Updates on the disclosed matter: Notice Regarding the Transfer of Shares of Our Subsidiary (Sub-subsidiary)

MINKABU THE INFONOID, Inc. (hereinafter referred to as "the Company," Headquartered in Minato-ku, Tokyo, Representative Director and President: Masayuki Ban) hereby announces that the transfer of all shares of MINKABU ASSET PARTNERS, Inc. (hereinafter "MAP"), which is held by our consolidated subsidiary, MINKABU SOLUTON SERVICES, Inc. (hereinafter "MSS," headquartered in Minato-ku, Tokyo, President and COO: Masayuki Ban), to TRADE WORKS Co., Ltd. (hereinafter "TW," headquartered in Minato-ku, Tokyo, President: Masakatsu Saito), with whom the Company has a business alliance, has been completed as of today.

1. Purpose of the Merger

Under the theme of "From Savings to Asset Formation," the Company established MINKABU ASSET PARTNERS, Inc. (MAP) in September 2021 with the aim of providing financial services to the asset formation segment. Subsequently, in December 2022, MAP completed the registration as a financial product intermediary, and in December 2023, it completed the registration as an investment advisory and agency business. MAP also became a member of the Japan Investment Advisers Association, and has been preparing to start operations as an online-only investment advisory firm.

TW, with which the Company formed a business alliance in May 2024, possesses deep knowledge of the securities industry, extensive experience in financial system development and operations, and highly skilled human capital as assets. TW is focusing on the financial solutions business as its core offering and is actively working on building a foundation for growth in line with its mid-term business plan.

As a result of discussions on various business strategies, we, along with MSS and TW, have determined that the financial services being prepared for launch by MAP will benefit from greater business synergies with TW, which possesses a real-time trading system. Therefore, the Company has decided to transfer the shares of MAP.
