September 14, 2020

ACOM Renovated Its Official Smartphone Application

ACOM CO., LTD. is proud to announce renovation of its official smartphone application to enhance user-friendliness.

Our new official smartphone application “myac” enables easy login by biometrics authentication and quick confirmation of account status to existing customers. In addition, new customers are now capable to easily complete all contract procedures on smartphone.

ACOM will continue to enhance customer reception quality and digitalization for better customer experience.

1. Date of Renovation
   September 14, 2020

2. With the application, you can:

- Login easily by biometrics authentication
- Check your account status at a glance (Visual display using graphs)
- Choose to receive our reminder notice
- Make repayment without using cards (This service is scheduled to start on September 23)
- Submit documents for contract and other procedures
- Complete identity confirmation on smartphone

* Please find the details of application at https://www.acom.co.jp/app (available only in Japanese)
