April 2017 Operating Results

The Company released data today on results for April 2017. For details on nominal net sales, year-on-year growth in sales per customer and the number of customers, see the Supplementary Information.

Net sales

Non-consolidated net sales for April period this year (March 21, 2016–April 20, 2017) grew 3.3% on a year-on-year basis.

Non-consolidated net sales of mainstay B-to-B business grew 6.9% on a year-on-year basis. There was one extra business day compared with April 2016 and if this difference is adjusted, the non-consolidated net sales of B-to-B business in April 2017 would have grown 2.5%. While the impact of the fire at ASKUL Logi PARK Tokyo Metropolitan still remained in April, sales have been recovering further more recently.

Non-consolidated sales of LOHACO, which is a growth field, declined 26.7% on a year-on-year basis. While the Company, due to the impact of the fire, continues to limit the time period during which customers can place orders to allow the service level to recover, the shipment capacity of the business has been gradually recovering as replacement shipment from ASKUL Logi PARK Yokohama has begun. The Company aims to fully restore the shipment capacity by the end of September by swiftly expanding the capacity of ASKUL Value Center Hidaka, ASKUL's first logistics center dedicated to the LOHACO business, which began carrying out shipments from April 20.
