Notice Regarding Revision to the Year-End Dividend Forecast

Credit Saison Co., Ltd. (hereinafter: "Credit Saison") hereby announces that, at a meeting held on November 13, 2026, the Board of Directors resolved to revise the year-end dividend forecast per share for the fiscal year ending March 31, 2027, as described below.

1. Revision of year-end dividend forecast

	Previous forecast	Current revised forecast	Previous fiscal year actual
Year-end dividend per share	160.00 yen	175.00 yen	130.00 yen

2. Reason for revision

Credit Saison's basic policy is to provide stable and continuous dividends to its shareholders while making investments to strengthen its corporate structure and achieve sustainable growth. In addition, under the current Medium-Term Management Plan, Credit Saison has set a target dividend payout ratio of at least 30%.

In light of the business results of the Credit Saison Group for the six months ended September 30, 2026 and the business environment, Credit Saison has revised the full-year earnings forecast announced on May 15, 2026.

With a view to achieving both the target of a dividend payout ratio of at least 30% set forth in the Medium-Term Management Plan and the basic policy of stable and continuous dividends, Credit Saison excluded one-time gains from the profit level and considered the dividend level on that basis.

As a result, Credit Saison has revised its year-end dividend forecast per share for the fiscal year ending March 31, 2027 to 175 yen, an increase of 15 yen from the previous forecast of 160 yen.

For details of the revision to the earnings forecast, please refer to "Notification Regarding the Revision of Forecast of Business Results for the Full Fiscal Year Ending March 31, 2027 (Consolidated and Non-Consolidated)" announced today (November 13, 2026).
