1. Qualitative Information Regarding Consolidated Results for the Nine Months Ended December 31, 2015

(1) Explanation of Operating Results

Descriptions and statements in relation to forward-looking projections disclosed in this document reflect the judgment of the Group as of December 31, 2015.

During the nine months ended December 31, 2015, business conditions of the Japanese economy have generally continued to recover moderately, as shown in improving labor market and salary levels as a result of implementation of economic and monetary policy set out by the Government, although some signs of economic recovery are weak. With respect to the world economy, despite economic slowdown in emerging countries including China and deteriorating situations in the Middle East, moderate economic recovery has been achieved mainly in the United States and Europe.

Domestic business environment surrounding the Group has continued to face challenges such as a gradual decrease in public investments and a sharp increase in labor costs arising from shortage of human resources.

Consequently, on May 29, 2015, the Group developed “Midterm business plan (from the fiscal year ending March 31, 2016 to 2018)” to work on establishment of strong business foundations and development of new solutions, as well as business expansion in cooperation with local companies and partner companies in Japan.

For the consolidated operating results of the Group for the nine months ended December 31, 2015, Plant Engineering Business posted weaker results in both sales and operating income as compared to the nine months ended December 31, 2014, and Service Solutions Business recorded a slight increase in sales but a decline in operating income as compared to the nine months ended December 31, 2014. Overall, the operating results for the current period underperformed the same period in 2014.

For the nine months ended December 31, 2015, net sales was ¥37,448 million (10.4% decrease year to year), operating loss was ¥6,233 million (¥3,273 million for the nine months ended December 31, 2014), ordinary loss was ¥6,223 million (¥3,124 million for the nine months ended December 31, 2014) and loss attributable to owners of parent was ¥4,446 million (¥2,004 million for the nine months ended December 31, 2014).

Our business consists mostly of the domestic public work projects for government agencies, which are typically developed and completed intensively in the fourth quarter. As a result, operating results of the first three quarters tend to be low, and this fiscal year is no exception. Sales orders, which amounted to ¥86,146 million year to date, remained at the same level as the nine months ended December 31, 2014.

Operating results by segment are as follows:

(Plant Engineering Business)

For Plant Engineering Business, orders amounted to ¥49,723 million; net sales amounted to ¥23,376 million (16.2% decrease year to year) due to delays in receipt of orders for certain projects and an increase in long-term projects whose sales were not recorded during this period; and operating loss amounted to ¥4,359 million (¥1,768 million for the nine months ended December 31, 2014) due to a decrease in sales.

(Service Solutions Business)

For Service Solutions Business, orders amounted to ¥36,423 million; net sales amounted to ¥14,071 million (1.2% increase year to year); and operating loss amounted to ¥1,873 million (¥1,504 million

for the nine months ended December 31, 2014) due to a decline in margin for certain large project.

(2) Explanation of Financial Position

Total assets as of December 31, 2015 decreased by ¥19,831 million compared to March 31, 2015 to ¥94,426 million.

Non-current assets decreased by ¥377 million compared to March 31, 2015 to ¥8,956 million.

Current liabilities decreased by ¥13,674 million compared to March 31, 2015 to ¥34,701 million due to a decrease in accounts payable - trade, offsetting with an increase in advances received.

Non-current liabilities decreased by ¥466 million compared to March 31, 2015 to ¥17,641 million due to a decrease in PFI and other project finance loans.
