Concept	The Hiroshima Kannon Store is opening in Hiroshima Prefecture for the first time in about five years. Located in Nishi-ku, Hiroshima City, with a population of approximately 190,000, it's a strong market. The store is about 13 km from Hiroshima Chōrakuji Store and about 7 km from Hiroshima Shinonome Store, forming a triangle for a dominant market presence. This is the 4th store in Hiroshima Prefecture, the 124th directly managed store, and the 137th including franchise stores. The store is newly built with 6 coating booths and 4 car wash spaces. The design minimizes staff vehicle movement, making the process safe and reducing labor. A spacious guest room with 8 counter seats is available for customers to comfortably watch the work being done while they wait.
