Murata Manufacturing Co., Ltd (the Company) hereby announced, consideration of the recent business trend, the Company has made adjustment to the projected finance results for full year ending March 31, 2027.

②Reasons for the adjustment:

Looking ahead, the Companies forecast that revenue for the fiscal year ending March 31, 2027, will exceed the previous forecast. This outlook reflects further growth in demand related to data centers. Profit figures are also projected to exceed the previous forecast, due to profit-increasing factors such as gains from a higher operation rate resulting from an increase in production output and improvement in the product mix.

In light of these circumstances and taking into account the results for the six months ended September 30, 2026, the company has revised projected consolidated financial results for the fiscal year ending March 31, 2027, which were announced on July 31, 2026.
For the above projected finance results, the assumed exchange rate from the third quarter of this fiscal year onwards remains unchanged at 155 yen against the U.S. dollar from the previous forecast.

Note: The above projected finance results are based on information currently available to the Company. Due to various factors, actual results may differ from such the projected finance results.
