About "High-Growth Companies Asia-Pacific 2026" Ranking

This prestigious ranking, jointly compiled by the Financial Times (UK) and Statista (Germany), is now in its eighth year. The "High-Growth Companies Asia-Pacific 2026" list identifies and celebrates companies headquartered in any of the 14 countries and territories across the Asia-Pacific region. The selection process is primarily based on their revenue growth rates between the fiscal years 2021 and 2024.

About unerry, Inc.

unerry, Inc. is a data technology company founded in 2015 that operates "Beacon Bank®," a premier real-world behavior data platform. Leveraging GPS and beacon technologies, unerry utilizes proprietary AI to analyze massive indoor and outdoor location data—processing approximately 850 million IDs (including 240 million in Japan) collected via 150 mobile applications.

Under the mission "Creating a harmonious future with data," unerry provides advanced OMO (Online Merges with Offline) marketing support and develops innovative businesses aimed at realizing the next generation of smart cities. Learn more at https://www.unerry.co.jp/ir/en/.
