Kuraray Receives SBTi Validation for Its Greenhouse Gas Emissions Reduction Targets

Kuraray Co., Ltd. (Headquarters: Chiyoda-ku, Tokyo; President: Hitoshi Kawahara) announces that the Kuraray Group's greenhouse gas (GHG) emissions reduction targets for 2035 have been validated as science-based by the Science Based Targets initiative (SBTi)*.

The Kuraray Group's GHG emissions reduction targets validated by the SBTi are as follows.
[Targets]
Scope 1 and 2: Reduce GHG emissions by 63.0% by 2035 compared with 2021
Scope 3 (Category 1): Reduce GHG emissions by 37.5% by 2035 compared with 2021

The Kuraray Group will continue working to reduce GHG emissions by promoting energy conservation, utilizing renewable energy, and other measures, thereby contributing to the realization of a decarbonized society.

*SBTi (Science Based Targets initiative): An international initiative that validates corporate greenhouse gas (GHG) emissions reduction targets that are science-based and aligned with the goals of the Paris Agreement.
