■About Shared Research

Shared Research Inc. is a research firm dedicated to communicating the true value of companies to investors around the world. It provides "Research Coverage," a sponsored research service produced by staff with experience in researching and managing Japanese equities at financial institutions in Japan and overseas. Designed for institutional investors, "Research Coverage" is utilized by more than 6,000 institutional investors in 130 countries, as well as by many individual investors. By widely sharing in-depth analysis of sponsor companies with investors, it helps investors better understand companies and helps companies make their IR activities more efficient.

■About Soracom

SORACOM, an AI/IoT connectivity platform, provides IoT connectivity spanning over 200 countries and regions worldwide, together with a one-stop offering of the applications and devices needed to put IoT to work. Our platform is used by customers across a wide range of industries and company sizes — from industrial DX in manufacturing, energy, and payments, to innovative startups, and initiatives supporting sustainable local communities such as agriculture and disaster prevention.Soracom Corporate Site https://soracom.com/en
