Notice of Organizational Change

Financial Partners Group Co., Ltd. (FPG) announces the following organizational change effective from June 1, 2025.

1. Details of the Change

Effective June 1, 2025, FPG will transition the existing Information Systems Dept. into a two-department structure, consisting of "Information Systems Dept. 1" and "Information Systems Dept. 2."

2. Purpose and Background of the Change

As announced on April 17, 2025, in the "Announcement of the Launch of Online Transactions", FPG began offering online transactions for operating lease projects offered through the Leasing Fund Business in April of this year. FPG also aims to introduce online trading to its second pillar, the Domestic Real Estate Fund Business, and its third pillar, the International Real Estate Fund Business.

Additionally, as announced on May 12, 2025, in the "Announcement of the Launch of Japan's First Publicly Offered Beneficiary Certificate Issuing Trust for Individual Investors: A Fractional Aircraft Investment Product (JPY 1 Million per Unit)," FPG has commenced the sale of Japan's first publicly offered beneficiary certificate issuing trust for individual investors under the product brand "F.bit." This initiative provides individual investors with the opportunity to complete account opening, application, contract, and portfolio management entirely online through the website of our wholly-owned subsidiary, FPG Securities Co., Ltd.

Looking ahead, to achieve further growth for the group through enhanced customer convenience, FPG will accelerate DX (Digital Transformation), as such examples mentioned above, and transition the existing Information Systems Dept. into a two-department structure while strengthening its information systems framework, including an increase in personnel.
