NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Notes to Going Concern Assumption
Not applicable

Notes to Significant Fundamental Matters in Preparing the Consolidated Financial Statements

1. Scope of Consolidation
(1) Number of consolidated majority-owned subsidiaries and other subsidiaries: 33

(2) Names of principal consolidated subsidiaries:
Ishikawa Sanken Co., Ltd., Yamagata Sanken Co., Ltd., Kashima Sanken Co., Ltd., Fukushima Sanken Co., Ltd., Sanken Optoproducts Co., Ltd., Sanken Densetsu Co., Ltd., Sanken North America, Inc., Allegro MicroSystems, LLC, Polar Semiconductor, LLC, Korea Sanken Co., Ltd. Sanken Power Systems (UK) Limited, P.T. Sanken Indonesia, Sanken Electric Singapore Pte. Ltd., Sanken L.D. Electric (Jiang Yin) Co., Ltd., Sanken Electric Hong Kong Co., Ltd., Sanken Electric Korea Co., Ltd., Taiwan Sanken Electric Co., Ltd., Sanken Electric (Shanghai) Co., Ltd., Sanken Electric (Malaysia) Sdn. Bhd., Dalian Sanken Electric Co., Ltd., etc.

2. Application of equity method
Not applicable

3. Fiscal term of consolidated majority-owned subsidiaries
The fiscal year ends on December 31 for the following consolidated subsidiaries:
Sanken L. D. Electric (Jiangyin) Co., Ltd.
Sanken Electric (Shanghai) Co., Ltd.
Dalian Sanken Electric Co., Ltd.
Dalian Sanken Trade Co., Ltd.
Allegro (Shanghai) Micro Electronics Commercial & Trading Co., Ltd
The financial statements of each company were prepared based on provisionary account settlement as of the consolidated fiscal year end.

4. Matters relating to Accounting Policies
(1) Standards and methods of valuing the significant assets
(i) Securities
Other securities
Securities with market value
Market value method based on the market price as of the end of the consolidated fiscal term. (Differences in valuation are included directly in net assets and costs of sold securities are calculated using the moving-average method.)
Securities without market value
Stated at cost using the moving-average method

(ii) Derivative transactions
Market value method

(iii) Inventories
Inventory held for the purpose of ordinary sales
Stated mainly at cost using the moving-average method
(The carrying amounts in the accompanying consolidated balance sheets are stated after reducing the book value according to the decreased profitability.)

(2) Depreciation methods for significant depreciable assets
(i) Tangible fixed assets (excluding lease assets)
Mainly adopts the straight-line method.
Useful lives of main asset are as follows:

Buildings and structures	8 to 60 years
Machinery and transportation equipment	3 to 12 years

(ii) Intangible assets (excluding lease assets)

Straight-line method
As for software (for in-house use), the straight-line method is used with a useful life of 5 or 10 years.

(iii) Lease assets
Lease assets arising from finance lease transactions in which ownerships is transferred
Depreciation shall be computed mainly by the same method applicable to the Company's fixed assets.
Lease assets arising from finance lease transactions in which ownership is not transferred
Depreciation shall be computed by the straight-line method based on the assumptions that the useful life equals the lease term and the residual value equals zero.

(3) Standards of accounting for significant allowances and accruals
(i) Allowance for doubtful receivables
Estimated uncollectible amounts are calculated using historical data for trade receivables and individually considering the probability of collection for doubtful receivables.

(ii) Accrued retirement benefits for directors and statutory auditors
Accrued retirement benefits for directors and statutory auditors at the end of fiscal term are calculated based on the internal rules of some consolidated majority-owned domestic subsidiaries.

(4) Other significant matters for the preparation of the consolidated financial statements
(i) Accounting method for deferred assets
Bond issuance cost is expensed as incurred.

(ii) Accounting method for retirement benefits
Method for attributing retirement benefit estimates to periods
When calculating retirement benefit obligations, the benefit formula basis serves as the main basis for attributing the retirement benefit estimates to the periods of up to the end of the current consolidated fiscal year.
Method for allocating net unrecognized actuarial gain or loss and past service cost
Net unrecognized actuarial gain or loss is amortized in the year following the year in which the gain or loss is recognized primarily by the declining-balance method over various periods (10 years through 18 years).
Prior service cost is amortized in the year following the year in which the gain or loss is recognized primarily by the declining-balance method over various periods (10 years through 18 years) which do not exceed the average remaining service period of employees.
Adoption of the simple method at small businesses, etc.
Some consolidated subsidiaries adopt the simple method under which an amount of payment required for retirement benefits for personal reasons at the end of fiscal term is used as retirement benefit obligations when calculating net defined benefit liability and retirement benefit costs,.

(iii) Accounting method for consumption tax
The tax exclusion method is adopted for consumption tax and local consumption tax.

(iv) Foreign currency translation
All monetary assets and liabilities in denominated in foreign currencies are converted into Japanese yen at the exchange rates prevailing as of the consolidated fiscal term end, and the resulting gain or loss is credited or charged to income.
The Majority-owned overseas consolidated subsidiaries' assets and liabilities are translated into Japanese yen at the exchange rate prevailing as of the end of the consolidated fiscal term. Revenues and expenses are translated into Japanese yen at the average exchange rate during the consolidated fiscal term, and translation differences are included in the translation adjustment account and no-controlling interests of net assets.

(v) Consolidated tax payment system
The Company adopts the consolidated tax payment system.

Notes to changes in the accounting policies

(Change in accounting policy associated with revisions of accounting standards, etc.)

Application of the Accounting Standard for Business Combinations, etc.

Effective from the current consolidated fiscal term, we adopted the Accounting Standard for Business Combinations (ASBJ Statement No. 21, September 13, 2013; hereinafter the "Accounting Standard for Business Combinations"), Accounting Standard for Consolidated Financial Statements (ASBJ Statement No. 22, September 13, 2013; hereinafter the "Accounting Standard for Consolidated Financial Statements"), and Accounting Standard for Business Divestitures (ASBJ Statement No. 7, September 13, 2013; hereinafter the "Accounting Standard for Business Divestitures"), etc. According to the changes in these standards, the Company records differences arising from changes in its equity interest in subsidiaries that remain under its control as capital surplus and charges acquisition-related costs for business combinations to expenses in the consolidated fiscal terms when such costs are incurred. With regard to any business combination made on or after April 1, 2015, any adjustment of an allocated amount of acquisition costs arising from a determination of provisional treatment is reflected in the consolidated financial statements for the consolidated fiscal term when the business combination occurs. Furthermore, the Company has changed the presentation of net income, etc. and the presentation of minority interests to non-controlling interests.

When applying the accounting standards, etc., the Company follows the transitional treatment set forth in Paragraph 58-2 (4) of the Accounting Standard for Business Combinations, Paragraph 44-5 (4) of the Accounting Standard for Consolidated Financial Statements, and Paragraph 57-4 (4) of the Accounting Standard for Business Divestitures. The accounting standards, etc. are applied to the period from April 1, 2015 onward.

There are no impacts on the consolidated financial statements for the current consolidated fiscal term.

(Change in the accounting policies due to a reasonable cause other than the revision of the Accounting Standard, etc.)

Change in the method for valuing inventories

Inventories of the Company and some of its consolidated subsidiaries, which were previously stated mainly at cost by first-in, first-out method (the carrying amounts in the accompanying consolidated balance sheets are stated after reducing the book value according to the decreased profitability), are stated mainly at cost using the moving-average method (the carrying amounts in the accompanying consolidated balance sheets are stated after reducing the book value according to the decreased profitability), effective from the current consolidated fiscal term.

This change is implemented for the purpose of conducting inventory valuation and periodic profit and loss accounting more fairly and accurately, in conjunction with the introduction of the new Sanken ERP system in the Company and some of its consolidated subsidiaries.

As impacts of this change are negligible, this change is not applied retroactively.

Notes to changes in presentation

(Consolidated statement of income)

(1) Gain on insurance adjustment, which was included in "Miscellaneous income" in Non-operating income in the previous consolidated fiscal year, is separately stated due to its increased materiality.

(2) Product compensation expenses, which were included in "Miscellaneous loss" in Non-operating expenses in the previous consolidated fiscal year, are separately stated due to their increased materiality.

Notes to changes in accounting estimates

Not applicable

Notes to error corrections

Not applicable

Notes to the Consolidated Balance Sheet

(1) Assets offered as collateral and collateralized liabilities

1) Assets offered as collateral

Buildings	80 million yen
Other intangible assets	9 million yen
Total	89 million yen

2) Collateralized liabilities

Short-term bank loans	86 million yen

(2) Accumulated depreciation of tangible fixed assets 142,199 million yen

(3) Amount of retrospective obligations in accordance with the transfer of export receivables 167 million yen

Notes to the Consolidated Statement of Income

1. Extraordinary losses

(1) Business restructuring expenses are incurred in relation to personnel rationalization, etc. at Polar Semiconductor, LLC and other subsidiaries whose profitability has deteriorated, and mainly consist of special retirement benefits.

(2) Loss on countermeasures against abnormal properties of chemicals is incurred in relation to quality problems in chemicals purchased for processing semiconductor wafers by a consolidated subsidiary, and mainly consists of loss on valuation of inventories.
Receipts of insurance benefits and compensation through insurance claims and claims for damages are not determined at present and are therefore not recorded.

Notes to the Consolidated Statement of Changes in Net Assets

(1) Shares issued and outstanding (shares)

Type of share	Balance at beginning of current consolidated year	Increase	Decrease	Balance at end of current consolidated year
Common stock	125,490,302	—	—	125,490,302

(2) Treasury Stock (shares)

Type of share	Balance at beginning of current consolidated year	Increase	Decrease	Balance at end of current consolidated year
Common stock	4,253,173	22,877	633	4,275,417

(Summery of Reason for change)
Increase and decrease in treasury stock of common stock were due to purchase and disposal of less-than-a full-unit shares.

(3) Dividends

(i) Amount to be paid

Resolution	Class of share	Total amount (million yen)	Dividend per share (yen)	Record date	Effective date
Shareholders' Meeting held on June 26, 2015	Common stock	424	3.50	March 31, 2015	June 29, 2015
Board of Directors' Meeting held on November 5, 2015	Common stock	424	3.50	September 30, 2015	December 4, 2015

(ii) Dividends of which the record dates fall in the current fiscal year but the effective dates fall after the end of the current fiscal year
Not applicable

(4) Stock Acquisition Rights
Not applicable

Notes to Financial Instruments

(1) Matters concerning the current situation of financial instruments

The Company Group raises funds necessary for capital investments, R&D, etc. by bond issues and bank loans. It manages temporary surplus funds through highly secured financial instruments, and also raises short-term operating funds by issuing commercial papers and bank loans. The Company Group follows a policy of using derivatives to hedge foreign currency exchange fluctuation risks and of avoiding any speculative dealings.

Customer credit risks related with notes receivable and accounts receivable ― trade are reduced through measures taken in accordance with provisions of credit management regulations. Receivables denominated in foreign currencies are exposed to foreign currency exchange fluctuation risks. The Company Group hedges this risk mainly through the use of forward exchange contracts against positions after netting payables denominated in foreign currencies, in principle.

Investment securities are mainly the shares of corporations with which the Company Group has business relationships and therefore are exposed to the risk of market price fluctuations. The Company Group regularly monitors the fair value and financial positions, etc. of the issuing entities (business partners) and continuously reviews the holding status in consideration of its relationships with business partners.

Short-term bank loans and commercial papers are fundraising instruments that mainly pertain to operating funds, while long-term bank loans, bonds, and lease obligations under finance lease transactions are fundraising instruments necessary mainly for the purpose of capital investment. Some of them are on floating interest rates and therefore exposed to the risk of interest rate fluctuation. When borrowing a bank loan on a floating interest rate, the Company Group reduces the risk by limiting the loan term within three years in principle, monitoring the remaining term until the interest rate renewal date, monitoring the interest rate fluctuation trend, and responding in consideration of the balances between short-term loans and long-term loans or between fixed interest rates and floating interest rates.

With respect to derivative transactions, the financial division of the Company conducts transaction contracts, checks balances, and handles the accounting. A monthly report on the status of derivative transactions is prepared and submitted to the management meeting.

(2) Matters concerning the fair value of financial instruments

The amount posted on the consolidated balance sheet, the fair value, and the differences between the two were as follows, as of March 31, 2016 (consolidated closing date for the current fiscal year). However, financial instruments for which the fair value is deemed to be extremely difficult to determine are not included in the following table. (See Note 2)

(Millions of yen)

	Amount posted on consolidated balance sheet (*1)	Fair value (*1)	Difference
(1) Cash and deposits	17,924	17,924	―
(2) Notes and accounts receivable ― trade	33,999	33,999	―
(3) Investment securities			
Other securities	1,120	1,120	―
(4) Notes and accounts payable ― trade	(16,120)	(16,120)	―
(5) Short-term bank loans	(20,635)	(20,635)	―
(6) Commercial paper	(4,000)	(4,000)	―
(7) Bonds payable (including current portion of bonds)	(55,900)	(56,053)	(153)
(8) Long-term bank loans	(12,500)	(12,631)	(131)
(9) Lease obligations	(1,254)	(1,248)	5
(10) Derivative transactions (*2)	698	698	―

*1: Amounts posted in liabilities are indicated in ( ).

*2: Derivative transactions are indicated in net amounts after offsetting the receivables and payables.

Note 1: Calculation method for the fair value of financial instruments, and matters concerning securities and derivative transactions

(1) Cash and deposits; and (2) Notes and accounts receivable ― trade

The fair value is approximately equal to the book value because both are settled in the short term. Therefore, the fair value is based on the book value.

(3) Investment securities

The fair value of stocks is based on the prices on the stock exchange.

(4) Notes and accounts payable ― trade; (5) Short-term bank loans; and (6) Commercial paper

The fair value is approximately equal to the book value because both are settled in the short term. Therefore, the fair value is based on the book value.

(7) Bonds payable
The fair value of bonds with market prices issued by the Company is based on market prices. The fair value of bonds without market prices is based on the present value of the total principal and interest discounted by the interest rate in consideration of the residual periods and credit risk of the bonds.

(8) Long-term bank loans
With floating interest rate, the fair value of long-term bank loans is deemed to reflect market interest rates in the short term and is therefore deemed to be very similar to the book value. Accordingly, it is stated at book value. With fixed interest rate, the fair value of long-term bank loans is based on the present value of the total principal and interest discounted by the interest rate, assuming that the Company newly takes out the same bank loans.

(9) Lease obligations
The fair value of lease obligations is based on present value discounted by the interest rate, assuming that the Company newly initiates the same lease transaction.

(10) Derivative transactions
(i) Not subject to hedge accounting
The fair value of a derivative transaction not subject to hedge accounting is based on the price etc. presented by correspondent financial institutions.
(ii) Subject to hedge accounting
Not applicable.

Note 2: The fair value of unlisted stocks (83 million yen on the consolidated balance sheet) is considered to be extremely difficult to calculate, as there are no market prices and no valuations of future cash flows. Therefore, these stocks are not included in "(3) Investment securities; Other securities."

Notes to lease properties
Not applicable

Notes to per share information

(1) Net assets per share	441.96 yen
(2) Net income per share	1.41 yen

NOTES TO NON-CONSOLIDATED FINANCIAL STATEMENTS

Notes to Going Concern Assumption

Not applicable

Notes to significant accounting policies

1. Standards and methods of valuing the assets

(1) Securities

Stocks of subsidiaries and affiliates ····· Stated at cost using the moving-average method

Other securities

Securities with market value ····· Market value method based on the closing market price as of the end of the fiscal term

Differences in valuation are included directly in net assets and costs of sold securities are calculated using the moving-average method.

Securities without market value ····· Stated at cost using the moving-average method

(2) Derivative transactions

Market value method

(3) Inventories

Inventories held for the purpose of ordinary sales

Stated mainly at cost using the moving-average method

(The carrying amounts in the accompanying non-consolidated balance sheets are stated after reducing the book value according to the decreased profitability.)

2. Depreciation methods for fixed assets

(1) Tangible fixed assets

(excluding lease assets) ····· Straight-line method

(2) Intangible assets

(excluding lease assets) ····· Straight-line method

As for software (for in-house use), the straight-line method is used with a useful life of 5 or 10 years.

(3) Lease assets ····· Lease assets arising from finance lease transactions in which ownership is not transferred

Depreciation shall be computed by the straight-line method based on the assumptions that the useful life equals the lease term and the residual value equals zero.

3. Standards of accounting for allowances and accruals

(1) Allowance for doubtful receivables

Estimated uncollectible amounts are calculated using historical data for trade receivables and individually considering the probability of collection for doubtful receivables.

(2) Accrued retirement benefits

Accrued employees' retirement benefits are calculated based on estimates of retirement benefit obligations and pension assets as of the end of the fiscal term.

(i) Method for attributing retirement benefit estimates to periods

When calculating retirement benefit obligations, the benefit formula basis serves as the main basis for attributing retirement benefit estimates to the periods of up to the end of the current fiscal. If pension assets to be recognized as of the end of the fiscal term exceed the amount of difference between retirement benefit obligations and net unrecognized actuarial gain or loss, the difference is recorded as prepaid pension cost in Investments and other assets.

(ii) Method for allocating net unrecognized actuarial gain or loss and past service cost

Net unrecognized actuarial gain or loss is amortized in the year following the year in which the gain or loss is recognized primarily by the declining-balance method over 14 years which is not more than the average remaining service term of employees.

Prior service cost is amortized in the year following the year in which the gain or loss is recognized primarily by the declining-balance method over 14 years which is not more than the average remaining service term of employees.

4. Other significant matters constituting basis for the preparation of the financial statements

(1) Accounting for retirement benefits

The accounting methods adopted for net unrecognized actuarial gain or loss and unrecognized past service cost relating to retirement benefits in the non-consolidated financial statements differ from those adopted in the consolidated financial statements.

(2) Accounting method for deferred assets

Bond issuance cost is expensed as incurred.

(3) Accounting method for consumption taxes

The tax exclusion method is adopted for consumption tax and local consumption tax.

Notes to changes in the accounting policies

(Change in accounting policy associated with revisions of accounting standards, etc.)

Application of the Accounting Standard for Business Combinations, etc.

Effective from the current fiscal term, we adopted the Accounting Standard for Business Combinations (ASBJ Statement No. 21, September 13, 2013; hereinafter the "Accounting Standard for Business Combinations") and Accounting Standard for Business Divestitures (ASBJ Statement No. 7, September 13, 2013; hereinafter the "Accounting Standard for Business Divestitures"), etc. According to the changes in these standards, the Company charges acquisition-related costs for business combinations to expenses in the fiscal terms when such costs are incurred. With regard to any business combination made on or after April 1, 2015, any adjustment of an allocated amount of acquisition costs arising from a determination of provisional treatment is reflected in the financial statements for the fiscal term when the business combination occurs.

When applying the accounting standards, etc., the Company follows the transitional treatment set forth in Paragraph 58-2 (4) of the Accounting Standard for Business Combinations and Paragraph 57-4 (4) of the Accounting Standard for Business Divestitures. The accounting standards, etc. are applied to the period from April 1, 2015 onward.

There are no impacts on financial statements for the current fiscal term.

(Change in the accounting policies due to a reasonable cause other than the revision of the Accounting Standard, etc.)

Change in the method for valuing inventories

Inventories of the Company, which were previously stated mainly at cost by the first-in, first-out method (the carrying amounts in the accompanying balance sheets are stated after reducing the book value according to the decreased profitability), are stated mainly at cost using the moving-average method (the carrying amounts in the accompanying non-consolidated balance sheets are stated after reducing the book value according to the decreased profitability), effective from the current fiscal term.

This change is implemented for the purpose of conducting inventory valuation and periodic profit and loss accounting more fairly and accurately, in conjunction with the introduction of the new Sanken ERP system.

As the impacts of this change are negligible, this change is not applied retroactively.

Notes to changes in presentation

(Statement of income)

Product compensation expenses, which were included in “Miscellaneous losses” in Other expenses until the previous fiscal year, are separately stated in the current fiscal year due to their increased materiality in value.
