CORE CONCEPT TECHNOLOGIES INC.

News Release

March 10, 2026

Core Concept Technologies Inc.

Securities code: 4371 (Growth Market of TSE)

CCT Selected as a Constituent of the JPX Start-Up Acceleration 100 Index

Core Concept Technologies Inc. (headquartered in Toshima City, Tokyo; Representative Director, President and CEO: Takeshi Kaneko; hereinafter referred to as "our Company") is pleased to announce that we have been selected as a constituent of the JPX Start-Up Acceleration 100 Index (JPX Startup 100) calculated and published by JPX Market Innovation & Research, Inc.

This index is comprised of 100 of Japan's leading high-growth startups. It has been calculated and distributed in real-time since March 9, 2026.

■What is the JPX Startup 100?

The JPX Startup 100 is a new stock index selected by JPX Market Innovation & Research, Inc. in the Japan Exchange Group, Inc. based on two growth indicators: the sales growth rate and the market capitalization growth rate.

Targeting companies listed on the Tokyo Stock Exchange Growth Market and companies within a certain period of time after changing markets, this index has been provided since 2026 to visualize the growth potential of start-up companies.

■About the selection of our Company

Our Company is striving to solve issues in the IT industry through two pillars: support for DX in which we leverage our deep knowledge on manufacturing and broad technical capabilities in the digital field to comprehensively support customers from defining ideal state to system development and in-house production; and support for staffing of IT personnel in which we utilize our business partner network. Our Company believes that these efforts have led to sustained business growth and thus recognition in this new index.

Our Company will continue to contribute to the sustainable development of industry by creating medium- to long-term value for our customers through their businesses.

■About Core Concept Technologies Inc.

Core Concept Technologies Inc. offers support for DX with a focus on the manufacturing, construction, and logistics industries, and support for staffing of IT personnel which enables us to deal with a broad range of industries. Utilizing our DX development base "Orizuru" and the extensive business partner network "Ohgi," we closely support customers from the definition of ideal state to technical verification, system construction, operation and maintenance, and in-house production in a comprehesive manner.
