Announcement of Sales Launch of New Antibody/Reagent

Perseus Proteomics Inc. is pleased to announce the sales launch of a new antibody/reagent below:

- Anti-MMAE antibody (for measuring ADC concentration in blood in animal experiments or clinical trials, etc.)

We provide various antibodies/reagents for researchers at academia, companies, and others throughout the world. In addition to the new product, we plan to start sales of new antibodies for research on diseases, as well as new antibody research support service menu for various research.
