About Shared Research

Shared Research is a research firm that conveys the essence of companies to investors worldwide. The firm provides Research Coverage, which is sponsored research conducted by staff with experience in Japanese equity research and management at financial institutions in Japan and overseas. Designed for institutional investors, Research Coverage is utilized by over 6,000 institutional investors across 130 countries, as well as many individual investors. By conducting thorough analyses of sponsor companies and widely sharing this information with investors, Shared Research helps enhance investors' understanding of companies and improve the efficiency of corporate investor relations.
