MARUKA FURUSATO Corporation Concludes Sponsorship Agreement with Kindai University Athletic Association Basketball Club

MARUKA FURUSATO Corporation (Headquartered in Osaka, President & CEO: Ryohei Furusato) is pleased to announce that it has entered into a sponsorship agreement with Kindai University (Higashiosaka City, President: Itaru Matsumura) for its Athletic Association Basketball Club. The signing ceremony took place today.

1. Purpose of the Agreement

Our company's corporate vision is "Towards a world overflowing with 'I want to make this happen!'" Based on the idea of "contributing to society through sports support," we are committed to sponsorship as part of our social contribution activities.

Currently, we serve as the official top sponsor for the women's volleyball team "Astemo Rivale Ibaraki," which belongs to the semi-professional SV League, and as an official partner for "Kobelco Kobe Steelers" in Japan Rugby League One.

We believe that Kindai University's founding principles, future-oriented approach of "'learning for the real world' and 'nurturing intellectual and emotional intelligence'", align with our vision of "Towards a world overflowing with 'I want to make this happen!'" We have therefore decided to conclude this agreement, believing that it will contribute to the development of the local community through support for university sports.

Through this agreement, our group will support the Kindai University Athletic Association Basketball Club as they compete in demanding league matches and inspire spectators with their dedicated play. Our employees will join students, parents, and supporters in cheering them on, and we will also engage in sports-related activities such as career support for students.

2. Overview of the Sponsorship Agreement

Term: From May 1, 2025, to March 31, 2026
(The agreement will automatically renew annually unless either party provides notice to the contrary.)
Content: Uniform Sponsorship. The UNISOL logo will be displayed on the lower front of the official uniforms.
