Notice on Variances Between Full-Year Consolidated Earnings Forecast and Actual Results

We hereby announce that variances have occurred between the full-year consolidated earnings forecast for the fiscal year ended March 2026, which we announced on May 9, 2025, and the actual results announced today.

1. Variances between full-year consolidated earnings forecast and actual results

(1) Variances between full-year consolidated earnings forecast for the fiscal year ended March 2026 and actual results (From April 1, 2025 to March 31, 2026)

	Revenue	Operating Profit	Ordinary profit	Profit attributable to owners of parent	Basic earnings per share
	Million yen	Million yen	Million yen	Million yen	Yen
Previous forecast (A)	33,727	1,732	1,676	1,050	137.60
Actual results (B)	37,016	2,140	2,206	1,233	170.00

(Reference) Actual results in previous fiscal year (FY2025/March)	31,385	1,661	1,723	1,224	161.66

(2) Reasons for variances

Revenue increased as a result of strong sales of high-value-added menu items, combined with various sales promotion initiatives that led to customer traffic exceeding initial projections.

In addition to the increase in revenue, operating profit, ordinary profit, and profit attributable to owners of parent all exceeded the previously announced forecasts, driven by factors such as the optimization of our product mix in response to fluctuations in purchase prices, as well as enhanced operational efficiency resulting from the expanded use of tablet ordering and self-checkout systems.
