1. Dividend policy

The Company is committed to enhancing corporate value by developing its global businesses, while placing management priority on sharing profits with shareholders.

With regard to a specific dividend policy, the Company has a policy of appropriating profits by setting a target dividend payout ratio, comprehensively considering the maintenance of its capital base and the investment for growth to ensure the appropriate returns are paid to shareholders.

In the medium-term management plan "Beyond the Horizon" for the period of five years from fiscal 2016, the Company is committed to enhancing returns to shareholders while actively making investments for growth while paying due attention to capital efficiency. 2. Basic principles for equity ratio and return on equity (ROE)

With regard to EPC businesses in the oil and gas field, the core businesses of the JGC Group, it is critical for the Company to sustain a solid financial base so that it is not affected by changes in the financial markets, in order to maintain the trust of customers and to operate large-scale projects smoothly. In light of this, and in order to ensure sufficient funding capacity to flexibly make large-scale investments, the Company aims to maintain a stable equity capital ratio of 50% or higher.

The return on equity (ROE) of 10% or higher is targeted, recognizing capital efficiency as a priority for the sustainable enhancement of corporate value of the Company.
