Procrea Holdings, Inc. (the "Company") hereby announces the differences between the consolidated financial results forecasts for the six months ended September 30, 2026, announced on May 15, 2026, and the actual results released today. The details are provided below.

1. Differences between the financial results forecasts for the six months ended September 30, 2026, and actual results
(From April 1, 2026 to September 30, 2026)

(Millions of yen, unless otherwise noted)

	Ordinary income	Ordinary profit	Profit attributable to owners of parent	Profit per share (Yen)
Previously announced forecasts (A)	—	5,200	2,900	102.41
Actual results (B)	51,204	5,203	4,156	146.75
Change (B-A)	—	3	1,256

(Reference) Actual results for the six months ended September 30, 2025	43,183	4,572	3,234	113.93

2. Reasons for the differences between the forecasts and actual results

Ordinary income for the six months ended September 30, 2026, rose by more than 10% year-on-year mainly due to an increase in interest income such as interest on loans and discounts. Profit attributable to owners of parent also exceeded the initial forecast as a result of decline in tax expenses and other factors.
