JAFCO SV6 Fundraising

This is to inform you of the fundraising status of JAFCO SV6 Fund Series (SV6) since our last update on October 24, 2019.

As a result of additional fundraising in December 2019, the total fund size of SV6 reached its cap of ¥80 billion. As of January 20, 2020, a total of ¥48.1 billion was committed from external investors and ¥31.9 billion from JAFCO. A total of 70 financial institutions and business firms, mainly investors of existing funds, have invested in SV6, and the average amount committed per investor increased significantly to about ¥700 million from about ¥300 million for SV5.

While maintaining the total fund size of ¥80 billion, we will continue fundraising until total capital committed from external investors reaches ¥50 billion through transfer of our existing interests.

SV6 is JAFCO's first fund since introducing the partnership model business structure. It is the first fund in the JAFCO's history in which not only JAFCO, but also its Partners as general partners of the fund, and employees invest their own capital.

Reflecting the needs of investors, SV6 will limit its investment targets to domestic venture companies and domestic buyout deals. Whereas JAFCO's flagship funds up to SV5 allocated about 30% of total commitments to JAFCO Group's overseas funds, SV6 will invest its entire fund size of ¥80 billion in domestic companies, which is about ¥30 billion more than SV5. While continuing to pursue the highly selective, intensive investment strategy, JAFCO will aim to flexibly capture diversifying and upsizing investment opportunities and achieve high fund performance.

[SV6 Fund composition] As of January 20, 2020; fundraising underway

Total commitments: ¥80 billion (¥48.1 billion from external investors; ¥31.9 billion from JAFCO)
