PRESS RELEASE

April 3, 2025

ACSL Ltd.

U.S. subsidiary ACSL, Inc. Signed a Sales Agreement with Drone Nerds Inc.

- ACSL, Inc. has signed a sales agreement with Drone Nerds Inc. to further accelerate sales and market development in the U.S. market.
- Drone Nerds is a distributor of enterprise drones, with clients in a variety of industries, including government, construction, and the energy sector.

ACSL Ltd. (ACSL) hereby announces that ACSL, Inc., our U.S. subsidiary, has signed a sales agreement with Florida-based Drone Nerds Inc. (Drone Nerds), on April 2, 2025, local time to promote ACSL products in the U.S. market.

■Reason and details of the Agreement

Policies related to economic security and environmental considerations are accelerating in the global drone market. In the U.S., the National Defense Authorization Act (NDAA) prohibits government procurement of Russian and Chinese drones. In addition, DJI, Chinese drone manufacturer, has been designated by the U.S. Department of Defense as a "China Military Enterprise" from October 2022. In this market environment, ACSL believes that it is possible to formulate a positioning based on the keywords "economic security", "enterprise support", and "application-specific".

Against this background, ACSL established a U.S. subsidiary, ACSL, Inc. in California in January 2023 to meet the growing demand for secure, versatile, and high-performance small aerial drones. In January 2024, ACSL, Inc. began full-scale sales in the U.S. and in October 2024, we received an order for 500 SOTEN drones from our distributor, Exertis Almo*.

Drone Nerds is the largest distributor of enterprise drones in the U. S. with clients in a variety of industries, including government, construction, and energy sector. Drone Nerds team has a deep knowledge of drone solutions that allows them to provide their customers with the right drone solution for their unique operational needs. The performance of our SOTEN and TENSO was highly evaluated and led to the conclusion of this agreement.

ACSL, Inc. and Drone Nerds recognize each other’s strengths and expertise and continue to further accelerate sales and market development in the U.S. market.
