Store Concept	The Iwade Store is located along National Route 24, one of the major roads in Wakayama Prefecture, and is jointly developed alongside Honda Cars Kinokawa Iwade. Although Iwade has a population of approximately 53,000, it borders Wakayama, which has a population of about 340,000, providing a sufficiently large market. This is the 1st store in Wakayama Prefecture and marks the 172nd KeePer LABO store. The store is newly built and features 6 coating booths and 5 washing/finishing spaces. It is also designed to allow future expansion of the coating booths in response to increasing demand. There is a guest room with counter seating where customers can watch the work being performed, as well as a terrace space. Because the store shares the same premises as a new car dealership, customers can also use the dealership’s showroom and guest lounge, view new and used cars, and take test drives.
