Timee, Inc.

Timee reached 10 million registered workers

Timee, Inc. (Location: Minato-ku, Tokyo; CEO: Ryo Ogawa), which provides the on-demand job platform “Timee”, announces that the number of workers registered since the launch has reached 10 million as of December 2024. This release also announces the demographic data of registered workers.

Trends in the Number of Registered Workers

The number of registered workers has increased by about 1.5 times in one year, from 6.67 million as of December 2023, and has now reached 10 million (as of December 2024). Although we have reached the 10 million mark, the momentum of the increase in registered workers has not waned, and growth continues at a high level. The spread of awareness of new ways of working such as “Sukima-baito” and “Spot Work” and the steady expansion in rural areas as well as urban areas through the cooperation agreements with local governments (*1) have contributed to this high growth.

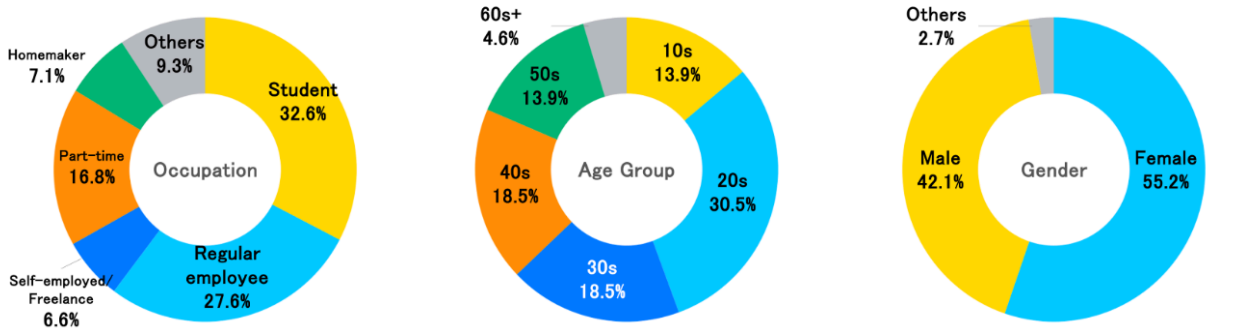
Profiles of Registered Workers

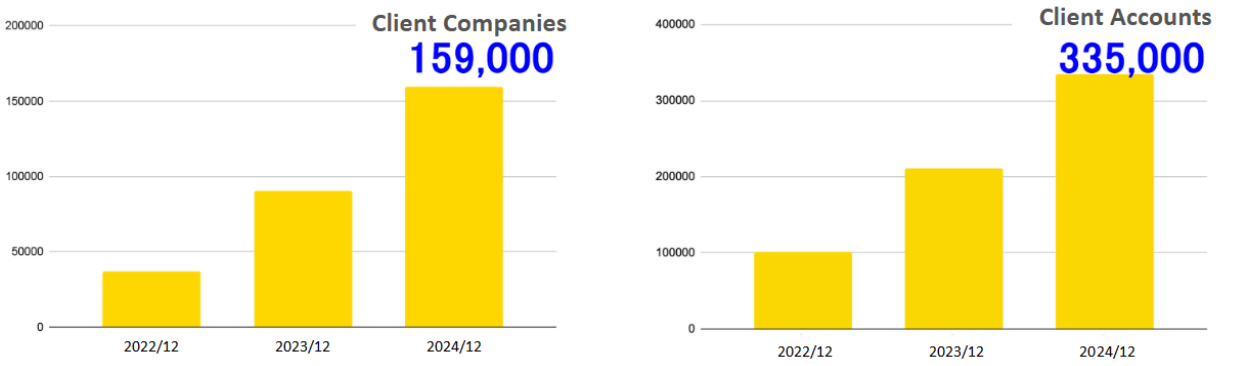
The profiles of registered workers (*2) were updated as of December 2024.
The breakdown by occupation showed that students accounted for the largest proportion at 32.6%, followed by regular employees at 27.6%.
By age group, the largest group was the 20-29 age group at 30.5%, followed by the 30-39 age and 40-49 age groups at 18.5%, with the 10-30 age group accounting for 62.9% of the total.
By gender, the largest group was female at 55.2%, followed by male at 42.1%.
(*2) indicates the profiles of workers who have registered with Timee (regardless of whether they have worked before).



*As of December 2024

of Registered Client Companies / Accounts

As of December 2024, there were 159,000 registered client companies and 335,000 registered client accounts.



*As of December 2024

■About Timee

Timee is an “on-demand job platform” that provides a free way to work without restrictions on time or place by matching “time when someone wants to work” with “time when workers are needed” under the tagline “Work in your style’". Workers apply for the positions they want and can start working immediately without a resume or interview, and receive compensation right after completing the job. Employers only need to specify the required skills and work hours with a minimum of one hour, and the system will automatically match the worker with a job that meets their requirements. Timee aims to realize a “work-barrier-free” society where people can reach out for“work” that suits them anytime, anywhere, and in any phase of their lives. Through the encounters and experiences gained through“work,” we will expand the possibilities of workers' lives and increase the number of happy hours in the world.

Work in your style.
