(Reason for the revision)

In the first six months of the fiscal year (September 2025-February 2026), the number of members exceeded expectations and merchandise sales improved, resulting in sales and all profit figures setting new highs for the first six months of the fiscal year, as well as significantly exceeding the financial results forecast.

In light of the current situation, including steady increases in the number of members and merchandise sales, the Company has upwardly revised our full-year financial results forecast.

Results for the previous fiscal year (Fiscal year ended August 31, 2025)	8.00	9.00	17.00

(Reason for the revision)

The Company recognizes return of profit to shareholders as one of the priority management issues. Since its listing on March 2, 2020, it has declared a policy of aiming for a consolidated dividend payout ratio of 50%. Taking into account this policy and the aforementioned upward revision of the consolidated financial results forecast for the fiscal year ending August 31, 2026, the Company has decided to pay a year-end dividend of 20 yen per share for the fiscal year ending August 31, 2026, an increase of 5 yen per share to commemorate the 20th anniversary of the establishment of the Curves chain. As a result, the annual dividend per share for the current fiscal year is expected to be 30 yen, an increase of 13 yen from the previous fiscal year.
