2．reason

We position returning profits to shareholders as one of our most important management priorities. Our basic policy is to provide continuous and stable profit returns in line with improved business performance, taking into consideration the need to strengthen our management structure and enhance internal reserves necessary for future business development.

Based on the above policy and taking into consideration the financial statements, full-year performance, dividend payout ratio, etc., we have set the final dividend for the fiscal year ending March 2025 at 18 yen per share.

As a result, including the interim dividend of 18 yen already paid, the annual dividend per share for the fiscal year will be 36 yen, resulting in a dividend payout ratio of 66.7% for the fiscal year under review.
