Notice Concerning Potential Leak of Customer Information Due to Unauthorized Access to an Outsourced Contractor

HUMAN MADE Inc. (the "Company") hereby announces that unauthorized access by a third party occurred between November 8 and November 9, 2026, at OPENLOGI Inc. ("OPENLOGI"), a company to which the Company outsources logistics operations for its "CURRY UP" brand. Consequently, it was discovered that personal information included in the shipping data entrusted to OPENLOGI may have been leaked. There has been no impact on the Company's other brands, including "HUMAN MADE," and no unauthorized access to the Company's own systems has been detected.
We sincerely apologize for the immense inconvenience and concern this may cause to our customers and all relevant parties. The facts currently identified are as follows:

1. Personal Information that May Have Been Leaked

The following information included in shipping data for the period from April 8 to November 8, 2026, pertaining to products purchased through the "CURRY UP" e-commerce website:
(1) Recipient name
(2) Address
(3) Telephone number
(4) Email address
(5) Information on products to be delivered (product name, quantity, etc.)
As OPENLOGI does not retain credit card information, the personal information that may have been leaked does not include any credit card details.

2. Current Status and Future Measures

According to OPENLOGI, on November 9, 2026, OPENLOGI blocked the unauthorized access by taking measures including blocking the source of the attack, restricting access from outside Japan, and resetting the login status of all users. OPENLOGI has reported that no further unauthorized access has been detected since these measures were taken and that, as of November 11, 2026, no misuse of the leaked information or specific secondary damage resulting from this incident has been confirmed.
The Company will continue to work closely with OPENLOGI and relevant parties, placing the highest priority on identifying the affected customers and determining the scope of the impact. We will promptly disclose any new findings as they become available.

3. Impact on Financial Performance

The Company anticipates that the impact of this matter on its financial performance will be minimal. However, we will promptly announce any matters that require disclosure should they arise.
