the following scenarios (1), (2), or (3).
(1) Day before any date that would fall within the first year from the date that RL acquired the trust beneficiary rights associated with the property. As of the publication of this document, that would be April 3, 2023, through April 2, 2024.
JPY 4,384 million
However, a price shall be calculated and decided that achieves a predetermined IRR for the period of time RL owns the property.
(2) Day before any date that would fall within the second year from the date that RL acquired the trust beneficiary rights associated with the property. As of the publication of this document, that would be April 3, 2024, through April 2, 2025.
JPY 4,302 million
However, a price shall be calculated and decided that achieves a predetermined IRR for the period of time RL owns the property.
(3) Day before any date that would fall within the third year from the date that RL acquired the trust beneficiary rights associated with the property. As of the publication of this document, that would be April 3, 2025, through April 2, 2026.
JPY 4,222 million
However, a price shall be calculated and decided that achieves a predetermined IRR for the period of time RL owns the property.

(Note 16) Appraisal value as of July 31, 2024 by Japan Valuers Co., Ltd. is indicated.

B. The outline of portfolio properties (The status of leasing of real estate properties, etc.)

Property Number	Name of the Logistics Center	Total leasable area (m^2) (Note 1)	Leased area (m^2) (Note 2)	Total number of tenants	Occupancy rate (%)	PML value (%) (Note 3)

Portfolio total		1,391,854.63	1,391,854.63	73	100.0	1.5

(Note 1) The total leasable area is calculated based on the leased area for the building described in the lease agreement (includes short-term leases for use prior to the effective date of the lease agreement) for each property. The same applies to the information

provided in "3. Reference Information" here.

(Note 2) The leased area is the sum of the leased floor area of the building as stated in the lease agreement (includes short-term leases for use prior to the effective date of the lease agreement) for each property. The same applies to the information provided in "3. Reference Information" here.

(Note 3) As for the PML (Probable Maximum Loss) figures, Tokio Marine dR Co., Ltd. has prepared an earthquake risk research report with regard to portfolio properties owned by JLF. Such report, however, does not guarantee the contents provided and simply reflects the opinion of the research institution. PML is the projected loss ratio in an earthquake. While no consistent, clear definition of PML is available, it is the ratio of projected loss amount against building replacement cost for which the loss value and the probability rate against large and small earthquakes that could possibly occur in a period of 475 years were computed and statistically applied. The calculations are performed based on onsite research on each respective property, assessment of building status, checking consistency with the floor plan, ground conditions at each site, regional factors, and structural conditions. Loss herein refers to physical damage only, and does not take into consideration secondary damage to people's lives and other facilities in the vicinity. Damage factors include structural damage and internal and external physical damage, and do not consider fire on site caused by an earthquake or fire spreading from another facility.

(Note 4) Figures for co-ownership are indicated.
Shinonome Logistics Center: 47%
Narashino Logistics Center II: 90%
Ichikawa Logistics Center II: 90%
Shin-Koyasu Logistics Center: 51%
Kuki Logistics Center: 44.5%
Ishikari Logistics Center: 55%

(Note 5) For Ishikari Logistics Center, there are multiple buildings. PML values of each building are as follows.
Building No. 2. PML value: 1.4%.
Building No. 7. PML value: 1.5%.
Building No. 10. PML value: 1.9%

(iii) Diversification of portfolio

Diversification of portfolio properties owned by JLF is described below.

A. Ratio by region

Region	Total leasable area (m^2)	Ratio (%) (Note)	Acquisition price (Millions of yen)	Ratio (%) (Note)
Tokyo Metropolitan Area	1,086,755.61	78.1	248,644	85.4
Osaka Area, Nagoya Area and Fukuoka Area	277,018.68	19.9	38,337	13.2
Other Areas	28,080.34	2.0	4,141	1.4
Total	1,391,854.63	100.0	291,123	100.0

(Note) Figures are rounded off to the first decimal place.

B. Ratio by total rentable area (Note 1)

Total rentable area (m^2)	Number of properties	Ratio (%) (Note 2)	Acquisition price (Millions of yen)	Ratio (%) (Note 2)
Over 30,000 m^2	19	35.8	195,108	67.0
Over 10,000 m^2 but 30,000 m^2 or less	23	43.4	76,940	26.4
10,000 m^2 or less	11	20.8	19,074	6.6
Total	53	100.0	291,123	100.0

(Note 1) Properties are classified based on total rentable area (100% of total leasable area with respect to co-owned properties) and their portfolio proportions are indicated.

(Note 2) Figures are rounded off to the first decimal place.

C. Ratio by leasehold period

Leasehold period (Residual period)	Leased area (m^2)	Ratio (%) (Note 1)	Annual rent (Millions of Yen) (Note 2)	Ratio (%) (Note 1)
Over 10 years	91,571.74	6.6	1,480	8.0
Over 5 years but within 10 years	277,113.81	19.9	2,926	15.8
Over 3 years but within 5 years	282,083.36	20.3	3,817	20.6
Within 3 years	741,085.72	53.2	10,329	55.7
Total	1,391,854.63	100.0	18,553	100.0

(Note 1) Figures are rounded off to the first decimal place.
(Note 2) Annual rent represents either annual rent or monthly rent times 12 in the lease contract (includes short-term leases for use prior to the effective date of the lease agreement). If the property has multiple tenants, the number is the sum of the all contracts. The Lease contract includes short-term leases for use prior to the effective date of the lease agreement.

(iv) Performance of portfolio properties

The following provides a summary of performance for the six-month period ended July 31, 2024 of real estate, etc. owned by JLF.

The "performance data" for each piece of real estate, etc. provide the following.

- The amounts indicated under "Performance data" are not intended to provide or guarantee future values.
- Amounts are presented with figures below one million yen omitted, and are posted on an accrual basis in principle.
- "Real estate leasing business revenue" includes rent, common area maintenance fees, and income from parking charges, utilities expenses, and other.
- "Taxes and public dues" includes property tax and city planning tax. As a general rule, the obligation to pay property tax and city planning tax comes into effect on January 1 of each year. Such tax payments, however, are not posted as real estate leasing business expenses, as JLF, when settling property and city planning taxes incurred at the time of property acquisition, includes the amount settled as part of the acquisition cost.
- "Repair expenses" may vary when JLF holds properties for a long period of time as such expenses differ from period to period, and, by nature, do not arise on a regular basis.
- "Insurance expenses" posted represents the portion of casualty insurance corresponding to the respective period.
- "Other expenses" includes trust fees.

(3) Capital expenditure for assets under management

(i) Scheduled capital expenditure

Major scheduled capital expenditures associated with the planned repair work for real estate, etc. owned by JLF are listed below. The following scheduled expenditures include those accounted for as expenses.

Name of real estate, etc. (Location)	Purpose	Scheduled period	Estimated construction cost (Millions of yen) (Note)		
			Total amount	Payment for the period	Total amount paid
Musashi Murayama Logistics Center (Musashimurayama, Tokyo)	Fire prevention compartment formation work	From April 2024 to March 2026	758	73	83
Chiba Kita Logistics Center (Chiba, Chiba)	Freight elevator renewal work	July 2025	44		
Urayasu Chidori Logistics Center Ⅲ (Urayasu, Chiba)	Power transforming equipment renewal work	April 2025	20		
Hanyu Logistics Center (Hanyu, Saitama)	Raw water pump tank expansion	December 2024	15	-	-
Daito Logistics Center (Daito, Osaka)	Outer wall waterproofing on south and east facades of warehouse II	January 2025	59	-	-
Daito Logistics Center (Daito, Osaka)	Air conditioner renewal work of office II	January 2025	71	-	-
Kadoma Logistics Center (Kadoma, Osaka)	Freight elevator renewal work	December 2025	87	-	-
Takatsuki Logistics Center (Takatsuki, Osaka)	Outer wall repair work on east and south facades	January 2025	20	-	-
Maebashi Logistics Center (Maebashi, Gunma)	Restrooms renewal work of office building	June 2025	12	-	-

(Note) Figures are rounded down to the nearest million yen.

(ii) Capital expenditure during the six-month period

The following provides a summary of major construction work applicable to capital expenditure performed during the six-month period in connection with the real estate, etc. owned by JLF.
