1. Overview of Operating Results, etc.

(1) Overview of Operating Results for the Six Months Ended September 30, 2026

The domestic E-Commerce market, which is the Group's primary business area, continues to grow, driven by the diversification of products sold and the increased flow of information via social media. The market is steadily expanding alongside changes in lifestyles and work styles, and the use of E-Commerce in consumer purchasing behavior has become firmly established. Meanwhile, the environment surrounding E-Commerce operators has become increasingly sophisticated and complex. In addition to addressing rising operating costs, such as personnel and logistics expenses, E-Commerce operators face urgent challenges in developing businesses that keep pace with market trends and improving back-office efficiency through labor-saving measures and automation. These challenges also include promoting OMO (Online Merges with Offline) and responding to advanced technologies such as generative AI, as well as social commerce.

In response to these circumstances, the Group has been actively expanding its business areas to solve the challenges of E-Commerce operators, aiming to be an E-Commerce platform that maximizes the power of people using our technology. In addition to expanding optional and alliance services that lead to increased store sales and promoting the E-Commerce consulting business, we focused on providing solutions that combine social media with E-Commerce and developing automated back-office solutions utilizing generative AI. Furthermore, the Group is investing in the environmental and energy business to develop and globally expand solutions utilizing its unique technologies to address global environmental issues, such as the rapid increase in power consumption and energy shortages accompanying the expanded use of generative AI, and global warming caused by fossil fuel dependence. Additionally, our Group is expanding financial services to help small and medium-sized businesses and E-Commerce operators improve cash flow and secure growth funding.

Through these initiatives, we have launched a new financial business in addition to our existing E-Commerce platform and environmental energy businesses, striving to further strengthen our business foundation and provide value that meets the needs of the times.

In addition, our Group’s reportable segments previously consisted of a single segment, the “EC platform business,” but from the current interim consolidated accounting period, we have added this business as “other business” to our reportable segments because our consolidated subsidiary TradeSafe Inc. has commenced full-scale operations of its financial business.

E-Commerce Platform Business

Future Shop Co.,Ltd.

Future Shop Co.,Ltd.(hereinafter “Future Shop”), which provides “futureshop”, released “future Scenario Cast,” a function that automates CRM and email marketing, and revamped the management screen to improve operational efficiency. Future Shop also enhanced social commerce integration, primarily with TikTok, and expanded the “future Review” function. To adapt to the generative AI era, Future Shop significantly upgraded the structured data output platform and advanced integration with AI and marketing tools. While continuing to enhance features and services to support the growth of E-Commerce businesses, Future Shop revised its basic fees in August 2026. With these growth investments, sales progressed steadily, Future Shop recorded year-on-year increases in both sales and profits.

Softel Inc.

Softel Inc. (hereinafter “Softel”), the provider of “Tsuhan-Suruzo”, celebrates its 25th anniversary and continues to focus on highly demanded customized proposals by leveraging its accumulated expertise in centralized EC management and logistics efficiency. Softel is promoting AI-driven development, primarily for maintenance work, and is at a stage of further increasing its use as AI technology advances. However, during the interim period under review, delayed large-scale projects affected results, leading to year-on-year decreases in both sales and profits.

Others

Commerce Connect Co., Ltd. continues to develop an integrated EC platform with next-generation order management and centralized inventory control functions powered by AI.

Other Businesses

Since July 2026, TradeSafe Inc. has been fully offering the "OneCredit. Service," a factoring service that converts future receivables into cash early, and the "OneCredit. Card Payment" service, which allows invoices payable by bank transfer to be paid by credit card. The company plans to expand its business further.

Additionally, the "Survey Project for Biochar Production as a Coal Substitute for the Steel Industry in the Republic of the Philippines, the Republic of Indonesia, and Malaysia," which was selected for the Ministry of Economy, Trade and Industry's "FY2024 Supplementary Global South Future-Oriented Co-Creation Project Subsidy (Small-scale Demonstration/FS Project)," has commenced at our Group company, Enecycle Inc. Through this business, we are conducting surveys to select optimal locations for carbonization plants and build supply chains in Southeast Asia, working toward commercializing the support for decarbonization in the steel industry and the stable supply of biochar.

As a result, during the six months ended September 30, 2026, the operating results of the Group and the financial results of its main consolidated subsidiaries were as follows.

[Consolidated Financial Results]

(Thousands of yen)

	Six months ended September 30, 2025 (cumulative)	Six months ended September 30, 2026 (cumulative)	Increase / decrease	Percentage (%)

	Operating profit	51,183	19,546	(31,636)	(61.8)

(2) Overview of Financial Position for the Six Months Ended September 30, 2026

Total assets decreased by ¥258 thousand from the end of the previous fiscal year to ¥3,627,641 thousand. Current assets decreased by ¥90,225 thousand from the end of the previous fiscal year to ¥2,382,716 thousand. This was mainly due to a ¥269,969 thousand decrease in cash and deposits from dividend payments and acquisition of treasury stock.

Non-current assets increased by ¥89,967 thousand from the end of the previous fiscal year to ¥1,244,925 thousand. This was mainly due to an increase of ¥61,882 thousand in investment securities from the increase in the market value of Taiwan stocks held.

Liabilities increased by ¥23,223 thousand from the end of the previous fiscal year to ¥1,025,221 thousand. This was mainly due to a ¥7,063 thousand decrease in income taxes payable, while advances received increased by ¥31,977 thousand and deferred tax liabilities increased by ¥1,634 thousand due to the increase in the market value of Taiwan stocks.

Net assets decreased by ¥23,481 thousand from the end of the previous fiscal year to ¥2,602,420 thousand. This

was mainly due to the recording of interim net income attributable to owners of parent and an increase in valuation difference on available-for-sale securities from the increase in the market value of Taiwan stocks held, despite dividend payments and the acquisition of treasury stock.
As a result, the equity-to-asset ratio was 71.6% compared to 72.1% at the end of the previous fiscal year.

(Cash flows)
Cash and cash equivalents (hereinafter "net cash") during the six months ended September 30, 2026 decreased by ¥269,969 thousand from the end of the previous fiscal year to ¥1,605,596 thousand.
The status of each cash flow during the six months ended September 30, 2026 and their factors are as follows:

(Cash flows from operating activities)
Net cash provided by operating activities was ¥14,285 thousand.
This was mainly due to income before income taxes of ¥230,008 thousand, ¥60,922 thousand in depreciation, an increase of ¥31,977 thousand in advances received, an increase of ¥18,474 thousand in deposits, and ¥124,906 thousand in income taxes paid.

(Cash flows from investing activities)
Net cash used in investing activities was ¥102,326 thousand.
This was mainly due to ¥68,853 thousand spent to acquire non-current assets for software development of new functions at Future Shop and Commerce Connect and ¥32,474 thousand spent on the purchase of investment securities associated with investments in a US mega-venture fund.

(Cash flows from financing activities)
Net cash used in financing activities was ¥182,328 thousand.
This was mainly due to ¥101,097 thousand spent on the purchase of treasury shares and ¥77,104 thousand in dividend payments.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-Looking Information
Regarding the full-year financial results forecast for the fiscal year ending March 31, 2027, there are no changes from the forecast announced in the previous earnings summary (May 14, 2026).
We forecast full-year net sales of ¥4,345 million, operating profit of ¥500 million, ordinary profit of ¥511 million, and profit attributable to owners of parent ¥326 million.
The performance during the six months ended September 30, 2026 is progressing steadily compared to the forecast.

These forecasts are based on information currently available to the Company and certain assumptions deemed reasonable, and actual results may differ from these forecasts due to various factors.

(4) Notes to Interim Consolidated Financial Statements

(Notes on going concern assumption)
Not applicable.

(Notes in case of significant changes in shareholders' equity)
For the six months ended September 30, 2025 (From April 1, 2025 to September 30, 2025)
In accordance with the resolution of the Board of Directors on April 14, 2025, the Company repurchased its own shares of 52,900 shares. As a result, during the six months ended September 30, 2025, the value of treasury shares increased by ¥42,583 thousand, and the value of treasury shares as of September 30, 2025 was ¥99,827 thousand.

For the six months ended September 30, 2026 (From April 1, 2026 to September 30, 2026)
In accordance with the resolution of the Board of Directors on November 14, 2025, the Company repurchased its own shares of 15,000 shares for ¥11,189 thousand, and in accordance with the resolution of the Board of Directors on May 14, 2026, repurchased its own shares of 50,000 shares for ¥35,719 thousand. In addition, pursuant to a resolution of the Board of Directors on June 12, 2026, 50,000 treasury shares were acquired for ¥40,144 thousand, and pursuant to a resolution of the Board of Directors on August 14, 2026, 17,400 treasury shares were acquired for ¥13,441 thousand. As a result, the value of treasury shares as of September 30, 2026 is ¥239,827 thousand.

(Changes in accounting policies)
The "Practical Guidelines for Accounting for Financial Instruments" (Transferred Guideline No. 9, March 11, 2025, hereinafter referred to as the "Revised Financial Instruments Practical Guidelines") have been applied from the beginning of the current interim period. As a result, for investments in partnerships, etc. that meet the requirements stipulated in Paragraph 132-2 of the Revised Financial Instruments Practical Guidelines, stocks without market prices (excluding stocks of the Company's subsidiaries and affiliated companies) included in the constituent assets of such partnerships, etc. are evaluated at fair value and used as the basis for the accounting treatment of investments in partnerships, etc. This has no impact on the interim consolidated financial statements.

(Segment information)

(1) For the six months ended September 30, 2025 (From April 1, 2025 to September 30, 2025)

Segment information is omitted as the Group's business segment consists of a single segment, the E-Commerce platform business, and the information is insignificant.

(2) For the six months ended September 30, 2026 (From April 1, 2026 to September 30, 2026)

(i) Information on net sales and profit or loss by reportable segment

(Thousands of yen)

	Segment		Other	Total	Adjustment (Note 1)	Amount recorded in the interim consolidated statement of income (Note 2)
	E-Commerce platform	Total				
Net sales						
Net sales to external customers	1,983,297	1,983,297	6,237	1,989,535	—	1,989,535
Intersegment net sales or transfers	4,865	4,865	—	4,865	(4,865)	—
Total	1,988,162	1,988,162	6,237	1,994,400	(4,865)	1,989,535
Segment profit	332,408	332,408	4,621	337,030	(138,365)	198,664

Note1:The adjustment of (138,365) thousand yen for segment profit mainly consists of corporate expenses not allocated to each reportable segment, primarily general and administrative expenses.

Note2:Segment profit is consistent with operating profit in the interim consolidated statement of income.

(ii) Information on impairment loss on non-current assets or goodwill by reportable segment

Not applicable.

(iii) Matters concerning changes in reportable segments

Since the Group has previously operated as a single segment consisting only of the E-Commerce

platform business, we omitted segment information. However, from this interim consolidated accounting period, we have launched the financial services business to support small and medium-sized enterprises and E-Commerce businesses in improving cash flow and securing growth funds. Accordingly, we have categorized and disclosed the financial services business as "Other" from this interim consolidated accounting period.
