Notice of Strategic Investment in Mowito Robotics Inc., a Physical AI Company, by Subsidiary

UNISOL Holdings Corporation (hereinafter the "Company") hereby announces that the Company's consolidated subsidiary, UNISOL Corporation, has entered into an agreement to invest in Mowito Robotics Inc. (hereinafter "Mowito"), a company specializing in the development of AI control technology for industrial robots, through the subscription to SAFE (Simple Agreement for Future Equity). The details are as follows.

1. Background

Mowito is a deep-tech startup with a business foundation in India, established in 2021 by serial entrepreneur Mr. Adityanag Nagesh and robotics researcher Mr. Puru Rastogi. It develops and sells industrial automation solutions that apply its proprietary AI control technology.

Mowito's core technology is an AI demonstration learning platform for industrial robots. Mowito also integrates multiple advanced technologies, including real-time tracking, force control, and AI visual inspection, to deliver comprehensive automation solutions. Having successfully optimized manufacturing processes for leading clients in the automotive and electronics sectors and other clients across India, Mowito is now seeing an increase in project discussions with potential customers in North America, which firmly indicates its significant global growth potential.

UNISOL group has decided to invest in Mowito to upgrade our engineering business in the global market by leveraging Mowito's physical AI technology, and to create new business opportunities by accessing the network within the rapidly growing Indian industrial automation sector.

This strategic investment in Mowito follows our investment in EUREKA ROBOTICS PTE. LTD., which was announced in December 2024, as part of our initiatives in the physical AI domain.

Through our partnership with Mowito, we will continue to grow and develop the Group's business by providing unique and innovative automation solutions that will delight our customers.

2. Overview of Mowito

(1) Name	Mowito Robotics Inc.
(2) Headquarters	16192 Coastal Highway Lewes, Delaware 19958. USA
(3) Representative	Adityanag Nagesh
(4) Business description	Development of AI control software for industrial robots
(5) Established	July 2021

3. Future outlook

The initial impact of the agreement on the Company's consolidated financial results will be immaterial.
