ExaWizards and Dirbato Announce Business Alliance to Accelerate Corporate AX and AI Agent Utilization

— Fusing "AI Products" and "Consulting Execution Capabilities" to Provide One-Stop Support to Improve Productivity and Solve Challenges in Japanese Companies —

ExaWizards Inc. (Minato-ku, Tokyo; Representative Director, President & CEO: Makoto Haruta; hereinafter "ExaWizards") have announced a business alliance agreement with Dirbato Co., Ltd (Headquarters: Minato-ku, Tokyo; Founder & CEO: Yasuhide Kanayama; hereinafter "Dirbato"), an IT consulting firm that supports corporate transformation by integrating technology and business. Combining ExaWizards' AI/AI agent development technologies and AI products with Dirbato's extensive experience in generative AI consulting and development built over the years will allow the two companies to support the implementation of AI Transformation (AX) and AI agents in corporations.

☑ **Background**

The urgent need for Japanese companies to improve productivity through DX is driven by a declining workforce due to a low birthrate and aging population. The rapid spread of "Generative AI" is pushing companies to conduct proofs of concept, implement AI into their operations, and fundamentally transform their business processes.

ExaWizards provides a suite of AI/AI agents that support everything from operational efficiency to business transformation, assisting with the planning, design, construction, and utilization of AI agents tailored to customer operations. ExaWizards has a proven track record of delivering solutions to over 2,000 clients, with successful implementations across a wide range of industries.

Dirbato, operating under the slogan "Technology x Creative," is a consulting firm with an extensive track record in generative AI, providing end-to-end support from strategy to implementation. It developes and operates generative AI applications for both internal use and clients, while providing AI

consulting services to clients. Through comprehensive training programs for its own consultants, Dirbato has built AI expertise across the entire organization.

This alliance combines ExaWizards' AI/AI agent development technologies, AI products, and practical knowledge in building, introducing, and utilizing AI agents with Dirbato's understanding of customer challenges and implementation capabilities to provide seamless support from strategy formulation to AI implementation and establishment, assisting corporations with their AX and the implementation and utilization of AI/AI agents.

☑ **Main Areas of Collaboration**

1. **Joint Development of Industry-Specific AI Solutions/AI Agents**
   The two companies will jointly develop new AI solutions to solve common challenges in industries where both have strengths, such as finance, manufacturing, and healthcare. They will leverage Dirbato's field-driven insights and experience in generative AI development with ExaWizards' multimodal AI technology and other capabilities.

2. **Joint Expansion of Business Process Re-Engineering Consulting Using Generative AI/AI**
   This partnership will combine ExaWizards' AI products, including "exaBase Generative AI" and the AI agent development platform "exaBase Studio," and their extensive expertise gained from building and deploying AI agents for numerous companies, with Dirbato's consulting expertise from its past generative AI consulting and development projects. They will jointly support customers from business process diagnosis to the establishment of specific operational efficiency solutions utilizing generative AI.

3. **Nurturing AI/DX Talent and Building a Talent Ecosystem**
   This alliance will utilize ExaWizards' "exaBase DX Assessment & Learning" to visualize and enhance the AI/DX skills of Dirbato's consultants, increasing the number of consultants with advanced AI knowledge to maximize value provided to customers. Technical exchanges between the engineers and data scientists of both companies will build an ecosystem of skilled IT professionals.

☑ **Comments**

Yasuhide Kanayama, Founder & CEO, Dirbato Co., Ltd

Since our founding, we have remained steadfast in its commitment to elevating IT talent value. Through hands-on experience in generative AI—both internally and with clients—we have built deep practical expertise. Our partnership with ExaWizards combines this experience with their cutting-edge AI products and technology, dramatically broadening our solution portfolio. Together we will create a society where we can deliver 'joy' to working people and consumers through the power of technology."

Makoto Haruta, Representative Director, President & CEO, ExaWizards Inc.

"I am excited to collaborate with Dirbato, who has a broad customer base and strong execution capabilities, to improve Japan's productivity. Combining our AI technologies and product suite with their consulting power will accelerate the achievement of a 'society where AI agents are commonplace' and lead the way in solving Japan's social issues."
