# INNOTECH CORPORATION Revises Earnings Forecast

In the meeting of the board of directors on November 9, 2015, the financial forecast made on May 12, 2015 for the full fiscal year ending March 31, 2016 was amended as below reflecting the latest financial results.

1. Fiscal year ending March 31, 2016 (April 1, 2015 to March 31, 2016)

| Revised Forecast (B) | 30,000 | 950 | 1,050 | 700 | 39.85 |
| Change (B-A) | - | 150 | 150 | 150 | - |

| [Reference] Last year results (March 31, 2015) | 26,483 | 722 | 938 | 553 | 31.49 |

2. Reason for Revision

The results of Tester Business and Verification Tools have been stable for the interim period. Based on that, we have revised up full-year forecast for operating income, ordinary income, and profit attributable to owners of parent.

On the other hand, narrowing down the product portfolio is estimated in the Devices Business. Therefore we maintain unchanged full-year forecast for net sales.
