2. Rationale

At the Board of Directors meeting held today, the Company resolved to support the Tender Offer and recommend that shareholders tender their shares. The Board further resolved to leave the decision of whether to tender share acquisition rights to the discretion of the respective holders. This resolution is based on the premise that the Tender Offeror intends to acquire the Company as a wholly-owned subsidiary, resulting in the eventual delisting of the Company Shares. For further details, please refer to the Company's Opinion Press Release announced separately today.

The Company's basic policy has been to maintain stable and continuous dividends with a target payout ratio of 50% or more, balancing ongoing growth investments with shareholder returns while improving profitability and capital efficiency. However, the tender offer price per Company Share and the tender offer price per share acquisition right were comprehensively determined on the assumption that no dividends of surplus would be paid for the record dates of September 30, 2026, and March 31, 2027. Accordingly, the Company has resolved not to pay dividends for these record dates.
