2. Reasons

The company considers stable, continuous and proactive return of profits to shareholders to be an important management issue. Our basic policy is to prioritize strengthening R&D investment and capital investment, while securing the necessary internal reserves for future business expansion, and to distribute surplus funds with a consolidated dividend payout ratio of approximately 20% to 30%.

Based on this basic policy and taking into account the consolidated earnings for the fiscal year ending March 2025, as set forth in the Summary of Financial Results for the Fiscal Year Ending March 2025 dated today, we have decided to set the dividend payout at 19 yen per share at the end of this fiscal year. As a result, the annual dividend per share will be 37 yen, including the interim dividend of 18 yen.
