Notice regarding Recording of Extraordinary Income (Gain on Reversal of Provision for Loss on Contracts)

Synspective Inc. (the “Company”) hereby announces that it has recorded the extraordinary income (gain on reversal of provision for loss on contracts) for the first quarter of the fiscal year ending December 31, 2025, as described below.

1. Recording of Extraordinary Income (Gain on Reversal of Provision for Loss on Contracts)

In the past previous fiscal year, the Company posted a provision for loss on contracts to prepare for potential losses due to specification changes arising after orders for satellite components were placed. However, as the satellite components delivered in the first quarter of the fiscal year were used for research and development purposes, the Company recorded extraordinary income of 16,076 thousand yen as a gain on reversal of provision for loss on contracts.

2. Impact on Business Results

The impact of the above extraordinary gains on business results is reflected in the “Consolidated Financial Results for the Three Months Ended March 31, 2025 (Under Japanese GAAP)” disclosed today.
