Notice of Additional Investment in EUREKA ROBOTICS PTE. LTD. by Our Subsidiary

UNISOL Corporation ("UNISOL"), a consolidated subsidiary of UNISOL Holdings Corporation, hereby announces that it has signed an agreement to make an additional investment of USD 1 million in EUREKA ROBOTICS PTE. LTD. ("EUREKA"), a company which develops and markets next-generation industrial automation technology utilizing Physical AI, following the initial investment of approximately USD 500 thousand announced in December 2024.

1. Background

EUREKA is a university spin-off startup founded in 2018 by Dr. Pham Quang Cuong, an Associate Professor at Nanyang Technological University in Singapore, which develops and markets next-generation AI-powered robotics controllers and dedicated 3D cameras.

EUREKA's flagship product, the Eureka Controller, packages together key technologies such as image recognition AI, high-precision calibration, robotic path generation and force control to help implement advanced automation systems previously thought impossible in the manufacturing and logistics industries.

Since the initial investment, the UNISOL Group has been advancing collaboration with EUREKA in Japan and the USA. Amidst numerous inquiries from customers, the track record of deployments has been steadily increasing. UNISOL has decided to make this additional investment to support the strengthening of EUREKA's business platform and to build an even stronger collaborative relationship.

Through deepening our partnership with EUREKA, we will continue to grow and develop the Group's business by providing unique and innovative automation solutions that will delight our customers.

2. Overview of funding round for EUREKA

In order to strengthen its business platform, EUREKA has raised capital from SEEDS Capital, a Singapore government-linked investment arm, as the lead investor, along with UNISOL and returning investor The University of Tokyo Edge Capital Partners Co., Ltd. (UTEC).

3. Outline of the Investment Destination

(1) Name	EUREKA ROBOTICS PTE. LTD.
(2) Headquarters location	67 Ayer Rajah Crescent, #07-16/17, Singapore 139950
(3) Representative	Pham Quang Cuong
(4) Business description	R&D and marketing of robotics controllers and 3D cameras
(5) Established	May 2018

4. Future Outlook

The impact of this additional investment on the Group's financial results is expected to be minor. The Company will promptly disclose any matters requiring disclosure should they arise in the future.
