Notice Regarding Change of Stock Market Listing to First Section of Tokyo Stock Exchange

UT Group Co., Ltd. changed its stock market listing of its shares to the First Section of the Tokyo Stock Exchange from the JASDAQ (Standard) Market of the same exchange on November 14, 2019. Since 2003 when we became the first listed company in the manufacturing dispatch industry, we have strived to be engaged in business that is open to society. We are grateful at this time to have been upgraded in our listing to the First Section of the Tokyo Stock Exchange.

The year of 2019 marks the 25th year since the company was established and is becoming a time of great significance. We would like to express our deep appreciation of our relationships with client companies for their cooperation in creating good workplaces, appreciation also of our shareholders for their understanding and support of our philosophy and strategy, and appreciation of all of our employees, including technical employees who work in client companies' workplaces, for their everyday efforts. The change in stock market listing could not have been possible without these three groups and we regard it as the result of persistently focusing on good relationships with all stakeholders.

The labor market in Japan has drastically changed in the last 25 years and is facing an unavoidable challenge of a declining working population. Taking the change in stock market listing as a part of our evolution, we intend to carry out the business of creating a platform that contributes to client companies in their structural reform, in addition to the personnel dispatch area, and that realizes more and diverse career options to workers.

"Creating vigorous workplaces empowering workers."

With this abiding mission, UT Group is taking up more challenges. We will continue to strive to further raise corporate value and respond to expectations of our stakeholders. We ask for your continued support.
