Mochida Pharmaceutical is engaged in the biomaterials business that involves projects based on alginate, which has numerous potential applications in the medical and biotechnological field. As part of the global expansion of the biomaterials business, Mochida Pharmaceutical has established Mochida Medical USA, Inc. as a base for its U.S. operations. Mochida Medical USA, Inc. is expected to focus on activities including the sales of ReFeel, a material that supports nerve regeneration, and the development of new medical devices in the U.S.
Through these activities in the U.S., Mochida Pharmaceutical will strive to contribute to improving patients’ quality of life.
