FPG-organized Seminar for Accounting Firms held

FPG announced today that the Seminar for Accounting Firms that it organizes was held from July 10 to July 25, 2018 at eleven locations throughout Japan, attracting 693 participants.

The Seminar for Accounting Firms was first held in Nagoya in 2009. Since then, as FPG has grown, the seminars have also expanded to the point where they are held at its head office and in its offices all over Japan. They are now held about three times per year at eleven locations throughout Japan. Since 2009, a total of 203 seminars have been held, and the cumulative number of participants has reached 8,600. Each year, many people from accounting firms participate, and along with providing an opportunity to receive information, the seminar strengthens the relationship between FPG and the accounting firms.

In the future as well, FPG will leverage its strong network with accounting firms, and strive to conduct its business activities as a unified group, aiming to become a one-stop financial service company that provides true satisfaction to customers.
