TerraSky Co., Ltd.

# "mitoco X" and "mitoco Buddy" Win Dual Honors at the 19th ASPIC AI & Cloud Awards 2026

## Awarded the "ASPIC Chairman's Special Award" and the "AI Service Integration Award" Across Two Categories

TerraSky Co., Ltd. ("TerraSky") announces that its cloud data integration service, "mitoco X," and its MCP-compatible AI platform, "mitoco Buddy," have been honored at the 19th ASPIC AI & Cloud Awards 2026, organized by the ASP-SaaS-AI-IoT Cloud Consortium ("ASPIC"). Specifically, "mitoco X" received the "ASPIC Chairman's Special Award" in the IaaS/PaaS Category, while "mitoco Buddy" won the "AI Service Integration Award" in the AI Core Business Systems ASP/SaaS Category.

Supported by the Ministry of Internal Affairs and Communications (MIC) and other government bodies, the ASPIC AI & Cloud Awards recognize outstanding and socially beneficial AI and cloud services across Japan to foster business expansion and operational efficiency for both providers and end-users. For its 19th installment, the awards introduced a new "AI Cloud Service Division" alongside the traditional "Cloud Service Division," spotlighting solutions that leverage generative AI to drive transformative change across society and industry.

Both "mitoco X" and "mitoco Buddy" earned high acclaim from the judging panel, resulting in a simultaneous dual win for TerraSky.

## Award Summary and Evaluation Highlights

### 1. Cloud Data Integration Service: "mitoco X"

**Winner of the "ASPIC Chairman's Special Award" (IaaS/PaaS Category)**

"mitoco X" is a cloud data integration service developed in Japan that flexibly connects siloed corporate databases, cloud services, and files across a spectrum ranging from no-code to high-code development. While intuitive drag-and-drop operations enable non-engineers to easily build integration workflows, the platform also provides advanced data processing via JavaScript alongside staging features for robust environment management.

It was highly praised for seamlessly scaling from small-scale deployments to enterprise-wide data integration, significantly contributing to corporate digital transformation (DX) and the establishment of unified data utilization foundations.

### 2. MCP-Compatible AI Platform: "mitoco Buddy"

**Winner of the "AI Service Integration Award" (AI Core Business Systems ASP/SaaS Category)**

"mitoco Buddy" is an enterprise AI platform that connects generative AI with internal systems and cloud tools, enabling AI agents to automate workflows through natural conversational prompts. Organizations can select the optimal model from multiple Large Language Models (LLMs) and effortlessly connect with over 50 SaaS applications and on-premises environments via the Model Context Protocol (MCP) and APIs.

The platform was recognized for delivering practical, real-world AI adoption backed by enterprise-grade security and reliability, including audit logs, Data Loss Prevention (DLP) capabilities, and international security certifications.

## Outlook

Encouraged by these honors, TerraSky will continue advancing the capabilities and features of both "mitoco X" and "mitoco Buddy." Through these initiatives, TerraSky remains committed to further accelerating enterprise adoption of cloud and AI technologies via the "mitoco" series, helping organizations streamline operations and elevate overall productivity.
