Hinode Technologies Launches a Crypto Asset Accounting Management System for Institutional Investors and Listed Companies — Delivering Accounting and Audit Support Suited to Japanese Companies —

gumi Inc. (head office: Shinjuku-ku, Tokyo; Representative Director: Hiroyuki Kawamoto; hereinafter "the Company") hereby announces that Hinode Technologies Inc. (head office: Shinjuku-ku, Tokyo; CEO: Yasushi Teramura; hereinafter "Hinode"), a joint venture between the Company's consolidated subsidiary gC Labs Inc. and TISI Inc., has begun providing a crypto asset accounting management system for institutional investors and listed companies.

Note that the system has been slated for early adoption by SBI Crypto Fund ahead of its general release, and it will contribute to substantially streamlining the fund's complex crypto asset accounting operations.

Developed by Hinode, the crypto asset accounting management system is a service for institutional investors and listed companies that trade crypto assets in on-chain and off-chain environments. It is a flexible data solution developed to meet the stringent accounting and audit standard requirements faced by listed companies in Japan. It is a patent-pending system that, by accurately capturing data such as revenue figures not accompanied by a transaction—for example, staking—and gas fees (fees incurred on the blockchain), and by delivering flexible data output tailored to the customer's existing accounting system and internal environment (such as individually optimized CSV extraction and plug-in support), contributes to significantly improving back-office operational efficiency and preventing clerical errors.

Starting with this initiative, Hinode will continue to promote the provision of its crypto asset accounting management system to help solve the challenges faced by companies that handle crypto assets.

■ Recipient: SBI Crypto Fund LLC

Location	1-6-1 Roppongi, Minato-ku, Tokyo
Business Description	Management of listed crypto assets, etc.
Ownership ratio	SBI Financial Services Co., Ltd.: 51%; gC Labs Inc. (a wholly owned subsidiary of gumi Inc.): 49%

■Company Overview: gumi Inc.

Guided by its mission "Wow the World! Delivering wonders and excitement to everyone," gumi operates two primary businesses: the Neo-Media Entertainment Business and the Neo-Crypto Business.

In the Neo-Media Entertainment Business, gumi develops games that combine its proprietary game engine with leading IPs from other companies, while also actively acquiring IPs through production committee investments and expanding into adjacent entertainment businesses.

In the Neo-Crypto Business, gumi is expanding its operations through the holding and active management of crypto assets centered on XRP, portfolio management and system development at Hinode Technologies, and fund-related activities as key business pillars.
