The Company has changed its fiscal year end from March 31 to December 31 in the fiscal year 2014. The same change has been made to consolidated subsidiaries with fiscal year ends other than December 31. Consequently, year-on-year changes for nine months ended September 30, 2015 are not presented.

The Group has classified "Beverage Business" as discontinued operations from the previous fiscal year. As a result, profit (loss) from discontinued operations is presented separately from those from continuing operations on the condensed interim consolidated financial statements for nine months ended September 30, 2015. Consequently, only the continuing operations are indicated in the revenue, operating profit and profit before income taxes stated in the above table for nine months ended September 30, 2015.
The year-on-year changes stated in the above table for profit for the period and profit attributable to owners of the parent company for the nine months ended September 30, 2016 are based on comparison of profit for the period and profit attributable to owners of the parent company in the same period of the fiscal year 2015, which include discontinued operations. The aforementioned profits do, however, include gains from the transfer of shares of subsidiaries conducting the vending machine operation business.
Profit for the period and profit attributable to owners of the parent company from continuing operations in the same period of the fiscal year 2015 are ¥320,263 million and ¥317,064 million, respectively. When performing comparison based on these amounts, the year-on-year changes for the nine months ended September 30, 2016 are 10.3% and 10.4%, respectively.

(5) Segment information

a. Outline of reportable segments

The reportable segments of the Group are determined based on the operating segments that are components of the Group for which separate financial information is available and are evaluated regularly by the Board of Directors in deciding how to allocate resources and in assessing performance.

The Group is mainly engaged in the manufacture and sale of tobacco products, prescription drugs and processed foods. With respect to tobacco products, operations are managed separately for domestic and overseas markets. The reportable segments of the Group are composed of four segments: “Domestic Tobacco Business,” “International Tobacco Business,” “Pharmaceutical Business,” and “Processed Food Business.” They are determined by types of products, characteristics, and markets.

The “Domestic Tobacco Business” manufactures and sells tobacco products in domestic areas (which include duty-free shops in Japan and markets in China, Hong Kong, and Macau where the Company’s China Division operates). The “International Tobacco Business” manufactures and sells tobacco products overseas mainly through JT International S.A., which controls manufacturing and sales operations. The “Pharmaceutical Business” consists of research and development, and the manufacture and sale of prescription drugs. The “Processed Food Business” consists of the manufacture and sale of frozen and ambient processed foods, bakery products and seasonings.

b. Revenues and performances of reportable segments

Revenues and performances of reportable segments from continuing operations are as follows. The Board of Directors assesses the segment performance and determines resource allocation after reviewing revenues and adjusted operating profit. Since financial income, financial costs and income taxes are managed by the Group head office, these income and expenses are excluded from segment performance. Transactions within the segments are based mainly on prevailing market prices.
