〈Opening of 2 stores in Hong Kong〉 Select shops CONZ and KEY TIMEZ Simultaneously Open at 1881 Heritage in Hong Kong

CONZ Makes Its First Entry into the Hong Kong Market;
KEY TIMEZ Opens Its First Overseas Store

TOKYO BASE CO., LTD. (hereinafter "the Company") (Representative Director: Masato Tani, Head Office: Minato Ward, Tokyo) operates select shops "CONZ" and "KEY TIMEZ," which will open new street-level stores at "1881Heritage," a commercial facility housed within a historic landmark in Hong Kong, on Friday, June 5, 2026.

This opening marks CONZ's first entry into the Hong Kong market and KEY TIMEZ's first overseas store. The host facility, 1881Heritage, is a historic structure renovated from the Former Hong Kong Marine Police Headquarters, which was built in the 19th century. While preserving the grandeur of its Victorian style architecture, it is now cherished as a cultural landmark home to luxury brands and restaurants.

Through this opening, the Company looks forward to deepening connections with local customers and sharing the world of CONZ and KEY TIMEZ with an even wider audience. The company has been strengthening its dominant store presence at 1881Heritage in Hong Kong as a base for expanding its Hong Kong business since the previous fiscal year. The company will use this new opening as a further step in its business expansion, and will continue to enhance shareholder value through steady profit growth.

■ **CONZ HONG KONG 1881 Heritage**

Concept
A select shop built around 3 core elements — "Now (今)," "Mix (混)," and "Soul (魂)" — proposing a uniquely Japanese mixed style that transcends boundaries between street and elegant, MENS and WOMENS. Characterized by a casual selection aimed at those who enjoy fashion freely and without pretension.

■ **KEY TIMEZ HONG KONG 1881 Heritage**

Concept
A select shop proposing "precious moments" that exist at the boundary between the everyday and the special. Not merely attire reserved for special occasions, nor something that fades into the routine of daily life. A moment of slight elevation found along the extension of each day. We propose styles that enrich the time found in that "in-between."
