[To the press]

Investment in Cyber Command Inc.

SUNCOPRORATION (Nagoya, Aichi; President and CEO: Ryusuke Utsumi; TSE Standard Market: 6736; hereinafter “SUNCOPRORATION”) has made an investment in Cyber Command Inc. (Kita-ku, Osaka; Representative Director: Manabu Oomukai; hereinafter "Cyber Command"), a company providing cybersecurity training, specialized personnel, and other solutions.

SUNCOPRORATION actively applies the latest technologies and know-how to its own business operations and engages in capital and business alliances with partners in businesses where synergies with its own operations are expected.

Through this investment and strengthened business collaboration with Cyber Command, the Global Data Intelligence Division of SUNCOPRORATION will be able to leverage Cyber Command's security expertise and SOC (Security Operations Center) capabilities to provide more advanced security operation services for digital forensics, threat intelligence, and cryptocurrency tracking tools offered by the Global Data Intelligence business. Additionally, by providing integrated training and operational support before and after product/service implementation, we anticipate strengthening the value chain for our customers.
